SOCIAL SECURITY FINANCE SCORED

Investment in Government Securities-Termed Swindle

WASHINGTON, Feb. 10 (AP)—The investment of social security funds in government securities brought a financial committee of Congressmen to the White House yesterday and a Democratic demand that the sum be deleted from the budget.

The accusation came from Representative Gearhardt (R-Cali) and Knobell (D-Minn) at hearings before the House Select Committee on Small Business, of which they are members.

Gearhardt compared the handling of the funds with all insurance companies' taking money from policyholders and spending it "so that [it] would be beauty or elegance," he asserted.

Gearhardt contended that "nothing is more important to the welfare of the nation than the soundness of the social security system."

He urged the cancellation of the trust fund and the return of the money to the states.

FARM PROGRAM BENEFIT SIGHTED

AAA Administrator Promises Early Profits as Reward for Compliance

SPOKANE, Feb. 10 (AP)—Compliance with the federal farm program, it was predicted, will bring early profits to farmers, the AAA administrator said at a press conference yesterday.

"It will take some time to work off the surplus of the 1938 crop, but we are not too far from the time when we can expect early profits," he said.

No section of the country, he said, has as much to gain from the farm program as the Pacific Northwest, he added.

"The communities here are more dependent on agriculture than any other section of the country," he said.

Secretary Wallace stressed the importance of the farm program to the economic welfare of the Northwest.

SCHOOLMAN Urges Stress on Idaho's Wealth of Natural Resources

BONNIE, Feb. 10 (AP)—President Harrison C. Cole of the University of Idaho said yesterday that the university's new president had opened a round-table meeting here to discuss the various means available to the state to develop the Northwest's natural resources.

The discussion is to continue in a series of informal meetings of faculty, students and others interested in the economy of the Northwest.

Secretary Wallace, who is to speak at the opening session of the university's new administration, said the university's chief concern is to "make the Northwest a better place to live."

DANGEROUS SERVICE

by GRACE ELLIOTT TAYLOR

THE CHARACTERS
Peter, Mabel, and an adventurous young Englishman.

Petronella: His sister, and staunch supporter.

Yesterday: Peter and Petrel start the rounds of the newspaper office without success.

Chapter Three: Opportunity.

Petronella: Her mother's last letter.

Deep down she knew that it would happen. As soon as she read the stiffed, self-conscious little articles over which Peter had tried his best, she had known that that, in its scribbled fury, had brushed tears out of her eyes. That Mail letter, crawling across the page, had been taken interest in the country. Father means the trouble in letters, but it always comes back to her.

"What does your father do in Burma?"

"He's the Military Police," answered Peter. "It's just been made public."

That night, help from Petrel.

"From now on we'll be all right."

"Really? Good Lord!"

Humboldt's eyebrows went up in amazement. "Well?" he queried, "your sister didn't make such a noise."

Peter shook hands with him.

"Thank you very much, sir. I'd like the rest of the opportunity. You haven't seen the last of me."

"I hope I haven't, Malone. Sorry about that. I'm glad you're here and good luck." To both of your brother added, smiling at Petronella.

"I think Burmese is going to be great fun."

Then he laughed at his catchline. She left Martin Rawlins, who hoped that they would meet again.

"You're my last chance, party."

He looked eager.

"Dance you have?"

"Yes, but—there's hope."

"I suppose you have?"
