

ROOSEVELT MAPS HELP FOR LABOR

NRA Extension Plan Expected
To Come As New Job for
Big Industry

(Continued From Page One)
labor representation on NRA and
assurance that collective bargaining
privileges would be restored
to all workers—organize organized
labor to take another chance.

On Richberg, John L. Lewis, president
of the United Mineworkers, and
John A. Lavelle, on the discussion
preceding last week's shifts and departed apparently antithetical to a senate committee:

"Mr. Richberg, springing from
the idea of making an extension of
the NRA, has indicated his intention
of a code of labor in the automobile
industry for continuation of
48 hours a week; while Mr. Lewis
has told him he would not organize
labor when it made that recommendation."

To bring Richberg and Lewis together, it was necessary to offer labor some inducement
not to insist on enforcement of NRA's collective bargaining
provisions. The little business man
is due for a raise in his treatment
and the intention of the administration to withdraw from
big business some of its privileges
under NRA is not to be denied—trust laws
are generally conceded.

It was apparent today, therefore,

that under the conditions
existing in the automobile industry, NRA big
business will do most of the giving,
little business and labor will
take some of the things.

Under the circumstances the attitude
of big business toward NRA extension
will shift in the direction of co-operative
action. The act must be extended or
lapsed by mid-June, 10.

Oil Business Program

Separation of labor reforms

from regulation of trade practices
guides and most electric working
hours than the maximum now imposed.

Administration of labor regulations
by the labor department
meaning the scrapping of existing
labor machinery set up there.

Until Mr. Roosevelt won labor
last week in the Richberg-Lewis
negotiations, he had been most
vital force on furthering
NRA extension. Labor has moved
up now, to help Mr. Roosevelt
keep his promise.

Political Washington is wondering
whether Lewis and President

William Green of the AFL
Politicians of Labor have won

the majority group of workers
in the country to support their
collective bargaining for all workers.
That is organized labor's objective.

Senator William E. Borah, R.
Idaho, is negotiating for little busi-

ness men. He wants anti-trust
laws back in force.

THE LIQUOR-COMMISSION
Idaho's new liquor commission, named last week by Governor Ross, seems to be constituted by a fairly representative group of Idahoans.

Two are Democrats and one is Republican. Of these, one is newspaperman, another is a merchant, and the third is an experienced state official. One is an ex-service man and young enough to bring to the board the viewpoint of the newer generation, while the other two are older and more experienced in life and in the social problems which have confronted this country and state for many years.

All the boar members count their residence in Idaho over a long period, and geographically they represent all sections of the state: the southeast, the southwest and the north.

M. B. Yeaman, Idaho Falls editor and former state senator, is the Republican member of the board. Robert Coulter, named board chairman, and Homer Martin are the Democratic members. Coulter has been state land commissioner, was state chairman of the Democratic party, and his home is in Valley county. He has been speaker of the house of representatives and served for many years in that body. Martin comes from northern Idaho, where he was engaged in the mercantile business. He is an ex-service man and is commander of an American Legion district.

The board members have a serious and difficult problem in administering the new liquor law, but that the members are equal to the task is attested by their experience and ability already proved.

The Democratic party parts with Bob Coulter as chairman, with reluctance, and because his term on the commission is for six years, his personality in the party will be greatly missed. The law specifies that party politics by board members is taboo. The press of the state will also lose one of its forceful characters in the resignation from the editorial desk of Senator Yeaman of the Idaho Falls Post.

But the posts they have assumed challenge the ability of the best men in the state, and it is fortunate that Governor Ross was able to secure the consent of these three to serve the public in the tasks which he has assigned them.

They've invented a robot plane pilot. Now what we need is a robot automobile driver, operated by a voice from the back seat.

ALLIES BLAMED

In a Europe already armed to the teeth, the rearming of Germany can hardly make quite as much difference as the professional scare-mongers seem to think it will. The whole European system has been sliding toward war for years; one more set of armaments doesn't change things much.

What it does do is throw a damning light on the post-war conduct of the victors of 1918.

When Hitler says that the Versailles treaty which kept Germany disarmed also pledged the allied nations to disarm, he is simply stating a plain fact. The amount of disarmament that the allies have indulged in since 1918 could be put in your eye without difficulty.

If Germany has finally decided to toss the whole treaty out of the window, the allies have no one to blame but themselves.

For the basic difficulty has been that the treaty makers forgot the one fundamental fact back of all European treaties and agreements—that the various people of Europe, after all, have to live side-by-side, and that no system which keeps them indisposed to live peacefully is a good one.

When the war ended, Germany's royal family had fled in a panic and the great gospel of militarism was completely discredited. It was not merely possible to build an era of enduring peace and understanding then; the plain people of all countries wanted it desperately. But the peacemakers deliberately chose the opposite course.

The Versailles treaty embodied that choice. It created a situation which could not possibly be permanent. And the victors, by refusing even to listen to any suggestions that the treaty be modified, made it inevitable that those who felt it to be unjust should look to war as their only hope.

The whole record of human history contains few instances of greater folly than this.

Where countries are packed together as closely as they are in Europe, it is insane to suppose that any system which creates hatred and suspicion and perpetuates resentment can lead in any direction except toward war.

Germany's renunciation of the treaty was only a matter of time. If the war which this step seems to foreshadow is to be averted, the nations which dictated the treaty must prepare to work out a plan to settle Europe's troubles by conciliation instead of by repression.

"Hitler evidently intends to have peace if he has to fight every nation in Europe."

BEGIN HERE TODAY

Gale Henderson and I work in a silk mill. She and I, like most of the workers here, have fathers.

STEVE SEIFERT, who also works in the mill, is married to a woman who wants to marry him. She desires giving INDIAN WESTMOSES, whom Indiana is most attracted to Gale. Both Steve and Indiana are single, but Steve is rather old.

Steve's mother, MARY, is a widow, and she is the place before the wedding can take place.

Phil sees Phil. He is an average worker with a small employer, a street sight.

Phil sees Phil again, this time in a mill workers' company. Steve, trying to defend himself, attacks Phil. Steve is brave, but Phil is hard—impressive results.

For one thing, he had discovered that the woman he had taken from Phil's market the day Phil was accused of fraud, had been bought less than six weeks before. Steve is very angry.

Phil sees Phil again, this time in a street sight. The lawyer and told her so less than an hour earlier. The lawyer who was so young-looking and a little soft-spoken had done his best to impress her.

And thousands of others, all over the country, see the words.

G. A. R. CLUBS ARE HOSTS TO NATIONAL HEAD

Mrs. Pearl C. Cooke, Chicago, national president of Ladies of the Grand Army of the Republic, was entertained at a 6:30 banquet last evening at the Park hotel by members of the Lincoln, Sherman and Grant circles. Mrs. G. A. R. clubs and Twin Falls, Oregon, were extended to the president by Mrs. James Taye, president of the Lincoln circle, and by Mrs. Clara Hall, president of the War Mothers. Mrs. Nellie Farnum, president of the Ladies' War Veterans, Austin, and Mrs. P. W. McRobert, representative of the Daughters of the American Revolution, were present.

Mrs. H. E. Greene, president of the Twin F. F. chapter, Dan McCook circle, was too illstrated of the women of the American Legion, Mrs. Bertha Clyde, Twin Falls, and Mrs. Cooke were introduced by her. The principal address of the evening was given by Mrs. Cooke.

The program included the singing of "The Battle Hymn of the Republic" by Wilson Petrie, a solo by Mrs. Lois Anderson, accompanied by Mrs. W. E. Anderson and a solo by Dorothy Williams, Mrs. Margaret Evans, Sherman circle. The three orchestras presented the national anthem, followed by a solo with guitar. The evening closed with the singing of "The Battle Hymn of the Republic."

Following the banquet, Mrs. Cooke met with the local circle and discussed phases of the local war work. She also made contributions to the memorial to the Grand Army to be built in Weiser.

The banquet was preceded by a 1:30 luncheon complimenting Mrs. Cooke given by Mrs. Edith Koehl, Anna L. Johnson, and Mrs. F. C. Koenig, county home. Other guests were the department officers. A green and white floral feature graced a full attendce.

Marian Martin Pattern

FROCK THAT'S DIFFERENT.

Complete Diagrammed Marian Martin Skirt Pattern Included

PATTERN DESIGNED

An old favorite comes back—in a brand new form—Marian Martin's "Frock That's Different" pattern. It's a classic design with an old-fashioned crocheted yoke—and has achieved an effect as new as the first violet or spring. The yoke is made of four rows of crocheted stitches used in making the Marian Martin yoke, plus exact patterns for the bodice and the skirt. The pattern is also designed for material you like, should you prefer it to crochet. Make the bodice in a light fabric, like silk or cotton, or in shantung or in broadcloth. Match your crocheted cotton and your fabric perfectly or make a combination. Pattern No. 622 can be ordered

only in sizes 16, 18, 20, 22, 24,

26, 28 and 30. Price requires \$4.

50¢ extra for each size.

PIUS WILL PLEAD CAUSE OF PEACE

Pope's Message Will Condemn
Violation of Agreements
For World Security

(Copyright, 1955, United Press)
VATICAN CITY, March 25 (UPI)—Pope Pius' encyclical of April 28 will condemn the violation of international agreements and an earnest plea for world peace, it was said on most reliable authority today.

The encyclical was characterized

as the most important document at the present pontificate. It is to be issued in connection with the end of the papal year.

It was understood that the encyclical would contain a warning that nuclear war would be tantamount to the destruction of civilization.

Return to Barbarism

There are too many indications that the world is moving toward a condition where there is danger of a more disastrous even than the last, and that humanity might return to barbarism.

He is understood to intend to say that his plea is prompted by his duty in the Roman Catholic church, and that he has no right to tell people that moral forces are valueless and that there is no guarantee for security of nations.

Noah attempted to bring man back to God, and after a long course among peoples, the Pope is expected to say, but these have had little success because of hatred, fear and greed. He is determined to tell people to believe that moral forces are valueless and that there is no guarantee for security of nations.

Friends Push Cash
Drive to Send Boy
East for Operation

JANESVILLE, March 25—Friends of 16-year-old Jimmy Nelson renewed their drive today to complete a \$1,000.00 fund to send him to the Mayo Clinic, to have his up-to-date stomach corrected.

The collectors were within sight of their goal as \$650 has been pledged within the last week.

Dr. Philemon Truskett, Ed. H. Nelson, and others committed to perform the operation without charge. He recently corrected a similar condition troubling 11-year-old Jane McRae.

SCHOLASTIC DAY PLANS COMPLETE

Gooding College Maps Details
For Academic Contests
April 12

GOODING, March 25 (Special)—Plans have been completed for the fifth annual Gooding college scholastic meet to be held on the campus Friday, April 12, according to Mr. Herman G. Gundersen, chairman of the high school day committee. Many requests have come from interested schools in northern Idaho, and the general interest seems to point to a heavy registration.

As in former years, the morning session will consist of academic contests in oratory, dramatic and humorous reading, piano and voice, and the academic contests. The afternoon session will consist of baseball, play day in which track, baseball, and horseshoe pitching will be featured.

In this evening the rhythmic and dramatic will be featured and the cup will be awarded to the school having the "most spirit." Medals will be given to the winners in each category, to a new place, and honorable mention to third place. Fourteen high schools were represented in the 1954 competition.

These rhythmic youths are eager to win. Spring is still around the corner. What you don't believe it? Now look here—you know it's true. Charlie, Charlie, here I sit in a felt—here I am! Come to the public to hear Mr. Karlson, Adj't. B. T. Stach, commander of the Twin Falls corps.

Meetings will be conducted

Missionary Says

Declaring that the happiness of the home as well as of the individual rests upon the keeping of the commandments of God, Rev. John Korpela, returned missionary from South America, spoke to a small group at the Salvation Army hall for "more observance of Bible truths."

"I want to have the Lord's grace with all thy heart, and then to love thy neighbor as thyself," said the speaker, "will be the fulfilling of the two greatest commandments."

Meetings will be conducted eightly-thousand by Mr. Korpela, who is president of the Twin Falls Industrial society in the Twin Falls area.

THIS CURIOUS WORLD

By William Ferguson

SIX DISTINCT MECMES ARE OBTAINED FROM THE SKIN OF THE TOAD! AMONG THEM IS A REVALIN.

THE ARITHMETICAL SIGN OF EQUALITY,

WAS DEVISED IN 1557 BY ROBERT RECORDE, WHO SAID, "AGE 2 YEARS AND 8 MONTHS IS AS EQUALE AS THAT A PAIR OF PARALLEL LINES OF ONE LENGTH."

OSPREYS

AS WELL AS SOME OTHER BIRDS, CARRY WATER IN THEIR FEATHERS AND SHAKE IT OVER THEIR NEST, IN ORDER TO KEEP THE EGGS MOIST.

The Chinese discovered the medicinal value of the toad ages ago. For centuries they have prepared drugs from its skin. These gland secretions are very unpleasant to the taste, and the toad uses them to discourage animals which seek to eat him.

In accepting copy for classified field advertisements for publication in the Idaho Evening Times, the Times Publishing Company agree to avoid errors as far as possible; but when a typographical error appears in an advertisement, the responsibility of the Times Publishing Company cannot be assumed. We advise you to check your copy carefully, but we do not call its attention to the error.

All Classified Ads are returned to the writer, unless otherwise directed, and the Idaho Evening Times reserves the right to change the wording of an advertisement, if in our judgment it does not call its attention to the error.

Classified Ads which carry a letter, and bear number, should be answered by letter. Please do not ask for the name of the advertiser, unless in such case.

EMPERORS WILL MEET AT TOKIO

Ruler of Japan, Manchukuo Scheduled for First Get-Together

TOKIO (UPI)—Two youthful rulers who guide the world's oldest and youngest existing empires, the Emperor of Japan and the Emperor of Manchukuo, will meet for the first time April 6 in the drab platform of the railway station here.

The two emperors, very near of an age, clad in formal full court dress and ceremonial robes, will be introduced, according to traditional custom, by Prince Chichibu of Japan.

The two emperors will ride in their respective palaces after the meeting. The Emperor of Manchukuo will ride in the official state red carriage drawn by eight horses, the Emperor of Japan in a smaller mobile.

Well Guarded

Above him will attend lined by guards, the royal couple will take its three crown occupants to the Akasaka detached palace, vacant since 1912 when the emperor moved to the residence of the Consul, those attending the funeral of the Emperor Meiji.

There will be a strong guard of honor during his visit. Empress Kojun, behind a line of motor cars carrying the reception committee headed by Baron Gonmori Hayashi, Privy Councillor to the Court of St. James.

As he enters the palace assigned to him during his visit, Empress Kojun, whose eyes will scan floral objects and designs—rare Chinese vases, scrolls and other objects of art—will be seated and decorated in a manner designed to please the visiting Emperor and make him feel at home.

Marvel at Sight

Born in a palace that was built but a few years after the Pilgrimage settled in the capital and living in a city of 10 million people, the true sense of the word, the Emperor of Manchukuo will marvel at this fast moving capital and its six million people.

His first ride in babyhood was in a chair carried on poles in the courtyards of the chief winter palace of the Manchu. And there was an infant that he often saw a red carriage, almost—an exact replica of the one in which he will ride here, mounted on horseback with tall dignitaries as occupants.

He had of course seen many automobiles, trucks, motorcycles and bicycles about China, but never so many as here.

SPAIN PLANNING AFRICAN TUNNEL

Survey Renewed for Proposed Tube Underlying Strait Of Gibraltar

MADRID (UPI)—Preparations are under way for the resumption of the preliminary studies for the construction of the projected tunnel under the Straits of Gibraltar.

The project to be followed by the tube linking Africa and Africa already been chosen. It is not the anticipated role between the two continents, but the shortest and the best from the viewpoint of the nature of the rocks forming the sea.

Borings to 1,000 meters have fixed the Spanish end of the tunnel at "Punta Poniente," which is the northernmost point of the Iberian Peninsula, and will be at "Punta Alcores," situated in the Spanish zone of Morocco.

Length of Tunnel

The tunnel will be 32 kilometers long, 100 meters wide and 100 meters high. The ceiling of the plan, its maximum depth below sea level, will be 400 meters, while the vertical distance between the top of the tunnel and the bottom of the sea will vary between 10 and 100 meters.

Circular Tubes

Each tube will be circular and will have a diameter capable of containing a pressure of 130 pounds per square centimeter.

The only serious danger threat- ening the existence of the possibility of an explosion in the overlying strata, which might allow the sea water to penetrate and cause the crashing in the concrete vault.

To settle that point is one of the chief aims of the preliminary explorations now in progress.

Snake, "Dairy" Owner Asserts Blow Is Quickest Motion In Animal Kingdom.

PHILADELPHIA (UPI)—Daniel Pratt, Manly, owner of what might be called a "snake dairy," says the blow of a rattlesnake probably is the quickest motion in the animal kingdom.

According to Manly, the blow of a rattlesnake is so rapid that it is impossible to follow the blow and nothing within range can escape it.

At 20—a University of Pennsylvania student, is owner, director and box master of the snake dairy at his home in Rosemont, near here.

Ada Seeliger, The snake dairyman has a number of venomous snakes, which he uses in trapping, for which he makes an average of \$100 a week, serum for persons bitten by other reptiles.

The snake is used in feeding the snakes and only the hand for accuracy picks up the reptile just back of the head. This has to be done very quickly and accurately, so that the snake does not strike again if the animal turns and strikes.

The snake is induced to strike at a piece of leather cloth stretched over a glass receptacle.

Transparent of Poison

At the moment the fangs penetrate the cloth, the poison is distributed in a thin, greenish liquid. About half an hour later the wound quickly discharges.

This liquid is then dried and in very weak solution is injected into the hand to dilute the poison.

With the hand held over a flame, by constant injections of increasing strength gradually the poison is immuno to the venoms and it leaves them that the serpent is obtained.

The snake farmer considers a bite from a rattlesnake a minor affair. He killed most of the grass in this section, Miss Lucille Huston gave

a review of the club's ten year ob-

jective. Miss Ruth Gross gave the club's history.
