

## DAWES FORESEES DEPRESSION END AFTER MID-YEAR

Former Vice-President Tells Chicago Prosperity Will Return by June

### CITES PREVIOUS SLUMPS

Durable Goods Increase Will Lead Swing to Normalcy, Banker Asserts

By EVERETT HOLLES  
CHICAGO, Dec. 12 (UPI)—Charles G. Dawes, former vice-president of the United States, announced today that the depression should be completely wiped out "not later than next June or July."

That date, he said, will mark the commencement of the year of full business prosperity in the country, just as Black Thursday marked the beginning of the crash on Oct. 28, 1929.

Dawes, who headed the first governmental agency set up for relief of the nation's distressed industries and agriculturalists, his prediction—now called it a "definite prophecy"—at a luncheon of the Chicago Association of Commerce.

Louis Roosevelt

The former official in the Republican administrations of Calvin Coolidge and Herbert Hoover gave full credit to President Roosevelt for restoring the country's lost confidence and paving the way for recovery.

"I suggest," he said, "that not later than June or July next you should see the beginning of a great sustained demand for durable goods due to the accumulation of five years of postponed demands."

"That time also should mark the commencement of the year of full business prosperity."

He based his announcement on a series of charts showing the upswing in the mass demand for durable goods—pig iron and steel—in the depressions of 1873, 1893 and 1920.

Dawes said he applauded President Roosevelt's phrase, "despite the views of some as to the psychological effects upon confidence of this or that event."

"I think it may be justly assumed," he declared, "that lost mass confidence was restored by President Roosevelt's bank moratorium and the fact that after that date the general course of business in consumer goods re-

## BLAZING METEOR STARTLES TOWN

Ball of Fire Burns 100 Feet Above Nebraska City, Then Crashes on Plains

ALVO, Neb., Dec. 12 (UPI)—A "ball of fire as big as a house," apparently a meteor, zoomed across southeastern Nebraska early today, it burst with a "terrific explosion," reported to have shaken buildings here and as far away as Lincoln.

W. R. Holmes, Rock Island night operator here, reported seeing the phenomenon. He said the projectile whizzed over Alvo in a south-easterly direction at a great rate of speed.

"The ball of fire appeared to be traveling not more than 100 feet from the ground," Holmes said. "It lit up the entire countryside."

It was frightened. The thing took the entire population. It was all over in no time at all."

Holmes said the display disappeared after the explosion, and he believes the object might have fallen more than 100 miles away.

Alvo is a small town some 40 miles from Omaha, near the Missouri and Kansas borders.

## ARMY CAPTAIN Flier Crashed to Death

BOSTON, Dec. 12 (UPI)—Time bombs, said by police to have been placed by labor agitators, exploded almost simultaneously in three theaters, the Capitol, and the Strand, Boston, yesterday.

One bomb exploded in the Strand, and two others exploded in the Capitol and the Strand theater in Pawtucket, R. I.

Two persons, charwomen in the Strand theater, were report-

## Girl Endurance Fliers Fail With Success in Sight

With only 32 hours separating them from a new endurance flying record for women, Irene Summer, top right, and Jean La Rose were forced to descend Saturday at Wiley Post airport, Oklahoma City. The girls had been up continuously for nine days in their plane, the Miss Oklahoma. The record is slightly more than 10 days. Above at left, a refueling ship sends gasoline into the tanks of the Miss Oklahoma.

## TOTAL OF MISSING, DEAD SET AT 50 IN HOTEL FIRE

### DU PONT WARNS OF GAS ATTACKS

Powder Manufacturer Informs Senators' Airplane Fleets Can Kill Olyrians

WASHINGTON, Dec. 12 (UPI)—Irene du Pont, Delaware powder manufacturer, told the Senate committee investigating airplane fleets that floats of airplanes carrying poison gas and incendiary bombs could destroy civilian populations in great cities in future wars.

He testified that as the committee began an inquiry into his company's chemical industrial activities,

"Dangerous Weapon"

Du Pont first told of suggesting to the late Coleman du Pont, head of the firm in 1900, development of an American chemical industry.

"I told him of my dream," he said. "I wanted to get all the American companies together. He liked the idea but did not do nothing as the government did not want us as a trust."

Then he told the committee poison gas would be a deadly weapon in the next war.

"One writer says a single plane could destroy the civilian population of New York City," he said. "That's foolish. That would take a great deal of gas."

"How many would it take?" asked Senator Bennett Champ Clark, D. Mo.

Suggested Mergers

"One plane couldn't do it," du Pont replied. "But gas is a very dangerous weapon. If an enemy had enough planes and enough gas, the whole population would be in a bad way."

Clark said a French scientist once said 100 planes could blanket Paris with gas to a depth of 100 feet.

## BLASTS SET OFF IN LABOR FIGHT

BOSTON, Dec. 12 (UPI)—Time bombs, said by police to have been placed by labor agitators, exploded almost simultaneously in three theaters, the Strand, and the Strand, Boston, yesterday.

One bomb exploded in the Strand, and two others exploded in the Capitol and the Strand theater in Pawtucket, R. I.

Two persons, charwomen in the Strand theater, were report-

## Success in Sight

### Liquor Board Urges Strict Sale Control

BOISE, Idaho, Dec. 12 (UPI)—Idaho probably will follow the liquor control plan blazed by Montana, favored by an official Utah survey committee, comparison of results of Idaho's survey revealed today.

Montana was the first of the northern Rocky mountain states to set up its liquor-control system after prohibition's repeal. Idaho and Utah legalized 3.2 beer but pending legislation in both states must write the rules for sale of hard liquor.

Idaho Report

The Idaho report, released after more than a year's study of various state systems, recommended:

A state liquor control board be established. This department would be controlled by the governor to serve him four terms in rotation.

Distributors, importers, transportation, retailers, manufacturers would have to pay license fees to operate.

No Bar Sales

Saloon altered, may handle only original package goods. Other sales only in restaurants to persons seated at tables after purchase of a regular meal. Retail price to be fixed by liquor control director.

Permit holders, minors may not buy permits.

Women or minors may not be employed in places selling liquor.

Members of the committee were:

Mrs. Mrs. Hunt, Dooley, Boise; James E. Bruce, Boise; Rev. Hugh Pouk, Jr., Boise; William S. Cody, Pocatello; J. M. White, St. Anthony; C. J. Carlson, Idaho Falls; and W. F. McNaughton, Cheyenne. Cody was chairman of the group.

Can't Work Miracle

"I'm sorry for many of them," the kindly appearing warden said. "Some are blabber. I would be willing to trust them—in prison—but I would keep them there because they have the right to commit the crime and they cannot work the miracle of overcoming it."

Joseph G. Hutchinson, circuit court of appeals judge at Houston, Texas, called local Juile "the grammar school of crime."

He said he had found conditions in many county jails almost too horrible to believe.

Barbarous Conditions

"I found conditions taken for granted by those in charge as medieval and barbarous and no contrary to the ordinary principle of democracy and social Justice that I was shocked beyond expression," he said.

"I found that men with lungs and hearts, nerves and brains like animals were put up for months on end with hardly anything to do. They had no chance to open air, no opportunity for

### 15 Bodies Recovered As Probe of Ruins Is Started

LANSING, Mich., Dec. 12 (UPI)—Fear that 40 or 50 persons died in the fire that swept Michigan's largest received quite substantiation today in the slowly filling Empress Hotel morgue across the street from the ruins.

By CLAUDE J. MARKLE  
LANSING, Mich., Dec. 12 (UPI)—A total of 16 bodies, totalling fully 50 today marked the still smoldering ruins of the Hotel Kresge, the scene of one of the country's most frightful disasters.

Fifteen were known dead in the fire that swept the structure yesterday, but authorities feared that if not all the missing eventually would be listed as victims.

With bodies recovered today from all but Springfield precinct, where the normal vote is less than 50, the vote shows Shepherd receiving 421 ballots, Sayre 383, and W. H. Burkhardt, Biles, an opponent of Sayre's, receiving 87 ballots.

Hold-over members of the board are J. H. Parker, and A. A. Davis, Buhl; H. K. Miller, Springfield; W. H. Spence, Kimberly; and C. J. Chapman, Wendell.

With names received today from

the vote were:

	Twin Falls	Idaho Falls	Buhl	Jordan	Wendell	Biles
Total	88	77	6	71	44	7
Filler	40	45	4	47	43	15
Others	30	30	26	33	29	29
Total	421	383	87	132	118	50

Shoppers Crowd WEEKLY AUCTION

Throgs Attracted by Second Sale Series; Merchants Offer Bargains

Crowds of shoppers thronged Twin Falls today, attracted by the Christmas shopping inducements and the weekly auction of merchandise at Empire exposition headquarters.

Three hundred dollars' worth of goods were offered in exchange for gold in "easymoney" series, which local merchants are giving dollar for dollar for purchases made during December, January and February.

Auctions were held at 11 a. m. and at 2 p. m. The concluding one is scheduled for 6 p. m., following which a quantity of merchandise will be given away. The exposition will be kept open to-night and Saturday until 9:30, officials state.

On the auction block today were Al Gilbert and Pat Brannin, the latter being general chairman of the exposition and trade carnival.

On the auction block today were Al Gilbert and Pat Brannin, the latter being general chairman of the exposition and trade carnival.

ROCKS ON RAILS; 2 TRAINMEN DIE

DRIBBLE, Colo., Dec. 12 (UPI)—Two trainmen were killed near Rio Grande, western passenger train struck two large boulders which had rolled on to the tracks, and the engine was precipitated into the bed of the Colorado river.

No passenger was injured, although a baggage car and one coach were derailed.

The train was

# CALLS MEET TO HIT WAR PROFIT

## News in Brief

# DAWES FORESEES DEPRESSION END

**Former Vice-President Tells Chicago Prosperity Will Return by June**

(Continued From Page One) World war in a great hurry. Although pointing out that we stumbled through, he feels that there has existed for a long time widespread sentiment among law to eliminate the evils that were made possible by the conflict.

Principal students of the question of taking profit out of war, he said, have been Burch and Johnson, who have worked several years on the possibility of legislation along those lines.

They appeared, he explained, at a number of legislative hearings on Capitol Hill at which the whole subject was canvassed, although no legislation was passed.

The president believes that with his help he will be able to work out a comprehensive program in order that a special message on the subject can be sent to Congress early in the winter.

He regards such a program as one of the most important to be presented.

## OPPOSE PROGRAM

**WASHINGTON, Dec. 12 (UPI)—** Authors of the resolution under which the Senate is investigating the munitions traffic today attacked President Roosevelt's program of legislation to take profits out of war.

Chairman Gerald P. Nye, R., N. D., and Senator Arthur H. Vandenberg, R., Mich., of the arm committee issued formal statements describing Mr. Roosevelt's proposal as "unfortunate."

"I am sure we shall welcome this high co-operation," said Vandenberg, "but I am equally sure that this is one instance where Congress will write its own ticket."

Nye, in a comprehensive hearing, had shown that "the departments of government are really co-defendants with the munitions industry and the profiteers."

"Instead of letting these departments now write the remedial legislation," he said, "let us first have the full knowledge of the part they have played in creating the need for the remedy."

## Oakley Wards Hold Group Conferences

**OAKLEY, Dec. 12 (Special)—** Sunday school conference of the First D. S. church was held Sunday in the first ward. The following reports were given: gospel doctrine, Frederick Van Wyen; missionary, Verla Hale and Forrest Severe; Book of Mormon, Wm. Martinlind and Donald Rice; church history, Dona Faye Clark; class demonstrations, Erma Hale and Delta Severe for the primary and Delta Fowles and Cleo Gahr for the middle school; gospel, F. Jurgens; prayer, the invocation, and Maye Marmalade, the benediction.

Bible Society conference was also held in the Second ward Sunday. Talks were given by Penelope Nelson, Louis Faerchild and Remmyne discourses by Chester and William Babblett, Boyd Hunter and Howard Taymon.

**150 League Members Attend Hansen Meet**

**HANSEN, Dec. 12 (Special)—** All Epworth leagues in the sub-district including the towns from Rupert to Castorland met in Hansen for the mid-winter institute on Sunday. More than 150 attended.

The afternoon program consisted of pep talks by Rev. George G. Roasherry, Rupert, Rev. G. L. Kendall, Buhi, and members of the different leagues. The Hurley league presented a pep stunt. Sub-district officers were introduced during a brief business meeting. After a recreational period of games a lunch was served in the hall.

After the luncheon the各段落 led down to the Epworth hall for the evening service. Vance Fleming told of leagues he visited last summer. A vocal solo was used as the benediction.

## FAIRFIELD

**Mr. and Mrs. Beryl Chase spent the week-end in Boise at the home of Mr. Chase's parents. Mr. Chase is associated with the Camas Court, Inc.**

The enrollment of the adult education class has reached 25, announces Mrs. T. C. Burns. Interest is growing, she states.

Students of the Camas County high school presented a musical program Friday evening in the school auditorium. Under the direction of Mrs. Luna Deane and Harry Endig, the following numbers were presented: Selection, orchestra; reading, Jane Young; "Rhythmic Poems"; dancing class; selection, guitar club; operetta, boys' and girls' glee club. Miss Anna Neway was pianist.

Mrs. Leahy and daughter, Norma, left Thursday for Portland, where they plan to spend the winter. They went by motor.

**ENGINE TO BE MOVED**

**HAGERMAN, Dec. 12 (Special)—** Herman Anderson, W. Chamer and Bob Anderson left Sunday for Ditchell, where Anderson will oversee the loading and hauling of a large locomotive. This engine, the last in the desert near Ditchell, where the work was completed on the irrigation ditch from the Snake River, after four years of labor, was built by the Hagerman Locomotive Works in 1888.

Anderson and his wife, Mrs. Anna, and their son, Ramah,

are now ready at the Clos Book Store-Adv.

## PLANS DIVORCE

**May Start Suit Soon Over Doug's Globe-Trotting Proclivities**

(Copyright, 1934, United Press) HOLLYWOOD, Dec. 12 (UPI)—It'll be another bleak Christmas at Pickfair. Douglas Fairbanks and Mary will still be apart.

Apparently well-founded reports

today were that they may be divorced.

The United Press was informed by an authoritative source that Miss Pickford planning to prosecute her divorce suit before Jan. 1, and all the time pending trial a year, during which time Pickford is to remain in California.

Apparently well-founded reports

today were that they may be divorced.

Friends now are taking the position that a reconciliation is out of the question. The same old point of discord has again arisen. Doug wants to resume his globe-trotting. His wife insists on staying at home.

Pickford is now in the east, having arrived in New York yesterday to look over a scheme to plane to sail around the world. Before leaving Hollywood, he invited Mary to accompany him, but she declined, just as she had always done on his past junkets.

Gary Cooper and Marion Mitchell, who were married on the stage of a Detroit theater last year, are planning a divorce.

Obstetrician, whose name

was named in the Ruby Valentine-Waltz matrimonial fight, said to day they are planning to file for divorce. Incompatibility will be the charge, he said. They have been separated since June.

Leon, who opened an engagement at a downtown theater yesterday, said he will go to Chicago next month and that he and his wife would then decide who will fit the actress.

Valerie, contesting his wife's separate maintenance suit, accusing Leon of holding long and ardent telephone conversations with her.

Bob Daniel was excused, but Bob Lyon, her husband, was not, as a co-defendant in a \$50,000 false imprisonment suit today.

Holding that the actress was not to blame for the arrest of her former chauffeur, Fred Swetlow, the court eliminated her from Swetlow's suit. The chauffeur charged he was falsely imprisoned on suspicion of grand theft last February. He was damages from Lyon and several members of the Santa Monica police force.

**COWAN SERVICES CONDUCTED HERE**

## JUNIOR HIGH NOTES

A program of dance numbers by pupils of Mrs. Harold Merrill's dancing school were presented to the junior high school recently. Students from all the grade schools and from the junior high school took part in the dances. The program was announced by V. T. Toolan, student taking part in the program were:

Junior high school, Beeky Victoria, Judy James, Mary Jean Shipman, Delphine Letach, Patry Warmer, Marjorie Taylor, Lincoln school, Charles Burgess, George Burgess, Eddie Burgess, Helen Burgess, Kathleen King, Phyllis Kinney, Nancy Durley, Merritt, Washington school, Dorothy Kroupp, Yvonne McFarlane, Catherine Graves, Barbara Beymer, Dulcie Self, Anna Ruth Gooding, Mrs. Fred Potts, Jr., accompanied the numbers.

**TOO HOT**

KANHAS CITY, Mo., Dec. 12 (UPI)—Lloyd Mack and Dennis McKibbin, Negroes, took on a proposition that was too hot to handle. It was a stove.

A patrolman round them sitting beside their problem in a garage, the door of which had been broken.

"We came in to steal this stove, but it's too hot," one said. "We're waiting for it to cool."

# "LIFE" BEST FOR TOUGH CRIMINAL

Only Way to Handle Habitual Lawbreakers, Says Warden Of Alcatraz

(Continued From Page One) any kind of exercise except in the half-pens inside of dark walls. The convicted and the unconvicted, the beginner and the hardened, were condemned to a congregate life necessarily degrading.

"The personal contacts I made with the inmates brought a light in their shadows and reviving. Shocking that I should have to do so long gone on so complacently looking for granted the property and justice of conditions so fundamentally unjust. Revealing in opening the eyes of my mind most of these prisoners coming before me for judgment and jailings were not public enemies but average, underprivileged common men."

The attorney general's crime conference set made a permanent organization, working probably, if the nation's anti-crime drive in to succeed, Scott M. Loftus, president of the American Bar association, said.

**Pest Efforts Spurious**

He said that previous campaign against the underworld had been "spurious" and the 18 volumes of the famous Wickerham reports were gathering dust on library shelves.

John J. Quinn, Jacksonville, Fla., attorney on chairman of the relations committee, told that federal judges who are appointed for life generally are held to be better men than state judges, most of whom are elected. He said California's new system of having appellate judges appointed by the governor for their first term and thereafter elected by the voters would be a significant experiment.

He called it "appointment by the governor subject to veto by the people."

**THREE CCC MEN KILLED IN FIRE**

NOHRIS, Tenn., Dec. 12 (UPI)—Three civilian conservation corps workers, were burned to death when they leveled three wooden barracks and a mess hall at a camp near town at midnight.

The dead: Edward Kramer, 20, Nuttley, N. J.; Charles De Palma, 20, Orange, N. J.; Jacob Klein, 20, the Bronx, New York.

All others of the 200 CCC workers here at the camp were accounted for in a hasty checkup.

# BOSTON PREXY DROPS DOG RACE MOVE AT BASEBALL PARLEY

## BATTLE AVERTED BY FUCHS ACTION

*Bowling Banter*  
—by—  
**FRED STONE**

Unidentified Team Hinted as Ready to Ask Babe Ruth For Manager

NEW YORK, Dec. 12 (UPI)—Baseball's big question—whether the Boston Braves' field will go to the dogs and probably fate of Babe Ruth—remains unanswered after the first day of the major league meetings. The heat magnates could give reporters wim:

"No news." The Moguls presumed when they emerged from six hours of seclusion, yesterday, that every one knew Ford C. Frick had been officially moved in to officiate as president of the National League, and that others such anticipated routine had been dispensed with.

Drops Dog Racing

The question of Judge Tonie Ruth's right to race dogs in his back park at Boston probably will not come up at all. The Judge has decided to drop the question, according to the information. This virtually make it unanimous Frick and Judge Kenesaw Mountain Landis had dropped it before it reached them, with the statement that dog racing and baseball, won't mix.

Babe Ruth's status remained unchanged and he still is simply a vacationist abroad. But at any moment, according to the word going around, an unidentified club will seek his services as manager.

All-Star Game

The annual All-Star inter-league game was voted to Cleveland. It probably will be played July 8. The expected tightening up on post-season barnstorming was passed by with a resolution that the managers should exercise care against playing interleague.

The big players decided to predict for weeks simmered down to an announcement from Bill Terry, manager of the New York Giants, that he had partied with Jack Baldwin, young second string pitcher, for the veteran Leon Chagnon, relief worker of the Pittsburgh Pirates.

**VANDAL QUINTET EDGES WHITMAN**

Larson Leads Idaho's Scoring Attack as Vandals Take 39-35 Victory

WALLA WALLA, Dec. 12 (UPI)—A whirlwind finish in closing minutes of the game gave University of Idaho-Vandals a narrow 39 to 35 victory over last year's Whitman college's Missionaries in the Vandals' opening pre-meetence tussle.

Paced by the accurate basket eye of Bob Larson, shifty sophomore forward, from Twin Falls, Idaho, Idaho's quintet came from behind in the last two minutes with a pair of field goals that broke a deadlocked 34-34. Larson chalked up nine points to lead the Vandals attack. Miller, Whitman sharpshooter, topped the Missionaries.

Whitman jumped into an early lead and retained the margin through a major portion of the first half. In the second half, the Vandals held the score three times, only to see Whitman forge into the lead again.

**HARD CAGE LIST FOR NOTRE DAME**

Irish Basketball Team Lists Twenty-Two Tiffs with Another Pending

SOUTH BEND, Ind. (UPI)—Outstanding international names feature the 1934-35 basketball schedule. World Coach George Muggen has arranged for Notre Dame twenty-two games are included in the campaign, with another contest pending.

The schedule will send the Irish against five Big Ten conference teams in seven games and other rivals from coast to coast. A few contests with reared-and smaller rivals will intersperse the most important games.

Stanford opens the intersectional schedule when it invades Notre Dame Dec. 26. The Irish go east for two games meeting New York University at Madison Square Garden Dec. 29 and Holy Cross at Boston Dec. 31.

Pittsburgh, which broke Notre Dame's record-breaking winning streak of 31 straight games with a 30-1 victory last season, will play the Irish next year in home-and-home contests.

Stanford, New York University, Holy Cross, Illinois, Washington, St. Louis and St. Anthony are some of the other Notre Dame opponents.

The big conference rivals of the Midwest—Michigan, Northwestern, Indiana, Michigan State, Ohio State and Indiana State—will be invited to play the Irish.

Other games will be arranged with

## SAGEBRUSH

In the early days of Twin Falls, Arnold Frankel, whose tales are now legend, used to contemplate on a variety of subjects while recounting the time when Snake river canyon was excavated, when the Perrine lakes were painted blue on the bottom, on the tireless task involved in building Shoshone falls, and other work which now would be ascribed to Paul Bunyan and his Blue Ox.

One of Frankel's interesting anecdotes concerned the making of matches out of the prodigious growth of sagebrush in these parts. Those familiar with this brush can readily appreciate comparison to the common match when serving as an emergency fuel. Then too, sagebrush tea was used, quite commonly as a soother of ills, so the lowly plant was not an unmixed blessing to the pioneer settlers.

Those were in the old-fashioned days. In this modern age we hear new and interesting things concerning sagebrush, the dwarfed growth which still covers so much of Idaho.

From the University of Utah comes word that experiments now being carried on in the chemistry department of that institution, and in other intermountain states, forecast the production of two main products from the lowly sage: sagebrush oil, and the residue of leaves and flower sprouts from which the oil is extracted.

The leaves would be used for fodder for stock feed, which would be made palatable after the oil is extracted, while the oil itself has been found to contain camphor, which at the present time is imported mainly from Japan, and is used in many medicinal products, disinfectants, celluloid and certain explosives. Sage oil also contains eucalyptol or cineol, which occurs in oil of eucalyptus imported from Australia, and is used in medicinal preparations. Pinene, the essential constituent of turpentine, is also contained in the sage oil. These substances were identified by Dr. Maxwell Adams of the University of Nevada. Other unidentified substances present in the oil are being studied at the University of Utah.

Of course the commercial importance of such discoveries are questionable, but there remains the fact that the properties which give sagebrush its peculiar odor, its quick-burning properties, its ruggedness and longevity, may someday prove to be of value. In the past this miserable brush has served as a protector of ranges, prevented erosion, protected the soil from blowing and otherwise preserved and protected such tracts as the ones upon which the residents of this section now live.

Incidentally, hundreds of families still use the brush as fuel, it being no uncommon sight to see piles of it here in Twin Falls.

If it ever can be made to have further value, those who have cursed it, grubbed it, burned it and otherwise destroyed it, will feel that it has partially redeemed itself and that in fact there is truth to the old adages about finding pearls in oysters and diamonds in one's back yard.

## AUTO DEATHS GO UP WITH REPEAL

The first detailed figures on auto accidents for 1934, just made public by the Travelers Insurance Co., are exceedingly shocking. During the first 10 months of this year there has been an increase of 16 per cent in number of traffic fatalities.

More than 28,000 people have been killed by autos since Jan. 1; the total for the year will be upwards of 36,000—an all-time record.

The first question to be asked is, "How far is repeal responsible for this?" The figures have not yet been broken down and analyzed; but at first glance alcohol seems to have played an important part in the increase.

There has, for instance, been a gain of nearly 24 per cent in the number of intoxicated drivers involved in accidents. Indications are that repeal has made our traffic problem considerably more difficult.

## VETERANS SET AN EXAMPLE

Rudolph Hess, Hitler's chief aide in the Nazi party, is reported to have accepted an invitation of French war veterans to address them in Paris. This, it is reported, would be the first step in an effort to get German and French veterans together on an amicable program looking toward the preservation of peace.

Whether anything will come of it is, of course, something that only time can tell. But there is something peculiarly hopeful about the effort, at any rate.

Most of the international hatred that curses the world these days is kept alive by civilians. The men who did the actual fighting hate—not each other, but war itself, and the illogical human tendency to forget the aims for which they fought.

It there could be a genuine approach between German veterans, the non-combatants of Germany, it would get a powerful object lesson in the mutual war suspicions and enmities.

# Lovable

MARY RAYMOND  
© 1934 NRA SERVICE INC.

Ann thought the diamond was the loveliest thing her eyes had ever seen.

worn it with the setting inside, toward her palm.

There was a little hesitancy in Sarah's manner as she stretched out her hand for Ann to see the ring.

"Sarah?"

"It's Mac. Didn't you guess?

Ann: "Not for a minute. Sarah, the sphynx has nothing on you."

"I know Mac for years," Sarah said, "It's taken me a long time to shake the old shyness out of me."

"Ann, a perfect fit," Tony said, with the clerk beamed in sympathy.

They walked to Neckwold's after work next day. Ann was soon lost in admiration. Adoration for the diamond which twinkled on her slender finger for a moment.

"Ann, a perfect fit," Tony said, with the clerk beamed in sympathy.

"He doesn't like trouble," Sarah said.

"No, he doesn't," Ann said, quite happily. "No slightly disgruntled remnant of Sarah's could take the edge off the sparkle for her. She knew how to make him happy."

Mac was there, promptly itself.

"Hello," said Mac. "Do I smell Christmas?"

"The kid still believes in Santa Claus," Mac was smiling. He came over to Sarah and a little awkwardly put his arm about her.

Ann thought, smiling, how different Tony's frank demonstrations of affection were from Mac's blushed approaches.

She left the two alone, deliberately prolonging her visit because Tony was still absent. She was straining her ears to catch the sound of his voice. Finally, as the clock hands pointed to a quarter of seven, she returned to the living room.

"What could have happened to Tony?" Sarah asked.

(To Be Continued)

## STAR SIGNALS BY Octavine

For persons who believe that human destiny is guided by the planets, this daily horoscope is offered as a service to our readers. In addition to information of general interest, it outlines information of special interest to persons born on the designated dates.

## DECEMBER 13

The morning looks to be a bit dreary, but energetic and hard working. It is a very sensible morning when practical things should be accomplished. The afternoon may bring unconventional social relations but prominence. It does not favor conservatism or ice-cold routine. The evening is financially low.

## Birthdate

You should be interested in travel and should buy auto, railway ticket. You should be fortunate in unexpected money from Jan. 21 through Feb. 1, 1935. Be careful to avoid accidents through fire, sharp instruments or rash conduct from Oct. 15-17, 1935. Specially favorable June 27, 28 and 29, 1935.

Readers desiring additional information regarding their horoscopes are invited to communicate with Octavine in care of this newspaper. Enclose a 2-cent stamped, self-addressed envelope.

## You May Not Know That

Two years ago at this time the temperature ranged from 10 to 17 degrees below zero for the Dec. 12-13 period. Last year at this time the low points on the thermometer were 40, 34, 44 and 28 degrees for the four-day period.

Few men have entered congress with brighter prospects than D. Worth Clark.

## History of Twin Falls City and County

AS CLEARED FROM FILES OF THE TIMES

## 15 Years Ago

Before an audience of about 300 people, Miss Olinny McCormick, indicated by Miss Helene Allmendinger and Mrs. O. P. Dicoll, gave a splendid program of readings in the high school auditorium last evening, the program being given under the auspices of the B. Y. P. U. of the local church.

Mr. William Werner is in receipt of a telegram from Colonel Kennedy, Marine Island, Calif., in which he says he has been appointed member of the marine corps in China, arrived in San Francisco Dec. 7 from Peking. He has been in China for 26 months.

HE STARTS RIGHT (Halley Times)

Mr. Clark, the new congressman from this district, displays good judgment in deciding at the beginning of his term, to concentrate his efforts on the improvement of roads and public health rather than on the welfare of his district.

This, too, is in complete harmony with the announced policy of President Roosevelt—to preserve and protect what is left of the natural resources of the country for the benefit of the people of the country.

Water for irrigation and cheap power are widely recognized as the people of southern Idaho need. There are limits to both, but what there is of water and power should be made available with the help of the federal government; and here Mr. Clark, with his intimate knowledge of conditions, his rare ability, and with a tremendous vote of confidence back of him, will be in position to render service of inestimable value.

Word was received Sunday by Mrs. Ralph Skinner of the death of her brother, Elmer Rowland, a fire chief. Mr. and Mrs. Skinner, accompanied by Phyllis, Jack and Albert Postle, left for Silverwater, Okla., where the body is pending funeral arrangements.

## BURLEY

Mrs. Lyle Whittle entertained the C. B. club at her home Friday afternoon. Mrs. Lee Blodke won high score prize, and Mrs. Reed Judd received high cut prize. Guests were Mrs. George Kessler and Mrs. Eldon Whittle, Oakley. Guest prize was awarded to Mrs. Whittle.

Mr. R. C. Rich and Mrs. George Kennedy entertained at dinner at the Rich home Thursday evening for members of the Pau Puk Keewin club and their husbands.

The tables were decorated with red candle and other features in keeping with the holiday motif. Bridge was enjoyed following dinner with high score prize going to C. A. Bauer.

Mrs. H. E. Van Engelen and Mrs. C. P. Kennedy entertained the C. B. club and their husbands dinner Friday evening at the Van Engelen home. The tables were cleverly decorated in red and green in keeping with a Christmas motif.

Mr. J. H. Price received high score for ladies at bridge, which followed the dinner, and W. B. Cauder received high score prize for men. Mrs. S. H. Kunau was a guest.

Mr. and Mrs. Otto Schmidt, Mr. and Mrs. Don Smith, and Mrs. Minnie Schmidt left Friday for Minot, N.D., where Mr. Schmidt will remain there for the winter, and the others will return to Burley after a two weeks visit with relatives.

Rev. and Mrs. J. S. Nelson have returned from Nampa, where they attended the state meeting of Christian church ministers. Miss Florence Reynolds, Kuna, returned to Burley with them to visit a short time.

A formal luncheon reception of the Odd Fellows Lodge was held last week in the I. O. O. F. hall with 25 members present. W. J. Motte, newly elected noble grand, presided at the meeting. The local lodge made plans to attend the group meeting at Eden Wednesday, when members will gather for a district meeting from Burley, Rupert, Hailey and Idaho.

W. H. Motte and his wife were the hosts at the luncheon. The meeting was opened with a brief service.

## PAUL MALLON'S NEWS BEHIND THE NEWS

An Exclusive Evening Times Daily Report on the Fast-Moving Events in the Nation's Capital by an Expert Interpreter and Commentator (Copyright, 1934, by Paul Mallon)

## TECHNIQUE

A complete explanation of the slaughter in Russia may be a long time coming. Those on the inside of Russian affairs here say that the Red government discovered recently quite a serious secret movement instituted by a foreign gangster element.

They liken the execution technique to the method employed by the Justice Department here. In Dillinger and Karpis, they say, justice purges by central European powers. They insist that the plotters were not Russian. If that is the true story, it represents the growth in popularity of primitive political methods throughout continental Europe. The Republicans here may be thankful that in one method the Democrats have not tried yet.

## CRISIS

The Jugoslav-Hungarian crisis did not knock any of our boys off their feet. Their private diplomatic dispatches indicated that Britain, France and Italy brought Jugoslavia into the League of Nations to both involve Jugoslavia. They were confident at the outset that the "big three" would keep matters from getting into a general European conflict.

The cause of the crisis was the simple fact that Jugoslavia has been giving its border citizens a free hand in maltreating Hungarians because the assassin of the Jugoslav king is supposed to have been trained on Hungarian soil.

No way is proof enough that the pacifying actions of European statesmen speak louder than their warlike words.

## NOTES

Capitol Chairman Kennedy of the REC files to Euston every weekend to see his big family (nine children). He will move them here after two recover from illness, because he will be here a long time.

The hottest subject of discussion at the NRA right now is the unceded tobacco industry. Capital and NRA were to impose a code-enforcing 25 cents a bag minimum. The companies want 25 cents.

A principal newspaper editor, the one quoting Comptroller O'Connor as saying, in effect, after his defeat for the governorship of North Dakota many years ago: "I got more votes from women than from men," which proves that women have more sense than men. Which proves also that Mr. O'Connor should be in the diplomatic corps.

Mr. Davis sought to explain that what Japan wanted would give her superiority rather than equality in the Far East.

All authorities here still look at the whole situation as a diplomatic dispute rather than a martial one. They are not very excited about it.

## THIS CURIOUS WORLD

By William Ferguson

HERE IS "MORE THAN ONE "UNITED STATES," (UNITED STATES OF MEXICO, OF COLOMBIA AND OF BRAZIL.)

No one knows just why the cotton moth leave the warm home in the south and go north to meet the winter . . . there to end their days. Although they breed only in tropical climates, they have been found as far north as Canada.

## ACTION FILED TO GET ROAD LAND

HOLDS MISSION

State Requests Condemnation  
Of Property for Proposed  
Martaugh Cut-off

Condemnation suit to acquire possession of a fractional piece of land from James L. Barnes and others near Martaugh has been commenced in district court here by the state of Idaho, and G. E. McElveen, state commissioner of public works.

Property sought would be used in constructing the proposed Martaugh cut-off, eliminating about five miles of the present roadway, and in itself would be approximately four miles in length.

Other defendants besides Barnes, who is a member of the Twin Falls county board of commissioners, are his mother, Mrs. Elizabeth W. Barnes, and his aunt, Mrs. Mary C. Blue.

The amount of land sought comprises 12 acres, running in a strip 50 feet wide. Offer of purchase made by the highway committee of the Twin Falls Chamber of Commerce had been rejected by the property owners. The suit seeks to have the court fix a reasonable value for the required right-of-way easement.

## DROP NRA IDEAS, SLOAN REQUESTS

General Motors Chief Urges  
Longer Hours, Flexible  
Wage Scale

CHICAGO, Dec. 12 (UPI)—President Alfred P. Sloan, Jr., of General Motors corporation recommended to industry last night that working hours be increased, wage scales be made flexible and industrial plants modernized in a general scrapping of the NRA theory of scarcity.

Addressing the Illinois Manufacturers' association, the General Motors' president asserted that labor policies of the NRA have increased costs and prices while maintaining wage levels at previous levels.

"Policy of Poverty"

He attacked the plan as "nothing more or less than a policy of poverty for all."

"This is not intelligent pragmatism," said: "It is reaction. It is reaction to reaction."

Sloan said he is convinced the country is turning from "the spell of regimentation" to a belief in "the old pioneer virtues."

**MARRIED AT OAKLEY**

OAKLEY, Dec. 12 (Special) Eugene Jensen, Wells, Nev., son of Mr. and Mrs. James Jensen, Oakley, and Miss Thelma Woodward, daughter of Mr. and Mrs. R. H. Woodward, Grinnell, Iowa, were married at the Juman Legion hall Saturday by Pres. Charles S. Clark. Before leaving Idaho, Mr. and Mrs. Jensen will visit the bridegroom's sisters in Pocatello and Idaho Falls. They will spend a short time in Wells and then will leave for Chico, Calif., where they will make their home.

## SAWTOOTH SNOW PAST 1933 MARK

Benedict Says Water Content  
Substantially Higher Than  
Last Season

Firm report of snow conditions on the Wood river watershed made by Mr. J. J. Benedict, state hydrologist, forecasting a year revealing that up to Monday a total of 0.99 inches of snow had fallen, compared with 8 inches a year ago at the same time; that the water content this year was .03 inches, compared with .09 inches a year ago; and that the rainfall this season had been .73 inches. A year ago it had totalled 1.31 inches on Dec. 11.

In the Boulder creek watershed the snow fall has totalled 24.05 inches, compared with 24.30 inches in 1933 when it was 0.20 inches on the same date; the water content was 2.32 inches, compared with .02 inches a year ago; and the rainfall this year has been 2.31 inches in comparison with 2.45 inches a year ago.

Snow depth at the principal stations in four watersheds are as follows:

Big Wood river -- Hatley, 1; Ketchum, 3; Graham's ranch, 8; Salmon, sawmill, 4.5; Micoot mine, 4; Old Butte No. 3, 4; No. 2, 6; and Minid, 5.

Middle--Boulder ranger station, 6; Fairfield, 5;

South Boise river, Feathererville, 6;

Rocky bar, 14;

Salmon river, Williams ranch, 6.
