Decreased by Law "The board's action," Eekels said, "was taken in accordance with the provisions of the banking act of 1933 requiring the federal reserve board from time to time to limit by regulation the rate of interest which may be paid by member banks on time deposits."

Claims Roosevelt Possesses No Right to Approve Codes Hurting Competition

KANSAS CITY, Mo., Dec. 27 (AP)—Congress has no authority to fix prices, even in interstate commerce, Judge M. E. Ochs held in an opinion filed today in the United States district court.

The opinion was limited down in a case against the Sutherland Lumber company, which has headquarters here and offices in Omaha and Oklahoma City.

Judge Ochs denied an application of the United States district attorney here and granted to the retail lumber code authority for a temporary injunction to prohibit the lumber company from violating price fixing provisions of the lumber code.

The company operates its yards under a "cash and carry" plan. Robert Sutherland, president, contends the plan enables him to market lumber more cheaply than other yards which deliver.

13 KILLED IN TRAIN BLAST

42 Miners Injured as Locomotive Explodes

Powellton, W. Va., Dec. 27 (AP)—The locomotive of a miners' work train exploded as it approached the Elkhorn Piney Gap company mine here today.

The explosion, followed by a blasting jet of steam from the broken boiler, killed 13 men and injured 42 others on the four-coach train which was owned and operated by the mining company.

There were 350 workers in the coaches, 51 of them in the first car which bore the brunt of the explosion.

The blast occurred half a mile from the mine at 4:30 a. m. as the train approached the two private houses near the right-of-way. Both houses were damaged, and Mrs. Lilly Black, standing on the porch of one of them, was scalded.

Boiler Thrown Upward The locomotive boiler shot upward as the crown sheet blew away and descended with a rebounding coach on the first passenger coach, bursting it as it struck and sending jets of scalding live steam into the cars and high into the air.

Seven ambulances and many private cars took the dead and injured to Montgomery in the heart of a rich timberous area. Injured were placed, four in a room in the small Coal Valley hospital at Montgomery. Seven of them suffered fractured skulls.

C. I. Stahl, division superintendent of the Elkhorn company, said the train equipment was property of the company, and a government inspection must be made to determine blame for the explosion.

Tells of Tragedy Charles Kitchen, miner who was a passenger on the second coach and suffered steam burns on the wrists, told of the tragedy.

"Everyone was laughing and joking in the cars and the special had stopped to take on some water," he said. "It was just getting light."

"I heard a roar up front that shook the train, then another roar followed by screams and groans. The boiler had been thrown into the air and fell on the first car, causing the second coach which sounded like another explosion.

"The boiler burst and steam rushed in all directions, making thick, scalding clouds as it hit the cold air.

Upro Car Apart "The first explosion ripped the front end of the first car apart, then the boiler crashed through the middle of the car.

"The steam whistled for a few minutes, then the noise died down and we could hear only the screams and cries as the men unscathed and ran forward to try to help the victims.

"There wasn't much to do for a lot of them. They were mangled, some beheaded."

Word Spreads Slowly Word spread slowly to homes of the miners, and relatives and friends of workers who rode the train rushed here and to 2000 homes where efforts to identify the victims were being made.

Hospital attendants at Montgomery were hampered in their work by the distress of a throng of men, women and children who (Continued on Page 2, Column 1)

made because "a misapprehension has arisen with respect to the scope of and the authority for the action recently taken by the federal reserve board in respect to reduction of interest rates." He did not mention Sen. Glass by name.

"The only misapprehension," Glass declared, "is that the part of Mr. Eccles, I never told the board has no authority for such an order affecting its member banks.

"Anyone who can understand English knows I didn't say that the board has no authority to tell its offices to increase of an order affecting non-member banks.

"The 1933 banking act, which I helped to write, makes the board's position clear. It is that I told Mr. Eccles in 1933 that act that Mr. Eccles is. It might be a good idea for him to study it a bit more closely."

SHANGHAI MOVIE STUDIO PLANNED

Betty Compson and Husband Organize Firm to Make Chinese Films

(Copyright, 1934, United Press)

HOLLYWOOD, Dec. 27 (U.P.)—Betty Compson and her husband, Irving E. Weinberg, are organizing a motion picture studio in Shanghai, they revealed today upon their return from a six-month trip to the Far East.

A \$1,000,000 company has been organized and operations will be started next year. The company, predominantly Chinese, will produce pictures in that language, Weinberg said.

There are only 37 first-run theaters in China and the Malayan Archipelago, Weinberg said, so he believes his enterprise will flourish by increasing the flow of available native pictures.

He and his actress wife plan to return to Shanghai within a couple of months so production can start in April or May.

Too much Christmas tree decorations and a dinner effect on Monday evening, a seven-year-old daughter of Mr. and Mrs. Larry Crosby and niece of crooner Bing Crosby, was taken to a hospital for an operation after she had eaten part of a decorated Christmas tree. Pieces of glass were removed from her throat, and today she was little the worse for her experience.

Max Reinhardt, German producer, resumed work on a Shakespearean film today after a court injunction restraining him from proceeding with a screen contract for the film was lifted by Superior Judge Edmund H. Wilson.

The temporary restraining order was issued last week at the request of a French theatrical agency which claimed a prior right to the producer's services. It was lifted by Judge Wilson when Reinhardt exhibited correspondence showing he and the agency had never reached an agreement on salary.

COURT BANS NRA FIXING OF PRICES

Federal Judge Rules Congress Has No Authority to Set Default Levels

(Continued From Page One)

The adjective does not destroy the noun. Compelling is the effort of two or more parties acting independently, to secure the custom of a third party by the offer of the most favorable terms.

"To prohibit one or two who are dealing in the same commodity to offer their commodity at a lower price than the other offers, it is not to effect fair competition, but is to destroy competition in its very essence."

"Hypothetical" Costs

Turning specifically to the Sutherland case, Judge Otis commented:

"These defendants are not charged with selling below their costs. They are charged with selling below certain hypothetical costs, apparently arrived at by averaging many costs.

"It is true that the code provides that the administrator shall provide the method of calculating costs. Obviously that power does include authority to prescribe a method which necessarily will produce something other than any dealer's actual costs.

"It is true also that the administrator of this code, after adopting a false method of determining costs, has caused the cost of the dealer's actual cost should not be less than the hypothetical costs so arrived at.

"Marvelous" Plan

"Mislead a company scarcely could have wrought so marvelous a transformation of costs as this. The government contended that the lumber yards were engaged in interstate commerce, since the business reached into more than one state. Congress drew authority for enacting the national industrial recovery act from a section of the constitution providing that 'congress shall have power to regulate commerce among the several states.'

GRAINS DROP ON FOREIGN SLUMP

CHICAGO, Dec. 27 (AP) - A sharp break in the Buenos Aires grain market unsettled wheat and corn on the local board of trade today. Wheat closed 1/2 to 3/4 cent lower and corn was off 1/4 to 3/8 cent at all grades.

Oats finished 1/4 to 1/2 cent lower.

Locals and professionals were bullish in the wheat pit as a result of the payment of bond in corn in the face of severe cold waves that prompted to sharply increase feeding.

Local brokers and commission houses were free sellers in the local pit. Hay was small and scattered.

THIS CURIOUS WORLD

By William Ferguson

HOLDING A 100-POUND WEIGHT ABOVE YOUR HEAD IS NOT WORK. WORK IS DEFINED PHYSICALLY AS FORCE, PRODUCING MOTION THROUGH SPACE.

THE BOOK, "ENHATT LAWLER," BY JIM TULLY, WAS WRITTEN IN ONE PARAGRAPH OF 100,000 WORDS.

A PARACHUTE WOULD BE WORTHLESS ON THE MOON, FOR THERE IS NO ATMOSPHERE.

The moon, being about one-fourth the size of the earth, is not large enough to attract an atmosphere. There is no air or water surrounding it and, since it has no weather, not the slightest change ever takes place on its surface.

EGAD, M'DEAR—I HAVE AN EXCEPTIONALLY CLEVER IDEA! I DON'T CLAIM IT WILL MAKE ME MILLIONS, BUT FEEL REASONABLY SURE OF A FEW HUNDRED THOUSAND! IT IS AN INVENTION—YES—A SIMPLE APPARATUS FOR TURNING THE PAGES OF MUSIC AT A PIANO, WITHOUT INTERRUPTING THE HAND ACTION! IT WILL BE DONE WITH AN EXTRA FOOT PEDAL, DOWN BY THE TONE PEDALS! TO TURN A SHEET OF MUSIC, MERELY STEP ON THE PEDAL, AND A THIN STEEL CLIP ON A BRACKET ARM, TURNS THE PAGE OVER!

WELL, DON'T TRY IT ON OUR PIANO! I DON'T FORGET THE WIRES AND PULLEYS YOU PUT ALL OVER THE HOUSE, TO AUTOMATICALLY TEND THE FURNACE! YES—AND AFTER TWO TRIPS, THE FIRE DEPARTMENT WARNED US THEY WOULDN'T COME AGAIN!

BURLEY DOCTOR SUFFERS INJURY

Blood Transfusion May Be Necessary to Save Life Of Dr. Fremstad

BURLEY, Dec. 27 (Special) Friends were anxiously waiting word today about the condition of Dr. Joseph Fremstad, owner and operator of the Fremstad hospital, following information that a blood transfusion may be necessary to save his life. Dr. Fremstad, who has been a practicing physician in Burley since 1910, was injured while he was recovering from injuries received in an automobile accident Sunday morning.

The accident occurred as he was answering a call of one of his patients at the east part of town. He attempted to dodge an approaching car and his machine swerved so that he was thrown against the steering wheel, striking the pit of his stomach. Although he related the incident to his wife, nothing was thought of it until later in the day, while lying down, he was stricken with a severe hemorrhage. He suffered a second hemorrhage Monday, and the family was apprised of his serious condition. Friends here did not learn of his serious illness until Wednesday morning.

It is believed that the doctor has suffered from a torn aorta, and the family is endeavoring to get word to his sister, Miss Olive Fremstad, Bronxville, New York, for she is the only one in the opera company, who is reported to be away from home for the holidays.

3 Injured as Storm Extinguishes Light

HARDHORN, Dec. 27 (Sp. ed) An electrical storm which came this night at the high school building extinguished the Christmas lights and caused an accident, in which Mrs. Ralph Kennedy, Mrs. William Taylor and Mrs. Edith Taylor received slight injuries. Although Mrs. Kennedy was rendered unconscious for a short time following the accident, all three are believed to have recovered fully. Kennedy had just entered his car from the curb in front of the high school building and the three women were standing by the car when it started. A car driven by Harry Egbert, containing a large number of young people, passed going south, turned at the Tim Torrey corner, came back and struck the three women. Because of the dark night Egbert did not see the women.

False Statement Corrected

Shadowland, popular South Idaho ballroom at Kimberly, wishes to correct a false statement which is being circulated over the air and through newspaper advertising. The false statement is to the effect that a competitive ballroom, named Shadowland at Twin Falls, had been opened at the expense of T. P. Conroy of Riddelland for the Christmas season on Monday and Tuesday nights.

The statement not only is false, but is absolutely ridiculous, as Shadowland's space will not accommodate a much larger crowd than the Shadowland ballroom, and according to the owners of Shadowland, 95 per cent of the business has been necessary to be had at least
