

U. S. DISAVOWS NAVY WAR TALK

Stresses Peace Aim; Steel Viable Under Gloved Hand to Japan

(Continued From Page One)

He feels that any tampering with the rather well established policy of the United States in the Pacific by the Washington treaty. Anyway, no naval construction was to be launched until the end of 1936. The naval treaties have not been in force since notice of abrogation in March, after notice of abrogation in March, after notice of abrogation in March.

Steel Under Glove

The steel of the hand holds the glove extended to Japan was indicated in the steel which administration officials had said they would scrap all steel down to a relative date of 3-2-22, and this country's determination, as voiced by its delegates in the London conference, to maintain the 6-5-3 ratio.

Notice followed any mention to officials of the recent London treaty by the Washington naval delegate to the naval conference there, in which he warned that scrapping of the naval treaties or tampering with the naval ratio would lead to a destruction of naval construction, and possibly to war.

Formal notice of Japan's intention to abrogate the naval treaties is expected to reach Washington early next week.

TOKIO WANTS PEACE

TOKIO, Dec. 22 (AP)—Japan requested the Washington naval treaty in order to obtain a "fair and just naval agreement designed to maintain and promote world peace," the navy spokesman explained today.

The statement, apparently intended solely for home consumption, was given verbatim newspaper reports after Foreign Minister Kato Hirota said the official notice during the 1922 agreement in Washington through Saito at Washington.

Saito is expected to present the abrogation notice to the United States department of state about Dec. 27.

effect a change in present policies and lines of foreign policy, and Zinoviev-Trotsky oppositionists.

A leading facet of the Trotsky group in that the proletarian revolution must be world wide. Josef Stalin, after the death of Nikolai Lenin, moved further and further away from this original Bolshevik viewpoint, and has labored in recent years that the Soviet government look to its own nation and pursue a realistic policy of improvement.

Indicted With Assaulter
The 13 were indicted jointly with the assassin, Mordukhai. All 14, it was charged, were members of "an underground terrorist group," which had been organized by the Trotsky group. All were men who, like Zinoviev and Kamenev, had been expelled from the Communist party. But, also like Zinoviev and Kamenev, some had been rehabilitated upon recantation of their views.

ALFALFA FOUND POULTRY RATION

Declared One of Chief Ways To Get Vitamin A Into Chicken Diet

UNIVERSITY OF IDAHO, Moscow (Special)—The more facts we accumulate about alfalfa, the more justification we find for using it as one of the chief sources of vitamin A in poultry rations in this section of the country, according to C. E. Lammiman, head of the poultry department of the University of Idaho college of agriculture.

Alfalfa varies in vitamin A potency according to the amount of natural green color, becoming less potent with bleaching. Alfalfa artificially cured has about twice as much as alfalfa as potent as an ordinary sun-cured alfalfa.

Important Factor
Vitamin A is an especially important factor in laying ration because there is such a large output of it in the egg yolk. When the ration is short in vitamin A, laying hens will not lay their eggs so completely.

Bowling Banter - by FRED STONE

The best series of the season - and best! A difference of 17 pins first game, 13 pins second, and four pins the third. They were exciting games, too, and large teams were cheered by a high audience.

Ross Cornow, at lead for Karmel and Karmel, had three nice games. Out of the thirty frames Ross had 20 spares. He had a double to go with his spares in the second game.

Al Pughlino and his spare ball working, too, getting 19 of them during the nights play. Al ran into three splits that hurt his last game.

Pop Klefner couldn't get started he couldn't get that reverse curve out of his ball. Sad Pop is by and over the foul line in the second game. "I don't know that."

Ralph Brown relaxed Pop in the last game. Brown picked a nice split in the ninth frame, but on a double in the second and third frame the crowd gave him a big hand.

Dick Roberts demonstrated how not to make spares in the first game, but he slipped up on a double in the second and in his last game he was the old Dead-Eye-Dick. Only one open frame.

An usual, Louis Pughlino, at anchor for Karmel's Karmel. He shot for his team. One open frame in both 1st and 2nd games, two open frames in one last but he made up for them with strikes in the 3-4-5 frames. Louis had high total for both teams.

Vern McIntyre, who holds both the three-game and single game records, was below par. Errors got the best of Vern a double in the 10 frames, last game, helped out plenty.

Clyde Ruddy got eight spares, his first game, 27 strikes. He was on the bench the second game, but in the third he got a double in the 4-5-7 frames to get high single score of the night.

Ace Miller had three unusual splits, one split during the night play. Ace got himself a double to help out that first game.

Elmer Atlip was out the first game, and according to Filer might as well have been out the second. That turkey he got in the last game was certainly appreciated.

"It's a better roster than a bowler, as you follow the bowling," said Carl Gill.

Neal McIntyre, with doubles in both first and second games, had two nice scores, but three splits. He was out the last game although he had high total, at that, for his team.

Callahan, who has been coaching at the University of Idaho since 1927, was named for all-conference honors three years in succession and was given All-American honorable mention.

Gay Events to Crowd Christmas Week Here

Small Christmas parties and family gatherings will make this a busy week-end and mark Monday and Christmas day itself. But gay as they are they will only be a prelude to the attractive events which crowd the latter part of the week.

The first of these is the formal dance given by the Zeta club at the Elks' hall on the evening of Wednesday, Dec. 26. The next night Kappa club will entertain its alumnae and Tri-C members. This event will also be formal and to be at the Elks' hall. Y. O. T. club has also scheduled one of its enjoyable dances for this evening at the Legion Memorial hall.

Friday evening Pan Hellenic club will entertain at its annual scholarship ball in the Elks' hall. This formal is always one of the most brilliant of the entire holiday season, as it is a reunion of college students and graduates from all the surrounding district. Tickets for this event are now on sale by members of the club.

Another of the club parties for alumnae will be the formal dance at which Tri-C club is entertaining the evening of Saturday, Dec. 29, in the Elks' hall.

Glancing the week will be the annual Elks' New Year's eve ball, Dec. 31, at the hall, another event which is looked forward to throughout the entire year.

The last of the holiday events will be the formal dance of Red Knights club given at Shoshone in Kimberly the evening of Jan. 1, in the Elks' hall.

CHILDREN'S PARTY IS SUCCESSFUL EVENT

One hundred twenty-five children and one hundred adults attended the annual Christmas party at which Royal Neighborhood entertained last evening in the Odd Fellows hall. A program presented by expression puppets of Mrs. Ethel Warberg, dancing puppets of Mrs. Harold Merrill and individual contributions by children made the evening especially enjoyable. Members conducted a gift exchange, and a jovial Santa Claus appeared to distribute gifts and Christmas treats to the children from a huge lighted Christmas tree in one corner.

The quilt given by the officers of the lodge was presented to Mrs. Julian Roy.

Pupils of Mrs. Warberg who took part were Betty Lou Coollidge, Mary Alice Buchanan, Hobbie Bates, Kerma White, Gory Gates and Frances Kistner. Mrs. G. A. Gates and Mrs. Dorothy Kistner played accompaniments for violin solo presented by the last two.

Mrs. Merrill's pupils presented a group of interesting dances, fearful of interfering with the fairer sex. The pupils were Rhonda Phillips, Yvonne McBride, Helen Jean Venover, Marian Merritt, Phyllis Kimball, Daphne Hart, Dorothy Kronig and Kathleen King.

Others who took part in the program were Clinton and Alton Sept, Mary Ellen Benson, Erna Jean Senner, Marian Hartley, Darlene Christy, Phyllis King, Margaret Irene Booth, Helen Lind and Viva Mumpower.

SCREEN PLAYERS PLANNING GIFTS

Movie Stars' Thoughts Turn To Buying Presents for Christmas

BY NORMAN H. DETUEL
HOLLYWOOD, (AP) Christmas comes to Hollywood in the rent of the film stars turn to the thought of gifts for their families and friends.

Gifts planned this year include: Ken Maynard started when first married ten years ago, to give his wife a pearl necklace, diamond bracelet, and Christmas. The first pearls were very small, due to finances, but they have increased in size until today, Mrs. Maynard has a graduated necklace of real pearls, which just fits her throat. Ken is adding another this Christmas.

Mrs. Maynard is buying Ken a new leather hunting coat, with compartments for cartridges, and a new rifle, "300" type.

Alice White is determined to have a home of her own this year, so for Christmas, Cy Ringling is giving her the ground. They will build later on. Alice is buying him the furnishings for his room, hoping to hurry him in starting the building.

Corra Sue Collins, six-year-old actress, wants a doll house in which she can stand up, and where the dolls have real clothes, dishes and cook stoves, etc. She wants a fur coat, like the grown up stars wear, and a new home for her mother and sister. Since she has a new contract, she probably will get them all.

She is giving her mother, the house, the furnishings, the furniture, the car to get back and forth from school and furnishing her room specially for her. Also, Midge rates a new violin.

Raquel Torres and Stephen Ames are presenting one another with very elaborate gifts. Stephen has picked out a large emerald and is having the stone cut into many small stones to be set in a gold crown. The emerald crown will be an exact replica of the ruby crown she gave her recently.

Raquel is going to surprise Stephen with a gift of a diamond bracelet painted by Willy Popany, Hungarian artist, just before she left for New York.

John Cromwell is giving his wife, Kay Johnson, a set of Mexican furniture to go in her bedroom at their ranch house. Cromwell selected the furniture recently in Mexico. Every piece was paid about \$5,000 in notes taken. That would be approximately the premium on a policy guaranteeing him \$200 a month for the rest of his life.

They have had thousands of letters from people in New York asking about the plan. We hope to get in contact with them and get started in every election district in New York.

STUDY GROUP MEETS
Lincoln P. T. A. study group met Friday afternoon at the Lincoln school. A talk was given on "Non-Injurious Christmas Vacation" and five recipes were given in connection with the talk for making Christmas cakes. Mrs. W. B. Brooks spoke to the group on "Suitable Christmas Gifts for Children."

STUDENT IN HOME
BUHL, Dec. 22 (Special) Edward Martin, student at North Idaho state college, Nampa, has arrived here to spend the holidays.

Francis Lister, English actor who is in Hollywood to play a leading role with the Columbia in "Clive of India," is an enthusiastic about California and the many products of this state he is sending all his British friends boxes of California dried fruits and bags of walnuts as gifts.

Funds raised through the sale of Christmas seals are used to promote better health by educating children and adults in the ways of healthy living and by helping to find early cases of tuberculosis.

MISSING MODEL

The art world and New York police have become concerned over the mysterious disappearance of Marie Strangenberg (Miss) Strangenberg who has passed for many illustrations and advertising photographs. She vanished while on her way to a party.

NEW YORK HEARS TOWNSEND'S PLAN

California Brings Old Age Pension Program East to Gothenburg

NEW YORK, Dec. 22 (AP) Dr. P. E. Townsend of southern California, was in New York today with his \$24,000,000 plan to provide everybody in the United States a pension of \$200 a month after the age of 60.

The idea, he said, is an independent one, except that after a moment's consideration, and is therefore ready to add to the 15,000,000 signatures he already has on a petition to congress.

Dr. Townsend would establish a revolving fund of "perishable money" to pay the beneficiaries their \$200 a month. The life of the money would exist only from month to month, and thus hoarding would be prevented.

Old-Age Insurance
"It is a sort of old-age insurance," he explained, "to be financed by a two per cent sales tax on every transaction in the country. By the time a person has reached 60, he should have paid about \$5,000 in sales taxes. That would be approximately the premium on a policy guaranteeing him \$200 a month for the rest of his life.

We have had thousands of letters from people in New York asking about the plan. We hope to get in contact with them and get started in every election district in New York."

RUSH PLANS FOR OPENING OF CLUB

Montmartre, Exclusive Social Rendezvous, Will Provide Metropolitan Touch

Preparations were being rushed today for the early opening of the Club Montmartre, three and half miles south of this city at the former Dr. L. H. Giffin ranch home. Announced as an exclusive social club, membership to which will be by invitation only, Club Montmartre, Inc., is being sponsored by a local group which is applying no expense in furnishing the establishment located in the large two-story structure.

The stucco building has been repainted, a water system has been installed and a new heating system placed, in addition to the furniture of the club house, decorations for which were nearing completion today.

Unusual Equipment
At an expense of \$5,000 the rooms are being equipped with lounge furniture, rugs, mirrors, and most unusual of all, 11 oil murals in exotic colors have been painted upon the walls. For this purpose Dan Jaster and Harry Newscomb, artists and decorators of the Peninsula Studios, San Francisco, have been brought here, and have supervised the decorations throughout. These men designed and decorated "The Annex by Sacramento" and in San Francisco, the Dawn, Montmartre, Bostonian and Embassy clubs.

Gold Room
On the main floor will be the gold room, enhanced by elaborate murals and in San Francisco, in charge as steward; the large lounge, with oval dance floor and a "den" equipped with overwatered furniture. On the upper floor is the kitchen, which will be manned with a colored staff. Also on this floor is a men's check room, and dressing room.

While on the second floor will be five dining rooms, four of which have lounge rooms, ladies' cloak room, and ladies' dressing room. The basement houses a club room with fireplace, and the heating facilities.

The club will be opened at 2 p. m. daily for use by members during the afternoons for bridge, and at nights a special orchestra and other entertainers will contribute to the appeal of the club, to be opened this week-end.

A machine has been invented to peel without acids that are to be used in staining baskets and making furniture five times as fast as the work can be done by hand.

"By means of such work, forest properties will become a well-patterned system of employment and of supply; the doing of it added in the immediate national effort for relief, social and economic reconstruction and rehabilitation will be forwarded."

Shows Possibilities
An indicative of future possibilities, Silcox recalled that in normal times forest work gave full-time employment to 1,500,000 persons and the sale and distribution of forest products helped keep another 500,000 in jobs. FORESTER URGES REBUILDING PLAN

Report of U. S. Chief Asks Conservation of "Huge Work Reservoir"

WASHINGTON, Dec. 22 (AP) Describing the nation's forests as a "huge work reservoir" capable of affording full or part-time employment to more than 2,000,000 men, Chief Forester S. A. Silcox had pleaded today for large-scale rebuilding timber resources.

In his annual report to Secretary of Agriculture Henry A. Wallace, Silcox criticized the lumber industry and private forest owners for alleged exploitation and short-sighted destruction of timber lands.

Great Opportunity
In improving and rebuilding forest areas "then an unparalleled opportunity," Silcox told Wallace. "By means of such work, forest properties will become a well-patterned system of employment and of supply; the doing of it added in the immediate national effort for relief, social and economic reconstruction and rehabilitation will be forwarded."

Shows Possibilities
An indicative of future possibilities, Silcox recalled that in normal times forest work gave full-time employment to 1,500,000 persons and the sale and distribution of forest products helped keep another 500,000 in jobs. Likewise, an estimated 2,500,000 farmers obtained supplemental cash incomes, wood

and building material from forest lands. "The lumber industry," the chief forester charged, "was founded and financed on the basis of rapid liquidation."
"Cut and Get Out"
"Its policy has been to cut out and get out without thought of the future of damaged lands."
"The best of the great timber reservoir, Silcox said, are the virgin forests of the far west.
Nine-tenths of 83,000,000 acres now devastated or poorly stocked is, partially soiled, Silcox reported, and 98 per cent of the forest area burned annually during the past few years, he added, has been under the same kind of management.

POWER PROGRAM SEEKS SECURITY

Roosevelt's Plans Aiming at Lower Rates, Job-Oriented By Construction

WASHINGTON, Dec. 22 (AP)—Social security and more federal spending are involved in the electric power program President Roosevelt will present to congress next month.

Whether federal development of power projects will provide social security or jobs for the American people is disputed now. In one form or another the issue ultimately will reach the supreme court.

F. D. H. Congress Agrees Mr. Roosevelt and a majority of congress are in general agreement that power development is a proper field of government endeavor.

The administration program divides into two parts. First there is Mr. Roosevelt's plan to aid individual cities.

Mavor Florelio La Guardia of New York has obtained a promise of federal aid for the construction and power plant which would be built only if the private utilities serving New York City refused to lower rates.

Municipal Issues Mr. Roosevelt and a majority of congress are in general agreement that power development is a proper field of government endeavor.

The Tennessee Valley project is the best example of the second category of administration power policies. TVA is executing a coordinated plan of power, industrial development, flood control and social experiment. Its newest output will be sold generally at a rate which will be a yardstick for measuring the rate structure of privately owned utilities.

Want Proof Some of Mr. Roosevelt's advisers believe TVA should prove itself another year or two before government undertakes elsewhere a river valley experiment on so grand a scale. But there is much New Deal sentiment for the TVA.

CHILDREN OF '34 SNUB OLD TOYS

Playthings Used by Mother And Father Are Scorned By Youngsters

WASHINGTON (AP)—Toys that mother and dad played with when they were children are being snubbed by modern American youngsters who demand ultra-modern effects on their playthings, the National Geographic Society has reported.

While the Egyptian child was content with a crude figure whose arms moved, the Society said, American children are calling for automobile, trains, airplanes, and other toys reflecting the trend of the times.

Not long ago, toy windmills and wooden tubs were popular. Today, however, forward-looking little girls demand miniature electric washing machines.

Small Egyptian boys only roughly-made rag dolls with which to "play house." On the other hand, "little mothers" of today frown upon anything less than like-like reproductions of quinquets.

Even educational toys have gone modern, the Society revealed, with steel construction sets duplicating bridges, engines, tanks and other mechanical wonders of the age.

An annual toy-makers convention is held each year in New York, Leipzig and other toy centers to determine what novelties are most in demand.

Colors Vary It has been found that young children prefer simple bright red toys, while school children prefer blue.

Toy manufacturers are constantly inventing new toys, dressing old ones in new dummies, or packing them in different cartons to a great degree.

Few toys, it was pointed out, remain popular longer than five years. Ping-pong, which staged a comeback after a lapse in popularity in an exception.

MULE POWER VALUES UP; WILBUR, Wash. (AP)—Mule power values are increasing in Central Washington. Joseph Wilbur, Wilbur farm, averages \$147.16 each on the auction sale of 10 head of mules. One span brought \$400.

50 POUND TURTLE CAUGHT; HOOT SPRINGS, Ark. (AP)—A 50 pound snapping turtle, believed to be a "hoghead," was caught on a turtle in the Ouachita river here by L. N. Wright, James and Fred Carmody, fishermen.

JUNIOR HIGH NOTES

Student Council Members and Students in Many Home Rooms

Students in many home rooms wrapped and packed Christmas baskets for distribution among the needy yesterday afternoon. Food, clothing, candy and toys were among the gifts packed and addressed to families living in the city. A large box of candy was given by the local Kiwanis club to be distributed in the homes. The Diamond Hardware donated a number of warm sweat shirts to be given to the needy.

The students placed the gifts wrapped by Mrs. O'Leary, principal. Miss Helen Grant, social studies teacher, has charge of the student council, which annually sponsors the collecting and distributing of the gifts. Home rooms will be given credit toward the Red Cross banner for contributing gifts and packing baskets.

A number of the home rooms enjoyed the new hour and activity with Christmas parties and treat with the home room teacher and the P.T.A. mother. Exchange of "Little Elephant" gifts furnished the entertainment in some of the rooms, and Christmas programs in others.

Holiday Decorations Reign at Luncheons BURLEY, Dec. 22 (Special)—Mrs. Helen Grant entertained at two bridge luncheons Monday and Tuesday at 1:15 p. m. at her home in the Woodruff apartments. Tables were decorated in keeping with the Christmas season, and centerpieces were small mirrors surrounded by wreaths of holly and pine cones. Red and green candles in Christmas holder completed the decoration motif. Seven tables of bridge were at play Monday with high score prize going to Mrs. Frank Thomas and cut prize to Mrs. W. R. Clark. High scores were at play Tuesday: Mrs. Jess Black received high score award and Mrs. G. G. Espe, cut prize.

A new compendium of Monte Carlo games includes in one set all of the favorite games of chance.

Card players are excited about a combination bridge and stud poker game, while a nerve straining game, where two paddles are used to keep lightweight birds in the air, also is popular.

The famous dodo bird, whose wings are flapped into action by a fine line from a reel and reel, is received in a game built to capture the eye of the sportsman. A game that includes everything but an index of class words in a reel game of golf wills will be the despair of golf widows.

The threads from only 40 silk-worm cocoons would reach completely around the world.

STUDENTS OFFER P.T.A. PROGRAM

Washington School's Pupils Stage Varied Christmas Entertainment

Students at the Washington school presented a program Friday afternoon for members of the P.T.A. association. Special decorations for this program, which took the place of the regular association meeting, included several small lighted Christmas trees in the auditorium, a stage banked with pine boughs, and a Christmas scene at the back arranged by Mrs. Housley.

Contributions of food, clothing and toys were collected to be distributed later to needy families. The program included: Songs by the second and third grades, and second grade, alone; numbers, rhythmic band of the first grade; Junior Red Cross play, "Christmas in Many Lands," third grade; Carol in German, third grade; recitation, "Walter Will," fourth grade; play, "Strike in Santa Claus Land," fifth grade; Yuletide night, fifth grade; "Dance of the Toy Dolls," second grade; Christmas story, fourth grade; Christmas tableau, fifth and sixth grade; Carol in parts, fourth, fifth and sixth grades.

CHILDREN URGE HELP OF SANTA IN YULE NOTES

Children's letters to Santa Claus are daily appearing in the mails and through the courtesy of Postmaster F. W. McRobert are being turned over to one of Santa's busy aides, the Salvation Army.

The following letter is one of many written, and shows a childish faith in the ability of Santa and his assistants to meet every need.

"Dear Santa Claus, I was a good little girl all year and I hope you will bring me some toys and some candy and some nuts. I want a mama doll and some dishes, but I want a pair of shoes and some new stockings best of all. My papa said that you might not come to our house this Christmas and I hope you will. My little brother wants a rooky horse, and some candy and some nuts. I hope you can come. Your little friend, Leona."

This little girl is known to Ad. H. T. Stock, Twin Falls commander of the Salvation Army, and through his contact with the family will be one of the recipients of the Army's Christmas cheer program, for which funds are being daily collected in the kettles on Twin Falls street corners.
