IDAHO POTATOES IN GOOD CONDITION

Idaho potatoes, Russets, advertised as "select size," are featured among the other high class and priced food crops.

Turning 'Em Down The RKO-Pathé studio finally solved the problem of how to make a picture that would be interesting to the audience.

Other than the price, it is interesting to know Idaho potatoes are in such good company, along with select Baltimore oysters, the best of choice coming from foreign and domestic plants, domestic and tropical fruits, fish and sea food.

THIS CURIOUS WORLD

By William Ferguson

ALTHOUGH INSECTS SPEND MONTHS AND EVEN YEARS, IN REACHING MATURITY, MOST OF THEM LIVE ONLY LONG ENOUGH IN THE ADULT STAGE TO LAY THEIR EGGS.

LEAF BUDS FOR THE 1935 SUMMER. EGGS OF LEAVES FORMED ON THE TREES IN THE EARLY SUMMER MONTHS OF 1934.

MANY OF OUR COMMON BIRDS FEED THEIR YOUNG ON AN AVERAGE OF ONCE EVERY FIFTEEN MINUTES, DURING THE DAYTIME.

One frequently hears the remark, in early spring, that "birds are beginning to form on the trees." However, the buds have been there all winter long for one of the important early summer tasks of a tree is the forming of buds for the next spring.

WHY DIDN'T YOU FIND OUT THE HORSES AGE BEFORE YOU BOUGHT HIM?—NOW I AM POSITIVE THAT THE HOOPER'S FAMILY TREE IS ROOTED BACK TO SAMUEL JOHNSON! YOU'RE ALWAYS DIGGING A WELL FOR A PUMP HANDLE YOU BOUGHT AT A BARGAIN!—IF YOUR RACE HORSE IS TEN YEARS OLD, YOU'D BETTER NOT ENTER HIM IN ANYTHING FASTER THAN A PARADE!

NOT TEN YEARS OLD—NINE! AT LEAST, THAT'S WHAT THEY SAY HE IS—BUT I AM—MUMBLE—MUMBLE—OH, DASH IT! I HAVE FAITH IN HIS RACING ABILITY!

NINE YEARS OLD!—EE-GAD!

RETIRE HIM WITH MAJOR!

WHAM! BAM!

BOOTS AND HER BUDDIES

WHERE? WHAT DIDYA WANT ME YEE? UH, I DON'T SEE IT NOW! COME ON, LET'S LOOK INSIDE.

AWWWW! ISN'T IT CUTE?

I NEVER SAW ONE JUST LIKE IT BEFORE.

OH SAY, BOOTS—I JUST THOUGHT OF AN IDEA! I WANT TO DO A FEW MINUTES, WILL YOU? COULD SPEND A WEEK, LOOKING AT THINGS HERE!

CHINA CONDEMNS JAPANESE DRIVE

Native Press Declares New March Prelude to More Aggravation

HINKING, Manchukuo, Jan. 23 (AP)—Reports were heard here today that the Japanese navy is planning a new drive on the borderlands between Manchukuo and Soviet Mongolia, which are claimed by both nations, who apparently penetrated the defenses for the first time. The reports were not repeated, but messenger dispatches reported casualties on both sides.

By HERBERT H. FIRMS (Copyright 1935 United Press)

PEKING, Jan. 23 (AP)—Chinese newspapers, anxiously watching the movements of a Japanese military force in north China, charged Japan today with increasing preparations for using formidable military forces in "pure and simple territorial aggrandizement."

Their charges that Japan was planning a "new wave" of Chinese invasion, which would be directed primarily to facilities in the north-western mountains north of the Great Wall.

The Chinese soldiers pushed back toward the city of Chahar, and toward the city of Chihai.

The Communist Position

The victorious Japanese, moving steadily westward along the Jehol-Chahar border, consolidated the position they had attained with considerable bloodshed. Reinforcements followed the main body, and General Jiro Minami to drive the Chinese from territory claimed by Manchukuo.

In two days of fighting Chinese casualties numbered 60, mostly from the bombardment of Japanese bombing planes accompanying the "punitive" expedition. Japanese casualties totaled 19, including several officers.

March Cease

The Chinese were "dismayed" completely from the territory of Jehol province of Manchukuo and Chahar province of China had declared their objective attained.

The Japanese indicated officially that their westward march had been a "strategic" maneuver.

They will reenter the negotiations since the Chinese source bore out the Japanese latest move, a statement attempt to close the western flank of Japanese against a possible Russian invasion.

Japanes officials, both in Hinkling and Tokyo, insist that she should not withdraw from Manchukuo, and that the 2,000 troops had been sent to clear out irregulars in Manchukuo.

Asiatic Relics Show Culture Of Old Races

PARIS, Jan. 24 (AP)—A picture of life in Asia in 2900 B. C.—1750 years ago—was given today by the Louvre.

Each an eminent Indian, said that his examination of relics from Nepal, in India, showed that 2900 years before the Christian era people in northern India had a distinct language, built their cities, in which there were splendid palaces and stone towers, developed fine arts and had a court of justice, the old civilization in Mesopotamia by means of the pre-Christian equivalent of traveling caravan over the caravan routes.

Called Revelation

"Our time is a revelation," Lezard has believed that the civilization of the common root which

branch of the common root which Europe produced the Greeks, Latins, Celts, Slavs and Germans.

Our research has been going on for 14 years, and just recently we have discovered that northern India had an earlier civilization.

"The people built palaces but, curiously, they built no temples. Their civilization was advanced and they had a court of justice, a postal system, they were in communication with Persia, whose civilization was also advanced."

Alphabet Similar

"It may be more than a coincidence that the alphabet system is very similar to those found in Persia and India, and in the Pacific islands half way round the world in India. There may have been some common origin among the ancestors of Malaya, who might have lived both in India and Pacific Islands."

The theory has been advanced that Easter Island might have been a Pacific continent.
