CUBA DECLARAS WAR STATUS TO CHECK UPRISING

Military Tribunals Ordered to
Take Summary Action in
Emergency

DREADED LAW INVOKED

Economic Paralysis Creeps on
Nation as General Strike
Takes Effect

By LAWRENCE S. HAAS
(Copyright, 1935, United Press)

HAVANA, March 11 (UPI)—A state of war was declared throughout Cuba by the cabinet today just before the start of a general strike, which was designed to overthrow the government.

Simultaneously creation of military tribunals was ordered to handle nearly cases of persons charged with engaging in public disorders.

The disclosure was made by Vaticano City officials, who said the foreign reports of an attempt to assassinate the pope were highly exaggerated.

"It was a dangerous, they said, with a sharp one."

Officials said two Italian carabinieri, members of the papal guard, refused them because he appeared to be "high strung" and had no papers or identification.

He returned home and made his request. Papal gendarmes arrested him and turned him over to police.

At the central police station, he was searched and was found to have a regular passport and a travel ticket from Rome to Trieste.

Economic paralysis was creeping through the country.

Invokes Dreaded Law

The powers limited only by their armed strength, government forces declared martial law and imposed a general strike, it called "on all Cuban people to join the strike against administrative corruption."

How representative the "plethora" might be was uncertain. But regardless of its call, workers in almost every industry in Latin America, men are arrested, ordered to run, and shot dead. They are officially listed as having been shot while on strike.

The government's declaration of a state of war came in the early hours of today.

Two Hours

A proclamation issued in the name of the plenum of employees and students had set midnight last night as the hour when a general strike would begin, it called "on all Cuban people to join the strike against administrative corruption."

How representative the "plethora" might be was uncertain. But regardless of its call, workers in almost every industry in Latin America, men are arrested, ordered to run, and shot dead. They are officially listed as having been shot while on strike.

The government's declaration of a state of war came in the early hours of today.

Knife Found As Man Asks To See Pope

VATICAN CITY, March 11 (UPI)—A dagger was found on the neck of Roberto Murray, a Mexican, when he was arrested Thursday after attempting to obtain an audience with Pope Pius, it was disclosed today.

The disclosure was made by Vatican City officials, who said the foreign reports of an attempt to assassinate the pope were highly exaggerated.

"It was a dangerous, they said, with a sharp one."

Officials said two Italian carabinieri, members of the papal guard, refused them because he appeared to be "high strung" and had no papers or identification.

He returned home and made his request. Papal gendarmes arrested him and turned him over to police.

At the central police station, he was searched and was found to have a regular passport and a travel ticket from Rome to Trieste.

Economic paralysis was creeping through the country.

NRA CHIEF RAPS
RIGID HOUR BILL

Richberg Tells Senators No
Inflexible Schedule Can
Prove Workable

—By DONALD G. VAN TINE
WASHINGTON, March 11 (UPI)—The government has agreed to imposing upon industry a rigid schedule for hours and wages was announced today by Senator George W. Norris, chairman of the Senate committee on agriculture and nutrition.

Richberg, New Deal coordinator,

Richberg's statement was interpreted as indicating a change of attitude and a desire to give the committee the opportunity to express personal views.

He also said the committee

incurred expenses in connection with the extension of the NRA.

—By HUGO L. BLACK, D. A., author of a bill to impose a 30-hour week on industry, Richberg said:

"You cannot do any inflexible rule for industry that does not rule the multiplicity of injuries and disabilities."

Black sought to gain more information regarding the maximum hours required by the code. He said only five hours could be worked a week as low as 40 hours.

Richberg asserted that at least 60 per cent of the codes imposed a maximum of 40 hours.

The witness also was questioned about mechanization of industry and said:

"We are seeing a new value or use in endeavoring as a government matter to retard the natural progress of industry in increasing production per hour."

CUBA DECLARES STATUS OF WAR

Military Tribunals Ordered to Take Summary Action in Emergency

(Continued From Page One) many lines, including all branches of transport and employees of most government departments, already were off.

There was in a state which showed clearly the terms of people generally over the prospect of eventual revolution. This was largely precipitated by students of Havana university and joined by workers, among the administrators, who were members of the Aduana.

Ready To Fight
Mandela was ready to fight him at whatever cost.

"I shall remain at my post," he said. "I can not desert a cause like this."

Soldiers, sailors and pilots almost alone walked the streets during the night after an armistice was signed between the rebels and the government forces were exploded in the capital. Theaters and movies were closed.

The leaders found yesterday marked the apparent application of the "ley de fuga" in the national emergency.

There were those of Armando Fello, a student leader of prominence, and his father-in-law, Miguel Roque Freijo.

It was learned that a soldier and his detectives arrested Fello at his home at midnight Saturday. Roque Freijo asked permission to accompany him to the police station. He was shot while escaping.

The bullet-ridden bodies, found on the street in Madrid, a suburb, were laid out to-day.

It was learned that Mario Escalona, another student leader, was killed Saturday night and that his body was found floating in the River Dina, also was "shot while escap-

ing."

GREECE SUBDUES REBEL 'HIDEOUT'

Macedonian Stronghold Falls as Government Troops Push Big Offensive

(Continued From Page One) toward Corinth and the thousands were deserting General Camenos, the rebel generalissimo in Macedonia.

Final Stand

Desertsers, it was announced, that the government troops had taken the passes between Seres and Drama and there made their stand against Camenos, and the Loyalist army of General Goullis, moving westward from Thrace.

Confident of victory within days, the government already was making plans to recapture the islands of Crete, Venetia, Samos and Chios, held by the rebels.

Then it planned capture of the mainland and the islands of Vassiliko.

The rebel cruiser "Mare" helldivers' merriment was ended by a naval engagement in which the "Mare" was forced to join the government fleet. A former government engineer, who took over the ship, reported the government's bombardment by three government destroyers yesterday crippled the "Mare."

Crew Mutinies

His report indicated the crew mutinied and may have thrown the officer in command overboard.

There seemed no doubt for the moment that the rebels would not be able to hold the fortifications of the Greek offensive. Airplanes were bombing them from the air, and swooping down to within 250 feet, machine gunning them.

There was one report that General Camenos had his men fire upon the Bulgarian border.

AMERICANS SAFE
WASHINGTON, March 11 (UPI)—All Americans in the war zones are safe, despite the fact that the state department dictated today.

CANADA WILL AID DROUGHT REGIONS

Giant Keeps Order In Canadian Town

MONTEAL (UPI)—The蒙特利爾 Metropolitan Commission has been formed to bring order to the banks of the St. Michel.

Seeking an inexpensive method of keeping the wilder villages of the St. Michel area under control, the commission tried to straighten out its cage during meal time and romped across the "State" Armada.

Mr. St. Michel, the local constable, after receiving medical treatment, Mrs. Lem Simpson and baby son, Twin Falls, were also dismissed.

NEEDED LION TAMER
HAMILTON, Ont., March 11 (UPI)—A scheme of dams would rehabilitate acreage now laid waste by drought in western Canada is to be undertaken by the Canadian government.

The scheme calls for construction of more than 100 dams and modification of the system of farms in the areas in the prairie provinces.

Under the supervision of department of agriculture experts, farmers in the provinces of Saskatchewan and Alberta will be taught what kind of crops to plant in certain districts, and the soil will be tested and prevent soil drifting by planting trees and grasses best suited for the purpose.

The cost of the proposed scheme is estimated at \$50,000,000.

News-in-Brief

Editor of the Evening Times is invited to contribute brief news items to this department of the paper by telephone. The number is 21.

Dr. Dwight House
Dr. W. H. Dwight, dentist, has returned from Atlanta, Georgia, where he has been on professional work.

Cat Board to Meet
The board of directors of the Community Chest will meet Tuesday at 7:30 p. m. in the city clerk's office.

Homes from Coast
Mrs. H. P. Hargrave has returned from Los Angeles where she has been visiting at the home of her daughter, Mrs. Ruth, and daughter, Mr. and Mrs. Keith Carlson.

Laura Vista
Mrs. E. J. Lloyd, State director of the Idaho Rural Rehabilitation corporation, Boise, spent the weekend with her family here.

To Talk on Books
The author of the sugar beet industry in this section will be given open the local radio station Tuesday at 7:30 a. m. by W. S. Pethouse, it was announced today.

Department Called
The board of the roof of the C. C. Craig house at 500 Fifth Avenue east, Sunday morning resulted in an alarm being placed calling out the fire department at 1 a. m.

Seriously Ill
Jack Van Isderen, employee of the Motorway, Inc., suffered a heart attack at the home of Mrs. G. V. Erlandson, Fourth Avenue north. Women desiring to make hate are requested to bring their material to this meeting.

Salmon Club Will Meet
Salmon Social Club will meet Saturday at 7:30 p. m. at the home of Mrs. Ernest Fuller. Roll call will be answered with "My Hobby" or "Irons" announced. Mrs. Incy Hennet will be in charge of the program.

Class To Meet
"Home Building" class will meet Saturday at 7:30 p. m. at the home of Mrs. G. V. Erlandson, Fourth Avenue north. Women desiring to make hate are requested to bring their material to this meeting.

BRASTIC MEASURE

BORDE, March 11 (UPI)—Of all the proposed taxes or licenses on the special session of the Idaho legislature will take action on the tax on telephone or telegraph lines probably the most drastic.

The bill, H. B. 12, by the state auditor, authorizes a license fee of \$10 per mile license for police lines or conduits for all companies using more than 25 stations and \$2,000 per mile for less than 25 stations.

The bill provides that companies

paying the tax owning more than

one phone or telegraph line will be liable for a license of \$250 per mile.

Bills Introduced

IN THE SENATE
S. No. 1, by banking committee—Authorizing banks to take advantage of the terms of any act of Congress to aid, regulate or control banking corporations or depositors, including the federal deposit insurance corporation (H. B. 144, regular session).

RECOVERY BILLS MAY TAKE LEAD

Administration May Drop All Reform Measures Because of Stakeholders

By LYLE C. WILSON
WASHINGTON: March 11 (UPI)—Administrative policies may be saved by Congressmen and their wives during the next few weeks to put recovery ahead of further business and banking reform as immediate New Deal objectives.

If this chance is missed it will be founded on expediency rather than principle, and the New Deal will prevail. So far no congress has concerned public business is at a standstill.

Not Much Action

Congress has been in session 10 weeks without enacting any of Mr. Roosevelt's reform legislation. This is due to the lack of security, abolition of utility holding companies, the central bank bill, and related legislation and some less important bills.

Some or all of these may go into the discard for the year unless there is a change in the political establishment control of his nominal congressional majorities. There is some rethinking in the house, but little is to be done.

"Gage" Rule Loses

It is possible, however, not seem probable, except as a rebuke to Sen. Huey P. Long, D. La., that his administration would propose to extend the "gag" rule to the Senate to get action on its reform program. Sen. Carter Glass, D. Va., has introduced a bill to prohibit the use of senators to filibuster legislative bills. The Glass resolution would apply only when the Senate was controlled by the party opposite to the one which then controlled the Senate. It would be necessary to speak unless he discussed the bill actually referred to him.

The Senate would have saved legislative day last week if such a rule had prevailed. The "gag" rule, which was moderately controversial, was before the Senate from Monday until it was dropped.

Extraneous Issues

Sen. Long took much of the debate's heat with his criticism of the Senate's failure to do anything to help the poor. He has been a leader in the Senate's opposition to the Glass resolution.

Sen. Long, who was born April 30, 1890, in Beaufort, S. C., and died in 1921, was a member of the House of Representatives from South Carolina.

Two days would have been enough where he had been to the appropriation measure.

The recovery or reform argument has arisen frequently in the Senate. It has been generally committed to less reform and the hope of more recovery. But the reformers know that this is not true. The reform legislative were not constantly being proposed—America's industry, agriculture, and more quickly from depression and unemployment could always be improved.

Mr. Roosevelt does not accept that argument. The most far-reaching reform bill of the Roosevelt administration, the Glass bill, was not passed by the Senate.

They were the bills to abolish electrical power holding companies and to establish a political funding system in which credit could be controlled by government.

Mr. Roosevelt does not accept that argument. The most far-reaching reform bill of the Roosevelt administration, the Glass bill, was not passed by the Senate.

If reform bills were Jeffersonian, the New Deal probably would not have been able to pass. The reformers are the ones who will be blamed for the failure of the reform bills.

The weapon of credit inflation and the administrative alternative for which there is a larger house majority and more conservative support.

If reform bills were Jeffersonian, the New Deal probably would not have been able to pass. The reformers are the ones who will be blamed for the failure of the reform bills.

BEET ADJUSTING PLANS DRAFTED

Method Outlined for Settling Difficulties Where Farmer Gets Low Contract

BOISE, March 11 (Special)—A plan for adjusting difficulties which may arise under the sugar-beet program as a result of farmers being offered beet-purchase contracts for acreages smaller than their allotments, has been worked out by the sugar section of the AAA, under the direction of E. C. Johnson, manager of the extension agricultural committee in charge of the sugar-beet program in Idaho.

In this plan, if a sugar-beet grower has received an acreage allotment, but is not offered a purchase contract for the full amount of his allotment, he may appeal to the district production-control committee. The production committee will then investigate his claim if there appears to be a sound basis for requesting a purchase contract covering the full acreage.

The sugar section will then negotiate with the processor for further adjustment.

Under this procedure, it is believed that each farmer will receive a beet-purchase contract equal to his allotment.

This has been discussed with representatives of the principal producer organizations and with representatives of the beet-sugar processing

BANKER FREED

STRICTER OCEAN RULES DEMANDED

Steamship Head Urges Federal Regulation to Guarantee Safety on Seas

HOUATON, Tex. (UPI)—Growth in the number of water carriers has made it necessary that steamship regulations be strengthened, according to the head of the Lake Michigan Steamship Association.

Regulation is needed to insure

the enforcement of existing laws and to prevent new laws from being passed which will interfere with legitimate interests.

It is felt that these should be certificates of marine commerce to be issued by the Bureau of Fisheries.

It is estimated that the 1935 fleet will be 80,000 tons or 92 percent of the 1934 fleet.

The indications for the entire United States are that there will be about 2 percent less.

There will be more than 100 ships registered in the United States.

Under the new rules, the tonnage of ships will be limited to 100 percent of the 1934 fleet.

Under the new rules, the tonnage of ships will be limited to 100 percent of the 1934 fleet.

IDAHO'S POTATO CROP DECLINES

BOISE, March 11 (UPI)—The potato crop in Idaho, which is the second largest in the country, has declined 8 per cent, accord

ing to reports issued by Richard E. Johnson, agricultural statistician.

Johnson said the 1935 crop will be 90,000 acres or 92 percent of the 1934 crop.

The indications for the entire United States are that there will be about 2 percent less.

THIS CURIOUS WORLD

By William Ferguson

THE NAMES OF THE STATES OF THE UNION CAME FROM SEVEN DIFFERENT LANGUAGES: LATIN, GREEK, SPANISH, FRENCH, DUTCH, ENGLISH, AND AMERICAN INDIAN.

The 19th century saw other 100-mile-an-hour records. In 1893, a train on the Pennsylvania road traveled 5.1 miles in 3 minutes, for a speed of 102 miles per hour, and a Burlington train made a short run in 1890, at a speed of 108 miles per hour.

SIDE GLANCES

By George Clark

"But, officer, have you never felt that urge to get behind the wheel and go, go, go as fast as you can?"

Spring is just around the corner... and with its approach will come the annual house-cleaning activities... and those activities will uncover the collections of knick-knacks in cellars and attics... and many of those knick-knacks will prove of worthwhile value to many persons... but they'll have to be marketed... and we suggest that the quickest and easiest way to turn them into cash is to advertise them in the Classified columns of the Idaho Evening Times.

How Would You Like To Bring A New Industry To Twin Falls That Would Immediately Invest \$1,750,000 In This County?

Probably All of Us Would, But How About Saving One for Twin Falls That We Already Have

Here Are The Facts

Last year the federal A. A. A. cut our beet acreage 43%. A strenuous fight brought it back to us. Everyone was opposed to the cut. Our present allotment is not permanent or assured. March 20th marks the deadline for the signing of new acreage. If we fall too short our allotment could again be cut and given to other states. Well informed people say this is probable.

The sugar factory will stay to the bitter end BUT it can't operate if the acreage is permanently lost.

The Amalgamated Sugar Company has an investment in Twin Falls County of \$1,750,000.00.

It pays average taxes to Twin Falls County of \$28,000.00. These taxes would be hard to replace.

In 1933 alone Twin Falls and Jerome County growers received \$1,084,327.86 for their crop.

Producing the crop turned loose \$288,952.20 in wages in these two counties.

The sugar factory payroll while processing the crop was \$227,781.21.

It Would Hurt All of Us to Lose These Incomes

By Saturday Burley Signed Up 7883 Acres
And Twin Falls Signed Up 3136 Acres

A harvest of 8,000 acres in the Twin Falls district would give the plant a 75-day run, assuming average yields as in the past.

Sufficient water is already assured on the South Side to produce a crop.

President George Cobley of the Idaho Beet Growers Association in a recent speech predicted a price to the grower of \$7.50 a ton for beets. Sugar factory estimates are slightly more conservative.

Now

The leaf hopper threat seems to govern the situation. The government report was not wholly favorable. Frankly, the beet crop has experienced several bad production years. Other crops have had bad price years. Both mean a loss. Both could happen again. This signed statement makes no attempt to hide the truth.

But

There are favorable factors. The new U. S. improved Number One resistant seed from the 1934 crop at Las Cruces, New Mexico, is the best so far developed. Ask the local entomology department, the sugar factory executives, or members of the local Beet Growers Association. They will give you the facts. Spring weather conditions could materially change the outlook.

LAST YEAR WAS A BAD YEAR

Yet

705 acres were harvested by 108 growers. Yields of 8 to 10 tons were not unusual from these fields although many had been neglected or practically abandoned.

The Purpose of This Statement

Is to present the unvarnished truth and ask help from those who can and will help to protect this industry. To those who are not able to grow beets or take the risk, we ask for your good will and moral support. To the others, we ask you to make an honest investigation and get the facts for yourself. Perhaps 5 or 10 acres represent a very small part of your farming operations, yet every 5 acres added now is a great big help in this emergency.

The People of Twin Falls County Have Always Come Through

They created one of the richest sections in the world from an arid desert. They were first to go over the top in Red Cross and Liberty Loan drives during the war. They built a railroad. They saved the banking situation in the face of unnumbered obstacles. And we can save this situation, too.

This Statement Was Prompted by the Local Beet Growers Association and Twin Falls County Business Men

It was not made by the Amalgamated Sugar Company, although it has their hearty endorsement. It is paid for by voluntary subscriptions from Twin Falls County Growers and Business Men who believe that anything which in in the long run helps any part of this section helps us all.

NOTICE

JOHN FELDHUSEN will talk on the beet situation over K. T. F. I. radio station at 7:00 a. m. Tuesday morning, immediately following the market reports. Be sure and tune in.

(Signed)

Guy H. Shearer | J. N. Dayley | Matt Schmidt
