## MESSAGE POINTS OUT MEANS FOR SECURING ECONOMIC STABILITY

## Asks Joint Session of Congress to Enact Six-Point Program

By LYLE C. WILSON

WASHINGTON, Jan. 4 (UPI)—President Roosevelt charted today before a joint session of congress the outlines of a new American economic order to make individuals and families in this country secure.

He outlined the New Deal's second phase. Major factors of the program, which he asked congress to enact:

"Provide every able-bodied individual with a job."

"Abandon the dole system of relief."

"Transfer relief of unemployed to local authorities."

"Old Age Insurance."

"Old age and unemployment insurance, plus start toward benefits for children, mothers and others handicapped by dependency."

"Unification of all emergency public works in a new and greatly enlarged plan."

"Orderly displacement of the federal emergency relief administration by the new emergency works agency. He assured congress his program would "be within the sound credit of the government."

*House Jammed*

Mr. Roosevelt spoke in the half hour allotted him and senators and representatives jammed the floor. Visitors gathered overfilled.

Mr. Roosevelt said the outlines of the new economic order had become apparent. "We laid down a new policy of living for the American people."

For years, he said, reform had become confused and frustrated because it was attempted in piecemeal fashion.

"We lose sight, from time to time, of our ultimate human objectives."

"Our efforts are not aimed at the American people, the exact opposite of what we did, and undue private power over welfare and public affairs will surely be foreclosed. He must be given the tools needed to accomplish this objective," he continued.

"We do not desire Mr. Roosevelt to continue his administration of the individual to obtain for him and his family a reasonable leisure, a decent living throughout life, an opportunity to be reasonably competitive for great wealth and great power."

Mr. Roosevelt committed himself to "the right for the individual to work and earn a decent living for himself and his family."

Three Major Points

Three major points of his security project:

1. Security of livelihood through better use of national resources.

2. Security against the major hazards of civilization.

3. Security for the individual to work and earn a decent living for himself and his family."

## F. D. R. Sees Gain in Path To Recovery

WASHINGTON, Jan. 4 (UPI)—

The Roosevelt administration has

outlined its "state of the nation" message to congress.

"We have undertaken a new organization of our progress towards the framework and intent of the American Constitution. We have

assured them that the nation is inextricably entangled in the road towards this new order."

"I can report to you substantial

benefits to our agricultural population, increased industrial activity, and profits to our merchants."

The outlines of the new order have been set forth in a single document, and the integration of the old are apparent.

"We are where we have built

wisely and where we can do much better."

"No wise man has any intention of destroying what is good in our society, but we may be caused by the profit motive we mean the right to work to earn a decent profit for ourselves and our families."

"American must forever wear the conception of the acquisition of wealth."

**PREVENTIVE ACTION**

The figures on automobile accidents for 1934, just released, make horrifying reading. To learn that automobiles killed nearly as many Americans as Germans killed in the World war, is to realize that our motor traffic situation has become one of our major national problems.

And it is a local problem also.

In the United States last year there were not less than 36,000 deaths directly traceable to traffic accidents. In this country there were 16 such deaths, and in the state, the approximate figure was 125, being an increase for the year over the record of 1933.

But few seem to be amazed at the toll of death. The situation doesn't come home to us, somehow, it is someone else who gets killed, someone else who gets injured, someone else who passes through a needless tragedy.

So the country accepts these traffic fatality figures with the most amazing complacency—and calmly goes along rolling up a death and injury list which future generations will probably find the hardest single feature of this civilization to understand.

Slightly more than a million people were killed or injured in auto accidents in 1934. There are approximately 25,000,000 autos in use in the United States. The chances are about one in 25 that you will be killed or injured in an auto accident this year.

If some epidemic were sweeping the country at that rate, causing a million cases of illness and 36,000 deaths in 12 months, and you knew that you had one chance in 25 of catching it, you would demand that your health department take the most drastic kind of measures to get it under control.

Luckily, the traffic problem isn't altogether insoluble. Although the death list for the country as a whole increased by 16 per cent last year, there were a few states which actually reduced their fatality lists.

It is worth noticing that most of these states have strict financial responsibility laws—such laws as forbid persons who have been involved in serious accidents to drive until they pay any judgments against them and prove their ability to compensate for any future damages they may cause.

They are also, in the main, states which have adequate highway patrol forces and strict drivers' license laws.

By attacking vigorously along such lines, we may hope to reduce our traffic death list. There can be no excuse for failure to take such action.

The present situation is absolutely intolerable. A drastic and far-reaching program of preventive action is long overdue. Idaho's legislature can well devote itself to helping solve the problem.

Thirty nations ratified the Argentine anti-war pact to the boom of cannon in the Gran Chaco and the beat of machines in the munitions factories.

**LOCAL INDICES**

The measures which gauge economic conditions in a community reveal that in the Twin Falls country there has been a definite step forward in the past year.

Shipments of numerous commodities showed a substantial increase, building permits now reach impressive totals, whereas in 1932 there was little use in recording them; bank clearings during 1934 were considerably above those of the year before, and in a single month, December, they exceeded the clearings on December, 1933, by three-fourths of a million dollars. Bank deposits themselves have increased here almost a million dollars in twelve months, and it is safe to say that the business of practically every merchant, dealer or professional man also shows improvement varying only in the degree of percentage.

In addition to all this, there is an improved attitude, a confident and a demonstrated courage. But after all, it takes cold, hard facts, statistics, figures, to convey the kind of improved conditions which have been needed so badly in an agricultural community of this type.

The improvement is actual and not "just around the corner," is a tribute to the people of this section, who are willing to better their condition, are cooperating splendidly with the recovery steps and all lines are restoring themselves and their communities to a level which insures continued growth, improved prosperity and permanent security.

People from all over the world are traveling back to the Saar to vote. Politicians in America are amazed.

That panhandler makes the best living whose story is the most touching.

**HIGH HILL**—TODAY—  
Ann, holding her son, Larry, in her arms, walks along the hillside, her thoughts far away. She has been married 18 years, because of his working and the fact that she has been a good wife. But she is presently sad, because her husband has deceived her, and turned her away from him.

She has been a good wife, but she has been disillusioned in a restaurant. When Peter, his son, came home, he told her, "I'm in Florida and spent a week with my old employer." Peter is called home, because of the fact that he has been a good son.

He excepts Peter's sister, Mabel, to come to him, because he has been a good son. Mabel is a good woman, but she has been a good son.

MARY KIRKLAND, mother of two sons, has been a good wife. She has been a good wife, but she has been a good son.

# BAER, JOE LOUIS APPEAR ON SAME RING CARD AT DETROIT

## NEGRO BATTLES PERRONI TONIGHT

Max Fights Babe Hunt; Will Get Chance to See 'Black Monks' in Action

IN ONE'S HURRY

DETROIT, Jan. 4 (UPI)—Max Baer, western heavyweight boxing champion, and Joe Louis, Detroit Negro who has punched his way to the front ranks of the contendents in the world's weight classes, will meet again in the same Detroit gymnasium tonight but not against each other. That attractive bout — Baer vs. Louis — was the offering made by the opening game time late in 1932.

Baer fought face Babe Hunt, veteran Oklahoma boxer, Jan. 4, around end of year.

Louis vs. Perroni

Louis, who has won 12 straight victories, ten of them by "knockouts," battles Patsy Peroni, Cleveland boxer, in the main event.

Baer and Louis are the two most talked about fighters in the heavyweight division. Presented Note said: "Joe Louis, Max Baer, we expect a capacity crowd of 15,000 to see them in action. If the show is a sellout as indicated, we expect receipts will be \$25,000. The times and money are not yet set, but the show has drawn in Detroit in three years."

Louis runs a 15-fight winning streak over Peroni, a tough craft horse who holds two decisions over Johnny Rizzo, Tex Rickard's old "spook." The wise money is on Peroni. Baer has been beaten twice by him, but has more experience for the Detroit Negro making his first big start in his home town.

May Fight Levinsky

It looks like a good fight between the two fighters with King Levinsky, kayoed a week ago by Baer in Chicago, in an early elimination round at Chicago's Civic Auditorium Jan. 25.

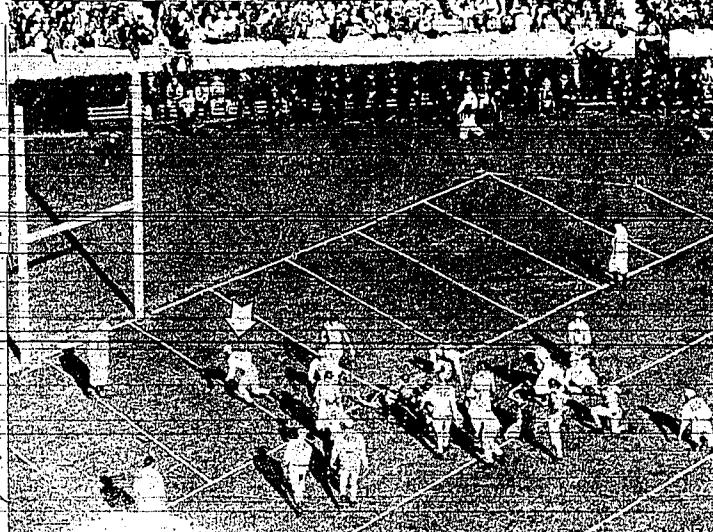

Louis, who originally had been from Montgomery, Ala., has adopted the name of St. Louis boxer Charles Marion, art student in his hot four engagements. Many smart ringmen believe that he will battle his way to a September title shot.

Many of the fans will come solely to see Baer in action, hoping that he will let loose another vicious blow, as he did last week in King Levinsky's week ago in Chicago. Baer will wear longer gloves tonight instead of the 16 oz. ones he used in his much recent bout with Eddie Hart, who was deadened, but he still is a favorite to flatten Hunt.

Buddy, who has a fine streak of successes on his record, also will appear on the card.

## Elusive "Dixie" Howell Crosses Stanford Goal

Confounding its record of 111 consecutive wins, Pasadena's famous Rose Bowl, the University of Alabama Crimson Tide swept over the Stanford Indians 20 to 13 in the annual New Year's day classic. Their play-footscored by long pass from Dixie Howell to Don McLean, the two teams did not start in the second quarter. NEA photo shows Howell (indicated by arrow) running toward the goal.

## RIVERSIDE DRAWS PRO-GOLF STARS

Linker-Anos—Book from Tour of Australia, Will Play in California

RIVERSIDE, Calif., Jan. 4 (UPI)—The California winter golf camp opened yesterday with the second annual Riverside pro-amateur tournament. Norton Smith, winner of the recent California Open, was a strong contender, paired with George Shaw, Los Angeles amateur.

Officials announced that George Sanchez, Leo DiGregi, Ky Eason, Denmore Shuster, Jimmy Thomson and Paul Hunter, who arrived in the city yesterday, will join the Australian tour, which crossed the Pacific in its much recent tour.

The tournament, which was a favorite to flatten Hunt.

Buddy, who has a fine streak of successes on his record, also will appear on the card.

HUBBELL ACCEPTS GIANTS' CONTRACT

Oklahoma Ace Returns Signed Agreement to Play At Same Salary

NEW YORK, Jan. 4 (UPI)—CAF Hubbell of the New York Giants has followed Dizzy Dean of the St. Louis Cardinals in signing a one-year contract with the National League's best pitchers in 1934 are the first players back in the fold for 1935.

The New York office received a telegram from the Oklahoma screwball master signed contract a month ahead of the day after Dean had signed with the Cardinals for \$22,000. Hubbell is said to have accepted the same pay he received last season, \$18,000.

PIRATES MEET OAKLEY'S FIVE

For CLAYTON NUTTING

HUPPERT, Jan. 4 (Special)—After winning all of their non-conference pre-season clashes over Alton Park, Peoria, Decatur and Heywood, the Illinois State Normal school-Pirate quintet will greet Oakley tonight in a tangle with Coach M. C. Cranney's five Oakley Hornets in their first conference game.

The Pirate mentor hasn't looked like a power of the Oakley team since he left the school, and in view of that fact he has been thoroughly drilling his boys in an attack-and-defense project in a month-long conditioning session.

Eden, Hagerman On Court Bill

Twin Falls High School basketball team will play a game tonight in a practice game that will offer the 1935 Jones machine. The first taste of the season, Coach Dorothy Calais-Brunette will oppose Hagerman's girls in the opening game.
