Richest U. S. Girl Never Does Anything—She Tells Reporter

MIAMI, Fla., Feb. 11 (AP).—The richest girl in the world—Dorothy Duke, heiress of a tobacco fortune—never does anything, because she is not permitted to do anything.

This she told a United Press reporter who found her on the beach playing in the surf.

Miss Duke was waiting, somewhat alarmed that the public is interested in her life, and eager not to be misunderstood. She said she has never done anything of interest. She did not expand her statement into a long story, but she did say that she had never done anything of interest.

COUGHLIN SCORES BANKING POLICIES

Radio Priest Claims Roosevelt Content to Permit Private Profiteering

DETROIT, Feb. 11.—The Roosevelt administration was charged today by Father Charles E. Coughlin with having endorsed "radical" leanings toward international socialism among with certain agents of the administration who are theoretic Communists.

The president has directly opposed full nationalization of federal reserve banks according to his banking act of 1933. Father Coughlin asserted yesterday in his regular radio address.

Private Profiteers

"He appears content to praise a measure which permits private owners to continue profiteering upon bonds and sell the proceeds of money under a former federal control.

The president cannot escape the charge of protecting the bankers' questionable privilege of manufacturing money, loaning credit and exacting in return their pound of currency flesh," the priest said.

The Roosevelt administration will "succeed in driving the industrialists from America before the money changers have been driven from the temple," if the tendencies of the president's opposition to nationalization of our money system and radical leanings toward industrial socialism are indicative of our future policies.

Substitute Bill

The national Union for Social Justice has "drawn a substitute bill to the banking act which will be presented congress next week," Father Coughlin said.

A major article of that bill, nationalization of federal reserve banks is the first step toward the establishment of a permanent type of currency.

This bill, although not a cure-all, is not a typographical error merely to increase the flow of currency today. It is the answer to low wages, unemployment, cultural pursuits, to the periodic stagnation of business and the concentration of wealth in the hands of the few.

Government Bank

The "U. S. Government Bank" the government-owned bank shall be the fiscal agent of which our national debt without the racket of interest that 100 per cent will be kept in circulation dollar and that this bank shall issue adequate currency of one kind instead of the different kinds in circulation today.

If the right of private property is to be upheld, let us not permit money to be used to breathe fresh, without throwing them with the whip of government competition.

SAARLANDERS FLEE ON ROAD OF SORROW TO EXILE

Fleeing in terror from Nazi rule over the soil on which they have lived all their lives, thousands of Saarlanders stream in a sorrowful procession across the border into France, panic-stricken exile, carrying all their possessions in pitiful bundles, and dragging their children with them. This picture shows refugees flooding into Metz, where hundreds arrive every day, as Nazi leaders swing the mailed fist to crush all opposition in their newly acquired realm.

HULL FLAYS AT LOBBY METHODS

Secretary of State Directs Blasting Attack Against Trade Pact Foes

WASHINGTON, Feb. 11.—The state department put its umbrella up today, expecting a storm to break from Capitol Hill in response to Secretary of State Cordell Hull's slashing attack on the annual Lincoln day banquet tomorrow.

Hull's attack was deliberately attempting to wreck his reciprocal trade program.

On the question whether the American public desires to continue the present high tariffs and the "Smoot-Hawley" misery of the past 10 years or to remove tariff rates on products which the United States imports more than it exports in return for reduction by foreign nations on our principal articles for export.

Attack of the "lobbying" of which Hull complained has been continued in statements by members of congress who represent districts with industries likely to be affected by reduced tariff rates.

The first reaction on Capitol Hill to Hull's statement was that the "lobbying" was "considerably less temperate than is customarily used by a secretary of state."

WARNERS JAPAN

WASHINGTON, Feb. 11.—(UP)—Lion Lytton, who investigated the Manchurian crisis for the League of Nations, warned today that Japan's half hearted policy of reliance on force the world will return to the disastrous system of arms races and alliances which brought on the World War.

Now we are drifting toward an international Niagara," he said.

Planet Named

AUSTIN, Tex. (UP)—In the great universe there now is a planet named for a Texan. It is only a minor planet, one of the asteroids, its name is McDonald-11, long gone without a name.

Dr. Stivers of the University of Chicago discovered it, Oct. 24, 1922. It has named it now in honor of the late W. J. McDonald, of Paris, Tex., who left a fund with which the University of Texas is conducting a large observatory in west Texas.

Toledo Mayor Hits City Managership

TOLEDO (UP)—Cincinnati's city manager form of government was attacked by Mayor Salton S. Blinn of Toledo, here, in a speech before a group of congressmen who were in the city.

He charged Cincinnati is the "most crime-ridden town in the state."

The city manager plan, he said, violates the most fundamental principles of American government, while the method of electing councilmen under it takes away the rights of American citizenship.

Such a method "would not be tolerated in Russia," he declared.

HOOVER TO DINE AT G. O. P. MEET

Former President, In East On Business, Will Attend Lincoln Dinner

NEW YORK, Feb. 11.—(UP)—Herbert Hoover, here on a business trip, will make his first appearance at a political gathering tomorrow night when he attends the Lincoln dinner of the National Republican club.

The former president was not scheduled to make a formal speech.

Hoover is expected to attend a meeting of the board of directors of the New York Life Insurance company and conference of the American Civil Health Association and the American Children's fund.

In Better Health

Hoover declined to be interviewed on his arrival yesterday. He posed for photographers and appeared in much better health than when he left the White House.

Lawrence Hickey, former White House secretary, met Hoover at the station. The former president's secretary was yesterday and the trip prevented Mr. and Mrs. Hoover from observing the day of their Palo Alto, Calif., home.

GERMANY PLANS RESERVE TROOPS

Training System Indicated as Aimed at Army Totaling 400,000 Men

BERLIN, Feb. 11.—(UP)—Germany is planning an army of 400,000 men, built up from Storm Troop organizations and based on the "voluntary" principle, which would permit accumulation of a big reserve, according to indications today.

Picked men from the already "purged" SS and SA Storm Troop units would be recruited into the Reichwehr for "probably" six weeks' service, possibly would be required first to serve for six months in the "voluntary labor corps" as a preliminary.

Would Form Reserve

At the end of their training period, the men would form a reserve which army officials believe would have lost all identity with or interest in the old Storm Troop organizations, and would be purely military body with no esprit de corps based on army life.

All plans under consideration for the army naturally depend on the result of the prospective rearmament negotiations, based on the "French-British" agreement for a neutral defense league.

No outsider so far as known can estimate with accuracy the present strength of the German army or air force. A 200,000 figure has been named by the army, estimates of the potential war strength in place range from 800 to 1,000. These reports, of course, emanate outside Germany.

Supposedly Limited

Under the Versailles treaty Germany is limited to an army of 100,000. Officers must serve for 25 years and men for 12 years, as that no reserve may be built.

Although plans for solidification of army strength under an international rearmament agreement remain to be seen, indications of the evolution are obvious.

The Reichswehr appears to have curbed the military ambitions of some Nazi leaders after winning Adolf Hitler's support for its commanders' assertion that "in Hitler's words—'The army is the sole holder of arms of the nation.'"

The Reichswehr was understood to have insisted on this declaration.

'JUST INCIDENT'

...just another incident," Mrs. Margaret Bell (above), the former Margaret Hawksworth, boldly asserted interviewers anxious for details of the holding in which two young bandits invaded her apartment in a Miami hotel that removed her of \$200,000 worth of gems. They were fully insured, she announced.

3RD FIRM FAILS IN PEPPER POOL

LONDON, Feb. 11.—A third London brokerage firm went to the wall today as a result of the collapse of the great pepper pool last week.

Noted was posted on the rubber exchange that Rolls and Sons, 75-year-old produce company, was unable to meet its heavy obligations, due to the pepper pool.

Meanwhile the doom of the gambler who tried to corner the world's market in pepper was virtually sealed. The "pepper" pool committee, charged with clearing up the situation, officially fixed the price of the commodity at 8½ pence per pound when the pepper market reopened.

POST PREPARES FOR SPEED HOP

LOS ANGELES, Feb. 11.—(UP)—Within the next four days, probably Wednesday, Willy Post will point his veteran plane, the Winnie-Mac, into the stratosphere in the hope of reaching New York within seven hours.

By flying in the rarefied atmosphere 30,000 feet above earth, Post believes he can cut at least three hours from Col. Roscoe Turner's cross-country mark of 10 hours, four minutes.

So this is the air in the "perfect weather" zone that Post will obtain his oxygen from tanks and will protect his body from cold with a rubber suit. During the flight he will forego food and water, for his life would be endangered if he opened his 10-pound helmet.

Winston-Salem, North Carolina

HEALTHY NERVES! Says Ray Stevens, North American Doo-Sad Champion: "When the last has been said, I light a Camel and enjoy it to the full, knowing that Camels, since, bother my nerves!"

FLAVOR! Jack Shea, Olympic Speed Skater: "Camels taste good, that with me Camels get the nod every time. When people mention my being a cigarette smoker, I correct them and say: 'I'm a Camel smoker.'"

MILDNESS! Betty Chase, expert skater, says: "Camels are mild and appealing! And smoking Camels actually never tells on my nerves. To me, it's a very important fact that Camels are four tobacco."

VALUE! "I'm just an interested winter sports fan," says Edward Kent. "But I wish Jack Shea and Ray Stevens when it comes to smoking Camels I get a lift with a Camel, when I'm low and need cheering up, or when I'm tired. And the fact that tobacco is a choice quality are used in Camels goes far to explain why Camels are so mild and pleasing and never bother my nerves. It means a lot to me that millions more are used for the tobacco used in Camels."

ENERGY! "Camels' surprising speed is a great thing for one who is active," says Paul Thompson, of the world-champion Chicago Black Hawks hockey team. "When I feel that I'm a little tired, I light a Camel."
