Regis Toomey Has Role in 'Redhead'

Regis Toomey has been playing debut as a reporter in "AIBH" in his latest contribution he is seen as a "Redhead" in the new production of "Redhead" which is showing last night tonight at Joe's...

Whether it is his good fortune or not, Toomey has been playing similar roles ever since his advent in pictures, but never before did he play a role so fitting of the makeup of these congenial gentlemen of the fourth estate.

"A Scoop" Toomey is on the lookout for news and Ted Brown as well as Dale Carter, is news. But when Ted and Dale get married after sensational stories concerning the activities of a few brought them columns of publicity the news is even more sensational.

"Naughty Marietta" Crowds Increasing Crowds continue to pack the Orpheum theater where "Naughty Marietta" is being presented at all runs. It seems that each day brings more people out to see the show.

"Naughty Marietta" is a smash musical hit, which serves as a tonic for the audience. Together with noted MacDonnell's "The Sign of the Cross" made the Victor Herbert operetta a success for the Orpheum.

The picture is also rich in comedy, with Frank Moran and Lanchester supplying most of the laughs.

"Naughty Marietta" is that it is a musical comedy and a second time it is seen in a great many Twin Falls show-goers have seen it on the Orpheum two and three times, during its present engagement, it will close its run here on the Orpheum Thursday night.

DIZZY, MEDWICK STAGE FEAR-RIOT

Almost Come to Blows as Joe Gets Sarazen or Poor Showing by Dean

By GEORGE KIRKSEY
 NEW YORK, June 5 (U.P.)—Joe Medwick wanted to open a school for pitchers and enroll Dizzy Dean and Dizzy Dean, who strenuously objected and a riot nearly ensued in the St. Louis clubhouse at Pittsburgh yesterday.

Medwick said something to Dizzy Dean about throwing in the towel to the Pirates. Dizzy told Joe to get out of his office and go to the left field. One word led to another. Paul Dean came out to help his brother Dizzy. The crowd series here was on the verge of swapping blows when other players, including Dizzy's brother, Fred, intervened. No damage resulted.

He Was Right

Medwick, who almost started a riot in the world series last fall when he upbraided Marvin Owen, Detroit pitcher, yesterday, said that Joe had a perfect day at bat, four for six, including a triple, while Dizzy was knocked out of the game by a line drive to the right field.

M'NEELY PILOTS LOWLY SENATORS

Owner Takes Over Managerial Reins for Sacramento's Const Outfit

By United Press
 Sacramento, June 5 (U.P.)—The Sacramento Senators, owned by Paul McNeely, owner, president, and general manager of the Sacramento Senators, today announced that he had taken over the managerial reins for the Senators.

McNeely held the managerial post last year, his first as club owner, but during the winter he picked Elwood (Kittie) Wirtz, veteran catcher, to run the team on the field while he kept his eye on the box-office. Apparently the returns in the box-office did not require much attention for McNeely last night announced Wirtz' unexpected release and his own promotion.

The new deal had little effect on the Senators last night for they dropped a 12-4 decision to the San Francisco Seals, who are now in full hot and cry for the post position in the circuit. Sam Gibson won his seventh decision of the year without a defeat in settling the Senators down with seven hits.

Los Angeles won its fifth in a row from Oakland, dropping the mercurial pitcher to five and one-half games out of first rank, only James Michael, Jack McArthur, Vern Michaels, Jackie McArthur, Ira Hagnell, Wesley Butler, James Roberts, Eubank Roberts, Ira Kelt, all of troop 53.

Dick Hearn, most dependable of Seattle's hitters, was fifth in a row by beating Hollywood, 6-2. The defeat dropped the Stars into fourth place. Mike Hunt and Donny Hamman played the 12th-inning home run against Lefty Ed Wells' offerings.

Portland, first team in the circuit to change managers this season, started the new week with a 1-1 victory over the Minors. Red and White, who were in the lead, had two errors coupled with six hits, including a grand slam by the home team.

The turf was in good shape. Bahram, closing in the stretch, drew out from Robin Goodfellow when First Son quit and was fighting for his head crossing the wire. Robin Goodfellow, also closing fast in the final drive, outstayed Field Trial to the wire.

Starting prices were:

THIS IS ESSAY ASKING SQUARE SHAKE FOR SING SING'S HERO

By HENRY M'LEMORE
 NEW YORK, June 5 (U.P.)—This column is written directly to the fans and towards Judge C. B. Bramm and the National Association of Professional Baseball Players of which the honorable Judge is president.

I am writing it because I believe in giving a guy—any guy—a square shake. I imagine the judge would not like to be called a square shake, but because he has served a stretch in Sing Sing, must be called a square shake.

That's what the judge did yesterday, immediately upon his release from Sing Sing, to hire Alabama when he was released from prison on Thursday. The judge, who has served a stretch in Sing Sing, must be called a square shake.

DISASTER MAY BRING HOMESEEKERS

The torrential rains which are visiting much of that section which last year and early this year was tormented by drouth and by dust storms, comes as an unwelcome mockery.

Twenty-five million dollars in property loss, with a toll of nearly 200 lives, raises the occurrence to the proportions of a major disaster, frightful to comprehend.

Those of us who live in more favorable sections find it difficult to understand all the problems arising from too much of any kind of unfavorable weather.

By supplying his own rain, he also overcomes the effects of drouth, and being in an arid land he is free from tornadoes and cyclones.

All the ravages which Nature has visited upon the middlewest should one day result in the removal of a large part of the population to the favored sections of the irrigated west.

This is the possibility which should be nurtured, for such states as Idaho has room for countless thousands of new residents who should carve out their homes free from the dangers and damages of recurring floods and drouth.

THE CONSTITUTION

While the specialists down at Washington probe about among the wreckage of the NRA to see if any of the pieces can be patched up and used again, the rest of us might properly take time out to meditate over the underlying issue which the U. S. Supreme Court's decision brings into prominence.

That issue is nothing less than the question, how far can the original American attitude toward the functions of the central government be preserved in the face of modern conditions?

The confusion of thought which resulted in erection of an NRA framework so unanimously unconstitutional that the court was unanimous in knocking it down comes straight from the fact that we tend to differ from the federal government in a light entirely different from that in which its founders viewed it.

The men who founded the American government represented many schools of thought, but they were close to agreement on one point: they distrusted a strong central government as an enemy of democracy.

Their first attempt to found a government left the several states almost independent. The articles of confederation were too loose. It took only a few years of experience to prove that a tighter union was necessary; but even when the existing constitution was framed, the framers took pains to limit the powers of the federal government, and to reserve all possible rights to the states.

Since then the whole structure of society has changed. In place of a predominantly agricultural nation, in which each community was largely self-sufficient, we got a tremendous complex industrial nation with commercial and financial ties that made every section dependent on all the others.

In the face of that change, there arose a feeling that many problems could be handled properly only by the national government. We long ago discovered, for instance, that railroad regulation would fall left to the states. We seem to be moving toward a similar attitude in regard to public utilities.

In the NRA decision, the supreme court simply reminded us that we have carried this tendency altogether too far.

For while one section of public thought tends to reform more and more on Washington to provide the reforms and the supervision which a complex twentieth century society needs, the fact remains that our basic law is founded on the belief that the central government should do as little of that kind of work as possible.

The problem of the moment, then, is to think the whole matter through with extreme care, determine just how closely we wish to cling to this original theory, find out exactly where modern conditions make necessary a revision of it, and then formulate our future policies on a logical and enduring basis.

SOBBY FOR HOOVER. Can you restore Mr. Hoover coming to Idaho to fish and passing up Wood River and Silver Creek? Somebody suggests the former President. Of course he could not stay up here until after the first opening of the season, but it is safe to say that he could have had more than a five minutes up in mid-high Wood River valley than he would have in a week down along the Snake. Before Paul, has returned to Burley for the summer.
