Personal Feuds Among Bolsons And Cabinet Men Add to Complications

By LYLE C. WILSON WASHINGTON, April 3 (AP)—This session of congress, three months old today, has more alect to be popular clamor than to recommendations from President Roosevelt.

The routine appropriation bills are in shape for speedy disposition but the administration program only of the \$4,880,000,000 works has its first final action.

Waiting for senate or house action are bills considered by Mr. Roosevelt to be vital to his program. These include N. R. A. public utilities holding company, banking and social security. Half a dozen others have been proposed, although with little chance of passage.

Subscription Rates By Carrier Delivered in Advance By Mail, Within State, One Year, \$1.00 By Mail, Outside State, One Year, \$1.50 All notes required by law or by order of court of competent jurisdiction to be paid in full, will be published in the Thursday issue of the paper pursuant to section 10-101, P. C. A. 1932, an amended thereof by Chapter 147-123, Session Laws of 1932.

A VOTE OF CONFIDENCE Twin Falls voters have done the expected in returning to office Mayor Duncen McD. Johnston and Commissioner Lem A. Chapin, who sought re-election upon their records. Their election gives assurance of a harmonious administration, for on the council already are Commissioners O. H. Coleman and J. G. Johnston, named for four year terms two years ago along with Mayor Johnston.

Deserving of special mention is the splendid vote accorded W. E. Taylor, who ran next to Chapin in the race of council candidates, and who will compete in the run-off election three weeks hence with H. H. Hedstrom, next high vote-getter.

The defeated candidates emerge from this campaign with their reputations unscathed. The ticket headed by Bert A. Sweet for mayor put up a formidable race and the records disclose that the election maintained the precedent established 14 years ago, since when every mayor has gone into office with a majority comprising a mere handful of votes. In the past such races have been decided by less than 50 ballots.

The public is to be commended for taking the interest it did in the election, and the people were fortunate in having the opportunity of selecting its city officials from such a representative group of capable Twin Falls citizens.

This newspaper wishes to congratulate the winners for their successful conduct of the campaign and to give assurance, as the people by their votes already have done, of confidence in their administration.

The election has tended to arouse widespread interest in civic and municipal affairs, it has brought its lessons, and the results give promise of two more years of progress here under an administration which has received endorsement of the public, and has demonstrated its capacity to cope successfully with the important problems which arise in a recovery period such as is being experienced.

New radio compass enables a plane to fly straight to the station broadcasting. The device is probably put to a severe test, though, when a crooner comes on.

GRAVE WARNING Three deaths resulting from auto accidents have already been recorded in this county this year. Two of these deaths took place this month, and the accidents which caused two of them occurred in March.

Two of them originated at the same place, a bad turn along the winding highway where Salmon river enters the Snake. It is criminal to let such a piece of highway go unfixed. No one knows how many more persons might meet death or terrible accident there.

The accident which occurred just outside the city limits Monday, should serve to impress the danger of permitting children to get on highways, especially those which carry heavy traffic.

There is a dual responsibility between driver and pedestrian. Drivers cannot assume all the burden, unless it be that they are exceeding speed limits or operating machines recklessly.

Such a record should serve as a grave warning to drivers and pedestrians alike. There is danger constantly which must be avoided.

Hoover's new job as director of an insurance company has nothing to do with his efforts to sell the country on his policies.

UNITED FIGHT ON DOPE Every state legislature would profitably give heed to President Roosevelt's appeal for a system of uniform state laws to abolish the illegal traffic in narcotic drugs.

As the President points out, the federal government alone cannot wholly check this traffic. It must have full co-operation from local law enforcement units. But the great diversity of existing state laws on narcotic drugs makes such co-operation very hard to obtain.

FAMILY STRIFE WASHINGTON—The southern branch of the Democratic family was divided by a family quarrel of what the divorce lawyers politely call incompatibility.

The quarrel was between the older day by a Senator George who was only a member of the "old" family, which may be beyond the bounds of the family that year led by Senator Trice.

FOILING It had been more or less an open secret that Mr. Bernard Baruch was slated for a uneasy time before the senate munitious investigator. From then, weeks ago, when the "old" family had Baruch's wartime income tax returns and been destroyed in the country.

HIGH PRESSURE The holding companies are getting along unexpectedly well in their inside and outside resistance against the holding company bill. They have succeeded in delaying the measure somewhat in the senate. Their hopes of forcing the bill up against the end of the session are high, and that carrying it to the house of the present session is the best strategy.

"I'll James J. and sawed off Joe Gould, his manager, wanted me," he said. "The chances of getting a crack at the champion—let's say, Braddock—were very good, but I depended upon whether the Garden could close either match by April 16, because if they couldn't, I'd have to wait for the awaiting of out-door dates."

The commission refused to grant dates to the 20th Century Sporting club for a Barney Hoss-Loss-Loss, and in a first round fight between Louis-luffa-scuttle June 19. The month was held open to enable the Garden to complete its plans.

"The Garden has Max Baer," Chairman John J. Phelan explained, "and I can't see how I can't approve half a match, but I'm not willing to allow outside dates today as we had planned to give the Garden until April 16 to complete its arrangements."

This preference for the Garden over the 20th Century, Phelan explained, was made by the commission did not wish to see the heavyweight championship match scheduled.

5 Sticks by Braddock

The commission stated by Braddock to the Garden in New York. Braddock on the other hand, who is a champion, that the Jersey Irishman would not be a drawing card. Max Schmeling, who would be a challenger, since the commission, regards himself as the outstanding contender, and he had Braddock in a proposed first-round fight.

Phelan's choice is left the Garden. Induce Schmeling to meet Braddock, and to fight in the Garden, but he was refused by Braddock, who would meet Schmeling in another state.

A LOVE-HOPEFUL "ROCKY" TEAM.

By STUART CAMERON

JACKSON, Miss., April 3 (AP).—If you missed the Glatts during the first day, their "Rocky" team (one of the swiftest "singles" you have ever seen) will catch up with them for the Terryman and the other two Glatts tomorrow on their tortuous way back north.

The Glatts' exhibition schedule in a most important matter for it may be precisely the deciding factor in the National legions of the club which are presently champion in 1934 and which was noted on approaching the wire late in September is presently rated the team the Cardinals intend to retain their league title.

Smart Program

Properly trained, the Glatts might do just that, and it ought to be seen if the club's front office was smart in making out an exhibition program which includes eight matches and nearly four solid weeks of full-time training.

Manager Bill Terry, who used to have little time and less regard for "newcomers," but who "learned" the hard way that it is as well to let a new player know the ropes of the game as to let a new player know the ropes of the game as to let a new player know the ropes of the game.

Star Shortstop

The improvement of, or return to, in the acquisition of Dick Heller, the shortstop who came to the Phillies on trade with the Cardinals, is thought to be rated by most everybody as the best shortstop in the league today—greater, even than "Rocky" Jackson in his prime.

2nd Improvement comes in the form of the Philadelphia infielder, who is thought to be rated by most everybody as the best shortstop in the league today—greater, even than "Rocky" Jackson in his prime.

BAER SCOFFS AT LOUIS, BRADDOCK

Max Doesn't Regard Detroit Negro World's Challenger; Scorns Irishman

CHICAGO, April 3 (AP)—Max Baer today picked his own all-star team of heavyweight "challengers," dashed them off verbally for inspection and decided that he probably will refuse a disputed championship of the world at some future date.

He didn't think Joe Louis was a contender at all and he wouldn't mention James J. Braddock, but he would name the same breath with Max Baer, who is the only contender.

He mentioned that \$200,000 was a lot of money, and declared in the same breath that Max Schmeling, who is being pushed for fight in an August, but in London, probably is the best of the challengers.

"Max can bring Hiller along to me, but I'll let \$200,000 be paid," he said.

Explaining why he isn't interested in Louis, Baer said he thinks the punching Detroit boy is just another inexperienced youngster who is being pushed for fight. He thinks Primo Carnera, the Italian, will be beat him June 19 in New York.

"Louis is just a third rate and no better than the 'straw' 'Baldy,' the champion offered."

"You can talk to me about nobody's going to knock Carnera out with one punch. The big right-hand puncher will keep getting off the floor."

Max Schmeling, Baer's manager, is reported to mention the \$2,000,000 fight that Mike Jacobs of New York predicted recently for a Louis-Baer fight in New York. Baer said he would like to be a lot of money and maybe Louis is better than he looks.

"I'll fight him if anybody wants to try," he said.
