DEATH PROVISIONS OF UTILITY BILL GAINS IN HOUSE

Check of Members Discloses Favor For Drastic Move Over Mill Plan

ALABAMA RAPS F. D. R.

Declares Roosevelt Violating Party Platform by Stand on Holding Firms

STACY VISIONS GAINS
WASHINGTON, June 28 (UP)—Rep. John E. Stacy, D. Ill., said today that a check of known opinions of house members showed 28 more representatives favoring the "death sentence" provisions than supporting the milder provisions of the bill.

WASHINGTON, June 28 (UP)—Rep. George Huddleston, D., Ala., indirectly charged President Roosevelt with violation of the 1932 Democratic platform in an attack on the "death penalty" clause of the utility control bill.

Huddleston, supporting the regulatory bill reported out by the house interstate commerce committee, charged that a vote for the "death penalty" favored by President Roosevelt was a vote to capitulate the party platform.

JURY AT BURLEY CONVICTS KILLER

Francisco Olages Found Guilty of Second Degree Murder in Father's Death

BURLEY, June 28 (Special)—Francisco Olages, 32, was found guilty of second degree murder of his father, Pete Olages, by a jury today after being given the case yesterday at 8 p. m. Judge T. Lee, who presided over the trial, will probably hand down the sentence tomorrow. It was indicated that Olages was representing attorney.

Olages had been charged with first degree murder, the crime having been committed in December, 1934. Olages, 32, was his own best man yesterday, stating that he had no relatives. He was buried the body of the man, his parent had died of a wound caused by a bullet which hit the heart of the man in the family.

Entire Gang Seized in Raid on Hidden Arsenal

Although you've read the murderous record written by America's criminal gangs, you probably have never seen an entire gang before. The eight men at top comprise the gang, together with an amazing arsenal, at Mountain View, N. J., when police swooped down on their hideout while they slept. Among the two men shown below are the men who were arrested. From left to right are, seated: Frank Fox, John Hughes, Arthur Guy; standing: George Matwald, James Bell, Joseph McClellan, Louis Baine and Ed Giffney. Below are the arms which include revolvers, .38 caliber rifle, a variety of automatics, long-barreled revolver, and deadly .38 Smith pistol.

PROCESSING TAX SUITS PILING UP AGAINST AAA

Wallace Raps Treasury "Raid" Efforts By Packers and Manufacturers

WASHINGTON, June 28 (UP)—A report of court suits seeking recovery from the government of millions in farm product processing taxes is reported today.

Notwithstanding the record of almost daily, the A. A. A. has lost track of the tax cases reported to it in the knowledge of 28 cases had been filed, 17 within the past month. The suits are against the packers for rebates on hog processing taxes.

Wheat Rockets to Maximum Advance

CHICAGO, June 28 (UP)—The grain market, rocketed up 4 1/2 cents a bushel today, within a fraction of the limit for this season's advance as a result of the black market scare over the wheat belt. September will bring the five cent limit. Corn, oats and soybeans advanced 1/4 cent each.

LOTTERY SYSTEM SOUGHT AS STEP TO LIGHTEN TAX

New Jersey Congressman Asks Federal Setup in Hearing. By Sub-Committee SEES BILLION REVENUES

WASHINGTON, June 28 (UP)—Creation of a federal lottery system as a "palatable" method of raising \$1,000,000,000 for federal and state governments was urged today before a special house subcommittee on public debt.

Author of three pending lottery bills, Kenney had worked three years for the opportunity to place his views to a house committee. Many congressmen have viewed the prospect as absurd.

Kenney immediately struck at them by declaring that 70 percent of the members of congress and state legislatures are in favor of another, such as those sold by church aid societies, or other means.

JAPAN STARTING AERIAL PROGRAM

Elaborate Plans Will Aim at Turning Nippon to Land of Avidiators

TOKIO (U.P.)—With an initial expenditure of approximately \$50,000,000 and annual appropriations of \$10,000,000 a year, the Japanese ministry of communications hopes to turn Japan into a nation of fliers and at the same time win world recognition in commercial aviation.

An elaborate program of flight aviation which includes building a new type of airplane, connecting the country of Japan in a definite chain of civilian fliers, and privately owned airlines, because of the importance of the nature of the country, flying is more hazardous than in the United States.

Urges Attention—Invitation is extended by officers of the Ohio society to all former students of the Ohio Wesleyan university to attend the annual picnic meeting at the fairgrounds at Hill, Sunday at 3 p. m.

Breakfast Scheduled—A breakfast at Sunday school class of Mrs. A. D. Bohler will hold a breakfast tomorrow in the home of Mrs. D. M. Freeman.

Two Progress Linked—The civilian effort will be made to improve the air defense.

Program Drafted—The tentative draft of the program that is expected to meet approval at an early date follows:

1. Completion and extension of the national air routes. Reestablishment of existing air routes. Establishment of new air routes for the establishment of local air routes.

2. Opening of regular international air service.

3. Training of crews—1,000 aircraft pilots, 1,000 mechanics, 1,000 maintenance men, 1,000 flight attendants, 1,000 control tower operators.

4. Control and encouragement of airplane manufacturing.

5. Establishment of an air laboratory.

6. Promotion of air industry.

7. Establishment of the wireless equipment for aviation.

TAXY TIP HELPS QUIZ IN MURDER

Story by Cab Driver Results in Wide Search for Man Seen With Victim

(Continued From Page One) ... something between \$1,000 and \$2,000 dollars. This was molar. It was the only evidence supporting a robbery theory.

Had robbery been the motive, he would either be the victim of a holdup or a perpetrator of one. The fact that he habitually carried a dead man's briefcase, which contained a large sum of money, pointed to another motivation.

THOSE ALASKAN "PIONEERS"

Complaints of the Matanuska colonists in Alaska over the lack of facilities so far provided by a generous government fall on deaf pioneer ears here.

All those persons who have endured hardships and privation in the settlement of a new region will have little sympathy for the complaints of those who object to tent life, poor medical facilities, climatic conditions, lack of schools, high prices for food-stuffs and similar criticisms which have a familiar ring to the early residents of this tract.

The complaints themselves are not to be wondered at, but in giving any particular credence to them only harm can result. Americans are given to dissatisfaction with their surroundings — it is a national trait. It may be that some of the colonists should never have been transported to Alaska in the first place. Manifestly this is true, which is unfortunate.

There are at least three British film stars with glass eyes, says movie article. Producers won't have to look far for someone to play the lead role if they ever film "The Ancient Mariner."

ANOTHER TEAPOT DOME

If any appreciable percentage of all the charges against American merchant marine subsidy practices be true, the situation demands review and reform almost as badly as the Teapot Dome mess did.

It is not merely that we have the old familiar charges of dishonesty and inefficiency, not merely that our government's effort to protect the lives of American travelers at sea is reported to have broken down; more than this, we seem to be defeating the very purposes for which the subsidy law was passed.

The whole idea of the subsidy, of course, was to build up our merchant marine. Under the law, government loans are made for ship construction, government moneys are paid to ship operators in the guise of mail contract fees, and government-built ships are sold to private operators far below cost.

This was justified on the theory that it was the best way to build up a merchant marine service which would be of commercial value in peacetime and of great military value in time of war.

PWA CLAIMS BIG RECOVERY BOOST

Direct and Indirect Results Kept Millions Off Relief, Reports Assort

By RICHARD L. HARNESSEN WASHINGTON (UP)—The public works administration has completed two years of recovery activity with the claim for \$500,000,000 construction program had kept 10,000,000 persons off relief rolls.

The recovery program will continue for another two years financed by PWA's unexpended balance of \$766,000,000 in the U. S. treasury and a new \$600,000,000 from the \$4,000,000,000 work-recovery fund.

Administrator Harold L. Ickes, who became a leading member of the New Deal when the 1933 congress empowered him to spend \$3,300,000,000 for construction, organized his organization's two-year accomplishments as follows:

- Direct Jobs
1. Approximately 2,000,000 persons at work on construction sites, not including military "war lines" employment created by purchase of about \$400,000,000 worth of building materials.
2. At least 10,000,000 newly including dependent children, not including military, through public works instead of direct relief.
3. More than 27,000 PWA's 19,000 projects completed or are under construction. Only \$7,500,000 of the original fund remains unallocated.
Schools, Colleges Aided
PWA, as a construction sponsor, spent political subdivisions 70 per cent of a project's cost and made an outright grant of another 10 to 20 per cent. Developments financed covered almost every type of school and municipal improvement project, including:
1. More than \$200,000,000 worth of school, college and library buildings added to the country's education system.
2. PWA financed approximately \$200,000,000 worth of sewer and sewage disposal plants. The Chicago Sanitary District plant, costing PWA \$42,000,000 in loans and grants.
Water Systems
PWA is helping to improve 1,087 water systems to cost \$111,500,000.
3. More than 600 municipal buildings have been constructed, costing \$81,000,000.
4. Hospital projects costing \$72,000,000 are an important part of the program in 293 locations.
PWA acquired political subdivisions to post bonds as security for its loans and after the war to pay more than \$200,000,000 of the securities to set up a permanent, re-vent public works program.
The government has profited by almost \$1,000,000,000 in interest on the bonds. In all, about \$1,000,000,000 of the \$2,000,000,000 will be repaid.

Aids Other Agencies
In addition to the construction program President Roosevelt has authorized \$1,200,000,000 of PWA's money to finance other New Deal agencies, including the Tennessee Valley authority and the civilian conservation corps.
PWA has liberalized its loan and grant policy for the next two years, increasing to 45 per cent the amount of a project which will give to a political subdivision cooperating in its program.

Twilight of Multimillionaires Looming Under New U. S. Tax-The-Rich Proposals

By WILLIS THORNTON (U. S. Service)

WASHINGTON—President Roosevelt's message to congress demanding greatly increased income and inheritance taxes may prove to be the twilight of the multimillionaire and the evening of the avoulee social.

The administration isn't fooling itself. Such taxes don't beg for pay government expenses. But they will be a beginning of the end in the building up of vast fortunes which has been a center-point of American life for 100 years. They will tend to break up those great accumulations of capital as death forces their distribution, and they will tend to prevent building up any more, because with income taxes such as are proposed, it will be difficult to create them.

But with the device of trusteeships to preserve fortunes for incompetent or indifferent heirs, the natural tendency of such proposals has been retarded. Now the tax collector will step in to speed it up again.

Vast Wealth May End
Will there or will another A. W. Mellon's American Republic or Jay Gould or Henry Ford who legislation is passed? Persons of tedious lawsuits over whether A. W. Mellon paid propertied in his estate. Mellon was given just a hint at the legal complications that may attend a trust in the hands of a millionaire. Months of tedious lawsuits over whether A. W. Mellon paid propertied in his estate. S. supreme court's decision in the N. R. A. and subsequent events, are in wide existence today.

Confiscation in Taxes
No one has been able to higher income taxes have yet been definitely proposed, but it is not improbable that in the next year a million dollars a year they will approach confiscation. There were 12,559,931 and paid \$25,845,016 in federal income taxes at a rate of 63 per cent which began at \$10,000. In 1929 there were 513 incomes over a million dollars, receiving more than a billion dollars.

On inheritance taxes, 132 estates were valued in 1933. They were inherited in 1933. Their net taxable worth totaled \$28,000,000. Federal income taxes paid \$20,000,000. Even if the government had 100 per cent of the gain (which nobody proposes), the gain in revenue would not go far toward paying the cost of the war.

PANAMA-TREATY CHANGES HINTED

Admission of "Gyp" by Gold Clause May Bring New Payment Scale

WASHINGTON, June 28 (UP)—Official recognition by the United States that Panama was "squeezed" by this administration's gold clause and dollar revolution, expected in the new general treaty with Panama. Such indications were given by administration officials today. The treaty progressed through final stages of secret negotiation between state department representatives and Panamanian delegates. It was authoritatively hinted that the treaty will set up a "new standard of value" in the payment of the \$250,000 gold annuity payable to Panama under the 1903 treaty for rent of the zone occupied by the Panama canal. These hints indicated that the United States will pay Panama extra devalued paper dollars in lieu of the 250,000 gold dollars of the 1903 annuity, which the treaty stipulated.

BOTH LEAGUES PICK SQUADS FOR ALL-STAR BATTLE

90,000 MAY SEE GAME ON JULY 8

National Chooses Dominated by Giants, Cards; American Is More Even

By GEORGE KIRKSEY
NEW YORK, June 28 (AP)—Battle lines were drawn today for the third annual all-star game between the American and National leagues at Cleveland's municipal stadium July 8.

The 20 players from each league who will participate in the game, expected to draw a crowd of 90,000, have been named by the respective managers. Frankie Frisch of the St. Louis Cardinals and Mickey Cochrane of the Detroit Tigers' selection were made from a composite selection of all the league's managers.

The National league team is top-heavy with players from the New York Giants and St. Louis Cardinals, six being selected from each team. The American league team is more evenly divided, with the New York Yankees and Detroit Tigers placing four each. Every team has at least one player on one of the two squads.

The complete squads with each player's up-to-date batting and pitching record:

NATIONAL LEAGUE
Infield—1B, Collins, Cardinals, 315; Terry, Giants, 327; 2B, Mitchell, Cubs, 278; 3B, Cade, Cardinals, 287; 3B, Martin, Cardinals, 347; 4B, Vaughn, Pirates, 400; Utility, Whitehead, Cardinals, 312.
Outfield—Mielwielk, Cardinals, 308; Joe Moore, Reds, 308; 6B, White, Pirates, 312; OF, Glavin, 306; Berger, Braves, 303.
Pitchers—Harmon, Cardinals, 308; Hartnett, Cubs, 307; Wilson, Phillies, 288.
Pitchers—Dizzy Dean, Cardinals, won 11, lost 5; Schumacher, Giants, won 10, lost 5; Hubbell, Giants, won 9, lost 5; Derringer, Reds, won 9, lost 6; Mungo, Dodgers, won 9, lost 6.

AMERICAN LEAGUE
Infield—1B, Gehrig, Yankees, 309; 2B, Cohn, Tigers, 333; 3B, Meyer, Senators, 341; 3B, Fox, Athletics, 337; 4B, Cronin, Red Sox, 325; Utility, Dickson, Senators, 280.
Outfield—Bob Johnson, Athletics, 266; Vosmik, Indians, 340; Cramer, Athletics, 258; West, Athletics, 285; Chapman, Indians, 204; Simmons, White Sox, 288; Cochran, Tigers, 280.
Pitchers—Harler, Indians, won 12, lost 3; Bridges, Tigers, won 10, lost 4; Howe, Tigers, won 10, lost 4; Grove, Reds, won 6, lost 6; Gomez, Yankees, won 6, lost 8.

Played Last Year Circuit
The National league squad includes 13 players who played in the all-star game at the Polo grounds last year, while the American league list includes 11 players from the 1934 game.

American league heroes in both games, scoring a 9-7 victory last year and a 4-1 triumph in the first game at Comiskey park in 1933.

The probable starting lineup:
National—P, Weaver; C, Gehrig; 1B, Collins; 2B, Dickson; 3B, Fox; 4B, Vaughn; OF, Cronin; MF, Johnson; P, Weaver.
American—P, Harner; C, Mitchell; 1B, Gehrig; 2B, Dickson; 3B, Meyer; 4B, Cronin; MF, Johnson; P, Weaver.

PRIMO DOWN FOR THIRD AND LAST TIME

A punch-dazed, bleeding hulk, lattered to the mat for the third time by the flying fists of Joe Louis, Primo Carnera retires on his huge hands in this picture, the timer's hand rising and falling. A moment later, in this sixth round, Referee Arthur Donovan halted the fight to award it to the Flying Boy. Carnera was a technical knockout. Felled twice by a right cross and a left, the Italian mauler went down for the last time when another left cracked against his blood-matted chin, as 70,000 spectators roared their tribute in Yankee Stadium to the new thunderbolt of the ring.

IRISHMAN SEEKS DON GEORGE GO

O'Mahoney Wants Clear Claim To Mat Over Following Win Over Lombos

BOSTON, June 28 (AP)—Undaunted claim to the world's heavyweight wrestling championship went the fight of Don O'Mahoney, young Irish heavyweight, today. He ended the six-year reign of Jimmy Lingo, veteran Greek, in a one-fall match at Fenway park last night.

O'Mahoney yielded London's big title claims with a flying knee in one hour, 10 minutes, 40 seconds before a crowd of 30,000.

The 22-year-old Irishman's objective was to win the title of George of North Java, N. Y., recognized as champion in several states and Canada.

From the outset O'Mahoney took the offensive with the expert, but for a full did not come until after more than an hour's grappling, and led only to his own American league heroism.

Summoning his reserve strength, Lingo got the jump on his younger opponent and punished him with a series of flying marches, that for a few moments made it look like a full-time contest.

Instead of hurting his opponent over his shoulders as was his custom, Lingo whiplashed the Greek into the ropes. Lando rebounded and O'Mahoney slammed him to the mat with a flying knee.

Four times this was repeated, but the Greek refused to give up. The fifth time, O'Mahoney bore down and with a flying knee, scored for the only fall of the contest.

JOE POISES FOR "THE KILL"

Dreadly fists poised, Joe Louis, a brown thunderbolt, stands tensely waiting behind the battered and bleeding Primo Carnera, down in the sixth round of their battle at Yankee Stadium. A right cross to the jaw toppled the Ambling Ape for the first time in his career, and twice more he crashed before Referee Arthur Donovan halted the fray, to award it to the Detroit bomber on a technical knockout.

YANKS' SLUGGING ADDS TO MARGIN

New York Overwhelms Solons With 19 Hits; Detroit Wins on Homers

NEW YORK, June 28 (AP)—After their biggest batting and scoring day of the season, the New York Yankees today enjoyed a three and a half game lead in the American league.

Driving out 19 hits, the Yankees, back in their own stadium after a long western trip, overpowered the Washington Senators yesterday, 15-5. Every Yankee except Lou Gehrig, who went hitless in four trips, and Arvid Jergens, who didn't come to bat, made at least one hit. Gehrig and Cochrane made three hits apiece. Ben Chapman hit a homer with two men on base and the Sox scored.

Tigers Get Homers
Four home runs helped the Detroit Tigers win the Chicago White Sox, 9-5. Hank Greenberg hit No. 50, and Fox, Cashman and Gotsinger also hit for the circuit.

General Crowder blanked the Philadelphia Athletics, 10-0. Mulo Han hit a homer. Then in the next inning Schoenboy brought him to relieve him on the Sox score.

Driving out five homers, the Philadelphia Athletics defeated the Boston Red Sox, 14-2. Pimly Higgins hit four homers in a double-header in the only National league game last night in Philadelphia. Bob Johnson hit homer No. 100 in the American league.

Markum held the Red Sox to four hits.

Phillies Divide
The seventh-place Philadelphia Phillies and the eighth-place Boston Braves divided a double-header in the only National league game last night in Philadelphia. Five hits as the Braves won the opener, 11-1. Hal Lee made four hits in four innings and scored his 15th homer with the bases loaded.

Johnny Bremer's homer in the ninth gave the Phils the second, 6-0. After trailing 7-0, the Braves rallied. The Sox were checked by Curt Davis' relief pitching.

Leader of Syndicate Offers With Ford Frick; Others Also Negotiate

NEW YORK, June 28 (AP)—Sale of the Boston Braves National league club was believed imminent today following conference between Ford C. Frick, president of the National league, and Charles D. O'Malley, treasurer of the New England Patriots, Boston, and O'Malley's attorney, William B. McCallum.

O'Malley, head of one of three groups known to be interested in purchasing the Braves, left for Boston immediately after the conference, apparently to resume negotiations with Judge Emil Fuchs, Braves' president, and Charles Francis Adams, Boston banker and former Braves owner.

Other groups negotiating for the Braves, or which have indicated interest in acquiring the club, are headed by Joe E. Brown, the movie collector, who will be in Boston Monday, and George Marshall of Washington, D. C., owner of a Boston football team.

PORTLAND BUILDS MURDERERS' ROW

Beavers Acquire Hack Wilson In Move to Form Heavy Hitting Crew

By United Press
Quietly but quickly the Portland club is building up a new "murderers' row" which will be the nightmare of Pacific coast league pitchers in the hot July and August days ahead.

From lead-off man down to the catcher the Beavers will be led by a team of steady 360 hitters when Manager Chalmers Cussler's new army is ready to go.

In the new deal Hack Wilson, colorful outfielder whose career in the National league is one of baseball's best stories, will be the central figure.

Wilson was acquired from the Albany club in the International league on a straight purchase.

He will be flanked in Portland's outfield by Moose Cavanaugh, Harry Rice and Nino Bongiovanni.

The Beavers, without Wilson, turned loose a 14-hit attack on two Los Angeles pitchers last night. The slugging brought them 11-0 victory over the 1935-54 and first hit champions.

The decent dropped the Angels from the National league in one of the best of the season. The Beavers, who won their third in a row from Sacramento, the score was 6-3.

Seattle took the lead in its series with the San Francisco Giants by dropping the Californians, 7-4.

Hollywood finally stopped Oakland but it took old Red Shell, enebek, manager and dean of contempo pitchers, to do it. The number who has spent 20 years in the circuit gave the Oaks six hits in a 5-1 victory.

DIVINING WANDS USED BY POLICE

Radioelectricity, New Help for French Authorities, In Just Old Idea

BY WAVERLEY L. ROOT PARIS (AP)—To the celebrated scientific equipment of the French police has been added a new technique—radioelectricity.

But the new item really is an old one, for radioelectricity is the scientific, up-to-date name given to the manipulation of the forces called by names which certain experts boast they can find underground water or buried treasure.

Other scientists believe that these men were concealing—possibly, even scientists are not taking radioelectricity with a certain amount of skepticism.

BEHOLD the stranger!

A stranger moves to your neighborhood. You observe him tolerantly, but with no immediate display of interest. You are an established resident, getting along very nicely before he came.

But you do not wait for him to reveal himself. Possibly, he may add something to your social and business life. Possibly he will take a highly respected place in the community. He may even become one of your intimates. It is up to him.

So you note his manners, talk with him, and form an opinion. If he comes up to your requirements, you accept him, and often he proves a welcome addition to your group of friends.

It is with exactly the same attitude that the Intelligent newspaper reader regards the advertisements of products new to him. These strangers may add something to his civilized enjoyment. They may contribute to his comfort, safety—even his success. In many ways they may prove valuable. Certainly it is wise to give them careful consideration.

Read the advertisements in this newspaper. They may be the means of introducing you to products that will take important places in your life. And every day they will give you information that enables you to buy intelligently and make your money go farther.

BLUE LAKE CLUB ENTERTAINS GUESTS
Guest day was observed by the Blue Lake Boulevard club Wednesday at the party held at the home of Mrs. B. F. Ruffell with members of the Fall Creek club and the presidents of the Rural Federation of Women's clubs as guests. Fifty-five were present.

Mrs. George Bradley, retiring president, welcomed the guests and introduced her successor, Mrs. J. T. Thompson, who also spoke briefly. Mrs. Lee Smith, Rural Federation president, in her response for the guests, outlined projects for the club to consider during the coming year. The committee in charge, including Mrs. George Overberger, Mrs. A. E. Heena, and Mrs. L. L. Thewlis, presented the program.

Members included two vocal solos by Ruth Miller, accompanied by Mrs. Hingendar, two violin solos by Mrs. J. C. Earhart, accompanied by Mrs. A. E. Franzen, two readings by Lillian Lathen, Mrs. M. C. D. Rutherford, and the cello, and Virginia Keelin and Julia Shepherd, violin, presented orchestra selections.

Each guest was presented possibly bouquets of blue and white, the club colors. The social concert was completed by Mrs. J. C. Earhart, assisted by Mrs. A. C. Rutherford, and Mrs. E. Day, served refreshments.

Because the smart matron has learned to do her own character—note and dignity—with distinguished lines, she claims this frock for her very own. Because the design lends itself so well to a cool, sleek year, we are sure you will, now, she'll want to make it immediately! And these are two excellent reasons for choosing a simple dress whose soft, waiting texture doesn't call undue attention to her neck, shoulders, or hips; whose cool, graceful cape is flattering to the mature figure and whose soft bouillon is just the needed touch! Nothing could be more practical and flattering than a softly draped cape for your style. Complete, dignified Marian Martin new smart frock includes the fabric, requires 4 1/2 yards 36-inch fabric.

STAR OF MOVIES DENIES ROMANCE

Ann Harding, Granted Respite In Court Tangle, Busily Spits Runners

(Copyright, 1935, United Press)
HOLLYWOOD, June 28 (U.P.)—Ann Harding, given a brief respite from a legal row with her former husband, Henry Hammers, yesterday of their seven-year-old daughter, Jane, was busily engaged today another rumor concerning her marital future.

Reports had it that Lieut. Larry Blodgett, a United States navy officer from Seattle, had hoarded a letter to her, and was coming to Hollywood to see Miss Harding.

Goings scouted a romance, but the actress shook her head and said "no, no, a thousand times no."

Mrs. Harding explained that she met Lieut. Blodgett several months ago while returning from Honolulu.

"I do not know him," she said, "I have a right to love him, but I do not."

She said she had never been in contact with him since she returned from Honolulu.

LUTHERAN CHIEF

First change in the presidency of the Missouri Synod of the Lutheran church in 24 years occurred during the denomination's triennial convention at Cleveland, when the Rev. Dr. J. W. Hadden, minister of Houston, Tex., was elected to the post. The Rev. Dr. Frederick Hildebrand of Chicago, president for nearly a quarter of a century, failed of re-election by a narrow margin.

MAY RELIEF LIST DROPS SLIGHTLY

Job of Ending Dole Outlined Clearly with Disclosure Of U. S. Rolls

WASHINGTON, June 28 (U.P.)—The New Deal's task in ending the dole was set at \$4,000,000,000 employment fund was outlined clearly today in the announcement of World Progress Administrator Harry L. Hopkins that 4,101,913 families received government aid in May.

The figure's decline of 3.7 per cent from April, was significant. Work-relief officials announced persons receiving federal help last month would receive first jobs under the new program.

Officials of the relief administration estimated that 20 per cent of the 4,101,913 families, or 820,382 groups, did not have any members able to work.

That left 3,281,531 families that can be made self-supporting if put to work on government-made jobs. Groups classed as "unemployable" because of physical or mental defects will be returned to state, county and local charity.

Translated in terms of persons by figuring four individuals to each group, the 4,101,913 families included 16,407,652 needy men, women and children on May relief rolls.

The consul charged 100 yen (\$40) as such for them. He disappeared June 6.

The Manchukuo government is refusing to recognize the certificates issued by the fugitive consul, it was said.

The issue and the nationality of the consul were suppressed.

MEETING HELD
BY SHAMROCK CLUB
A well-attended meeting of the Shamrock club was held yesterday afternoon at the country home of Mrs. Robert Booth. Seven guests were also present. During the business session plans were made for the club's annual winter soiree to be held at the home of Mrs. A. J. Hoxe July 10. The next meeting of the group will be July 11 at the home of Mrs. Robert Booth. Roll call will be answered with recitations of "My Wedding Day and My Wedding Gown." The program included piano solos by Mrs. M. C. Anderson and Mrs. Irish. The hostess served refreshments.

OREGON FEARFUL OF FOREST FIRES

Dread May Since 1800 May Bring Disasterous Timber Blazes This Year

SALEM, Ore., (U.P.)—Forest fires may streak across Oregon's vast timberlands with unprecedented fury this summer, forestry officials fear.

The dread may since 1800 was recorded this year. To make it worse, spring vegetation—usually a valuable check to the dread forest fires—was months behind schedule after a cold winter.

Foresters—faced by this double danger—were tightening restrictions on timber areas. Many of the areas are "closed" now, which means that all fires started by campers are to be carefully watched, and discipline in some cases strictly prohibited.

FARM COLONISTS FAVOR NEWLAND

Group Protests at 'Red Tape' But Likes Soil, Climate And Prospects

(Editor's note: This is the third dispatch from the United Press correspondent who visited the Sitka valley of Alaska seeking causes of discontent among the 200 mid-western families placed there by the federal government in a "unique colonization project.")

(Copyright, 1935, United Press.)

Despite widespread discontent and discouragement, a majority of the families placed on the Sitka valley farms by the federal government would remain on the 40-acre plots if the New Deal were to abandon its experiment in mass colonization.

The colonists are prepared to go it alone, they told the United Press correspondent, because they are convinced the colonization project has failed in so far as the present situation is concerned, but they are not ready to leave until they have had a chance to try to improve their situation.

Their protests, which have reached congress, are not against the soil, the climate, or the prospective "new ground" to be planted on the colonists were arriving from their midwestern homes, now standing two feet high in Sitka.

They arrived in mid-May and since then only two or three of the 200 needed have been started. Only 50 working days remain before the season drive the families indoors and suspend construction operations until next spring.

Winter will come in October and with it intense suffering among the thousands of people who are organized in the colony management committee.

Some of the settlers believe that the government should have more control of the project. Others recommend that established Alaska agencies be organized to handle the transportation and construction to be faced—late charges on the Alaska railroad and the Alaska road commission, both government agencies.

Officials in charge of the project, advised the arrival of Eugene C. personal representative and "trouble-shooter" for Harry Hopkins, F. E. R. A., administrator, to attention on the confusion.

PEIPING CLASHES PRODUCE CRISIS

International Troops May See Action as Chinese Fight Among Belts

(Copyright, 1935, United Press.)

PEIPING, June 23 (U. P.)—Chinese factions fought for hours today in the city of Peiping, precipitated a situation which threatened possibility of international military action to keep order.

Peiping was placed under a state of alarm, tantamount to martial law, during the fighting, and it was to be reoccupied tonight.

The foreign volunteer corps at Tientsin, 70 miles southeast of the city toward the coast, was alerted by international authorities to stand by for mobilization.

Chinese officials feared an uprising by soldiers opposing Japanese demands for demilitarization of North China.

Japanese army authorities threatened that unless communications were kept open they would execute other Garrisonian soldiers with a view to joint action under the Boxer treaty.

The American joint commission of the 15th United States Infantry, which would be involved if international action were taken, reported that the battle between the Chinese troops was fought at the Yung-tung gate of the ancient city, but, just south of the famous temple of Heaven.

FRIENDS HEAR OF C. C. DAILY DEATH

Funeral Services Held at Los Angeles for Former Local Landowner

Details of the recent death in Los Angeles of Charles Cuffield Daily, 67, retired capitalist and prominent citizen of Hollywood, have been received here by acquaintances of the former local landowner.

He died June 1, and funeral services were conducted June 4 at Los Angeles crematory, according to his sister, Mary Belle Daily-Harrison, 369 West Washington street, Los Angeles.

Mr. Daily succeeded to a heart attack at his home, 4311 Roosevelt avenue, following a return of an aneurism condition which had bothered him for 25 years. He was a former resident of Salt Lake where he was a mining engineer. He owned farms here and at Declo, and made annual trips here.

According to Mrs. Harrison, who is the widow of the late Walter L. Harrison, publisher of the Los Angeles Herald, his interests will be carried on by his son, Dean Cuffield Daily. He is survived also by his wife, Mrs. Virginia Swift Daily. He was the son of Dr. John Wesley Daily, Boston surgeon and inventor of surgical instruments, and the late Mrs. Elizabeth Daily, a prominent citizen in Hollywood club and social circles.

Services Held for Resident of Buckley

BURLEY, June 23 (Special)—Funeral services were held Wednesday afternoon at the Masonic hall in Albion for Mrs. George Kelly, who died Sunday at her home following a short illness.

Rev. Ernest Vines officiated at the service and musical numbers were furnished by a mixed quartet. Flower girls were Yerna Tomelton, Viola Eichelberger, Edith Russell, Ellen Kelley, Francis Chastain and Verna Eichelberger. Interment was made in Albion cemetery in charge of Johnson mortuary.

CHIROPRACTIC TESTS DOISE, June 23 (Special)—The Idaho state chiropractic examining board will convene in the office of the department of law enforcement, state house, Boise, July 12, for the purpose of examining candidates for license. It is announced by Kenneth P. Cook, commissioner of law enforcement.

EASY TO PLAY

"PRETTY WORK, JACK! Think of a beginner like you stepping out and winning himself a nice shiny medal in his very first contest."

"LISTEN, BUDDY! I'll admit I'm good but the director says a lot of the credit belongs to my new Conn. It blows so easy and the valve action is so smooth that I can walk away with music that used to leave me tongue tied."

ALL CONN instruments are easy to play. That's the outstanding feature which makes them first choice of the world's greatest artists. Beginners, too, find they learn music quickly on a Conn and advance to greater heights in musical success. For more than half a century the name Conn has stood for all that's best in band instrument manufacture. The latest Conn is always the last word in playing perfection. Free trial, cash payments cheerfully arranged. Write for literature or full information on the instrument of your choice.

ASKS U. S. AID

Uncle Sam has a chance to make up for the wrong he did Jean Drowner, 45, above, native of San Francisco. Three years after Drowner was jailed in Wisconsin for passing a worthless check, he was proven innocent and freed. France meantime convicted him on a charge of selling bombs and had him arrested. Jean, after being freed from prison, Drowner, stepped on the bomb, and was imprisoned, to prevent his possible extradition and exile to Devil's Island.

NEW DEAL HEADS REJECT DEBATES

WASHINGTON, June 23 (U. P.)—The University of Virginia, founded by Thomas Jefferson, who also founded the Democratic party, reported no progress today in its fight for nationally known New Dealers to defend the Roosevelt administration against a plea of Liberty League speakers.

The university planned with the Liberty League to include a "constitutional round table" in its annual Institute of Public Affairs. Liberty League officials have named its speakers to challenge the New Deal and probably will name two more.

Invitations to defend the administration have been rejected so far by six Roosevelt cabinet members and a dozen others. It was explained at the university that some had other previous engagements.

The population of the world is increasing at the rate of more than 12,000,000 annually.

Oil Well Cementing Company Bans All Applicants Who Took Relief

DUNCAN, Okla., June 23 (U. P.)—The Halliburton Oil Well Cementing company today announced it would not employ anyone who had ever accepted federal relief.

Eric P. Halliburton, president of the company, said he believed that "many persons who would make a good employe would not accept a dose."

The company operates extensively in Texas, California, Kansas and Oklahoma oil fields, and employs approximately 1,000 persons.

"We will not employ anyone who has accepted relief or employment from the relief administration as executives or otherwise," Halliburton's order said.

"If all industry will adopt a similar policy I believe it would break up the government's relief problem," Halliburton added.

NEW CAR CHAIN LETTER LATEST IN DYING CRAZE

The chain letter craze has not been abandoned entirely according to Twin Falls persons who today had received elaborately printed letters on stationery, announcing a New Car Purchase Chain designed to assist individuals in acquiring new automobiles of designated make.

Recipients are asked to send \$1 to a Postoffice garage, which will be credited to the account of the person whose name appears at the top of the list of four numbers on the letter. "In turn you will receive four copies which will give to four of your friends that will keep this chain going," they are advised. "As your name reaches the top you will receive credit for the amount of money turned in on your name on the purchase of a new car (any model or of equivalent in value) less 25 per cent handling charges."

The chain was broken here, said one of the persons receiving a letter which he turned over to The Evening Times.

GOODING CANNERY OPENING JULY 15

GOODING, June 23 (Special)—Milton Notts, manager of the Gooding Canning company, announces that southern Idaho's first modern cannery will start operations about July 15. The concern was organized here four weeks ago with E. B. Hughes as president, E. E. Adams, secretary-treasurer, and Notts, general manager.

The new building, completed a few days ago, is 35 feet wide and 65 feet long with concrete floors and is fully equipped with modern machinery.

When the plant is running at capacity approximately 150 women and seven men will be employed, working in four shifts of six hours each.

Present plans are to can only beans and tomatoes this year. Later it is expected to expand the plant to take care of other vegetables and some fruits.

Practically 60 per cent of the world's air traffic is moved by American transport lines.

GOODING EXPORT VALUES HOLD TO LEVEL

WASHINGTON, June 23 (U. P.)—The value of U. S. exports held at a steady level in the first quarter of 1935 despite a \$33,000,000 drop in raw cotton exports, the Chamber of Commerce of the United States reported today.

Exports were 3 of one per cent below those of 1934. Substantial increases were made in manufactured products, but tobacco and petroleum.

Passenger automobile exports of 47,038 increased 54 per cent. Shipment of 1,221,000 tons of cotton represented a decrease of 33 per cent.
