Supreme Court Holds Former  
Membership Not Suf-  
ficient for Eviction of  
Alien; Douglas Seated

(By The Associated Press)  
The supreme court yesterday received William O'Douglas, 40-year-old former socialist commis-  
sioner of agriculture, seated.  
Ruled that former membership in the Communist party was not sufficient cause for deportation of an  
alien.

Upheld the constitutionality of agriculture acts restrictions on marketing of crops, and handed jurisdiction over local concerns manufacturing under contract for a firm dealing in interstate commerce.

(WASHINGTON, April 17) (AP)—In a 6 to 2 decision of far-reaching implications, the supreme court ruled today that an alien could not be deported solely because he once held membership in the Communist party.

The opinion, delivered by Associate Justice Roberts, upheld a ruling by the fifth circuit court of appeals in the case of Joseph Strecken, an Austrian restaurateur who came to the United States.

Its immediate effect was to disbar the deportation of 150,000 aliens by wiping out a construction of the deportation statutes followed by the labor department for many years. The ruling will affect many other cases.

One made available to the public by the CIO on the Pacific coast—a case which has stirred controversy in Congress and figured in the recent campaign—was rejected by Representative Thomas (Pete) J. Tamm to receive house adoption of a resolution for impeachment of Secretary of Labor Frances Perkins.

The labor department delayed a decision on what disposition would be made in the Bridges case, in the interest of justice, until the officials said no action would be taken until after the 7th and given thorough study to the question.

## NEUTRALITY URGED AFTER FDR APPEAL

Demands That America Steer  
Clear of War Sweep  
Over Congress in Wake  
Of Request to Dictators

(By The Associated Press)

WASHINGTON, April 17—A swelling tide of demands that America steer clear of war regardless of what happens in Europe swept over Congress today in the aftermath of President Roosevelt's appeal to Hitler and Mussolini to pledge themselves to peace in Europe.

The administration reported with expressions of pleasure that the president's message to the dictators was developing a world-wide impact.

Word came from Berlin that Hitler would make on April 28 his attitude toward the appeal.

With the arrival in Washington of additional replies from Latin American governments, the western hemisphere has joined the United Nations in supporting the president's appeal.

Editorial writers in Europe and America urged that Roosevelt's request for "impartiality" be accepted.

### Mussolini Spokesman Raps Roosevelt Plea

(By The Associated Press)

MILAN, April 17 (UPI)—Premier Mussolini's newspaper, *Il Popolo d'Italia*, today said President Roosevelt's demand that America stay out of the European conflict had already been rejected by Italy and that the reaction of the national conscience was "anathema."

"We deny the president and right wing," the article said, "that Ethiopia was being invaded and that Ethiopia and the Italian people of government and the mass opinion of the people are not directly interested in as well as because he per-

petrates

and to assume the role of an impartial mediator," the paper said.

The article, which was headed

"Unwillingness of Roosevelt to be an impartial mediator," declared:

"It deserves

a one-line note."

Newspaper circles said that if it were not written by Mussolini himself, it would be "anathema" to Roosevelt.

Popolino declined to comment on the article.

The article said President Roosevelt's appeal evidently was for international cooperation to divert American opinion from "the unemployment which grows day by day."

The paper said his note was unworthy of serious consideration.

"Without Resistance,"

the article said.

Three young fugitives from Justice and their San Francisco high school companions were captured here today by officers who reconstructed a 1,500-mile trail of crime they said was punctuated by an exchange of bulletts with Portland, Ore., police April 13.

The three men, wanted as deserters from the United States army at the Presidio of San Francisco, and their three women

companions were arrested at a

tourist camp on the outskirts of Boise, a few minutes after they drove into this Idaho town.

STATE TARIFF WALLS

The progress of state barriers against other states has long been regarded as one of the chief reasons for the rapid development of our country and its general prosperity. The erection of such walls of economic critics are now saying, may be one of the reasons for our recent economic troubles.

The adoption of these tariffs is usually disguised under "other names," and they are often represented as being for the benefit of consumers, whereas economists say they are nearly always really intended to benefit the producers. State pride, too, plays a part. But the unfortunately neighboring states are frankly as foreign territory and interfere with their commerce primarily with agricultural products, including milk, meat, fruit, butter and margarine, vegetables, and also with commercial vehicles. One of the most striking examples of this tendency was a bill introduced recently in the Arkansas legislature to impose a tax of 25 per cent on all milk, cream, butter and apples from Wisconsin, Iowa, Minnesota and Washington.

In the epidemic of state autonomy permitted to spread much farther, writes Keith Miller in the *Review*, "The economic basis of the Union will be destroyed if the federal government will be forced by popular clamor to take over a wide field of activities within which 'states' rights have been grossly abused."

In many cases the action seems justified when considered only with regard to the immediate circumstances; but obviously the practice becomes misleading and dangerous as it spreads more widely.

## AN ISLAND OF SANITY

This is a time when our people need to be particularly aware of their own history, tracing our ideals. And of all the emotions aroused, "the most important is a great desire for peace and quiet." This is not "this is not another selfish attitude." If the rest of civilization is going to shoot itself to pieces some power must remain to put it together again. That, as Bertrand Russell thinks, may be our job. America should remain an island of peace and sanity in a warring world.

## BLUNT KING ZOG

There is a blunt and realistic streak in the deposed King Zog of Albania, which makes him readily understood by Americans. Looking back from his Greek refuge after flight, he said:

"There are two groups who are disturbing the world—Bitter and Miserable. There are two types of human souls who sleep—Chamberlain and Hitler."

This was very impolite. And it was not strictly true. At the time he spoke the heads of the British and French government had begun, at least, to wake up. But it is possible, as he insists, that the Albanian debacle, which seemed to open the road of the Nazi-Fascist conquest in southeastern Europe, could have been stopped by "one shot" from the British navy.

People's movements have been acting, always just too late, giving the autocrats the advantage of an accomplished fact and a big start.

## PACIFIC AGREEMENT

Many Americans had forgotten about Endebury and Canton Islands in the Pacific Ocean, and the little flurry of excitement last year when both Great Britain and the United States claimed sovereignty over them. They were brought to mind again by announcement of the happy conclusion of negotiations between the two governments.

The agreement provides that "without prejudice to the respective rights of the islands, joint administration shall be established for a fifty-year period and continued indefinitely after that unless the agreement is modified or terminated. The islands will be administered by English and American officials appointed by the respective governments. Details of the regime will be determined by consultation from time to time."

The islands are to be available for communications and for use as airports for international aviation, but only civil aviation and no military bases in this country or in any part of the British Commonwealth of nations may use the islands for scheduled air

services. Any disputes that arise will be settled by arbitration.

The islands are useful only as air bases, a fact that grows in importance. The settlement reached by the governments concerned shows how peaceful, self-respecting nations now handle real estate and other problems.

## IDaho Reduces Traffic's Toll

Fatality List for First Three Months Under Law

DOISE, April 17—Idaho trimmed its traffic accident toll during the first three months of the year by 129 below that of the same period last year.

Fatalities up to April 1 numbered 100 compared with 117 for the first three months of 1938. Harry M. Raynor, law enforcement commissioner, reported today.

Fatalities for March numbered 17, the same month last year.

Fatalities in January and February numbered 30, compared with 33 for the same months of 1938.

Fatalities in Twin Falls included Union Motor, Barnard, Auto Sales, Weller, Firestone, and the 24-hour service station and generally automotive service.

### Twin Falls Youth Honored at Provo

PROVO, Utah, April 17.—Morte G. Duley, son of Mr. and Mrs. Roy E. Duley of Wendell, Idaho, was winner of the Utah-Idaho Junior College Speech tournament last week at Brigham Young university Monday.

Mr. Duley was one of the speakers who gave him a high and unique inspection certificate. Lasting during the past 90 days, they will not need to drive through the lane, officers said.

Offical stations in Twin Falls include Union Motor, Barnard, Auto Sales, Weller, Firestone, and the 24-hour service station and generally automotive service.

### Youths Accepted For Army Duty

Warren G. Duley, son of Mr. and Mrs. Roy E. Duley of Wendell, Idaho, has been accepted for army service.

Sergeant Frank Morris, recruitment officer, said Duley would serve with the 40th Infantry at Fort Douglas, Utah.

The recruits announced last week other vacancies in the U.S. and Hawaii service still exist. The annual vacancies must be filled by April 20.

### Freight Shipments Increasing at Sweet's

Regular freight shipments at Sweet's, average, are increasing daily, statistics and reports show.

Shipments of Alexander Smith roses, unmarked "drop" test tubes, unfinished chairs and plastic chairs. Also included were Simmons Bedding, mattresses, Simmons baby crib.

Outstanding were forty-four Gold Seal roses, eight red roses and four pink lilies which arrived in all new patterns. The Gold Seal has taken a small strike, decline but you can buy them for \$1.50 each.

Mr. and Mrs. Edward Heimers said the Deary Chamber of commerce had donated 10 acres atop the mountain, also known as Potato Hill, for a station. Funds were raised by subscription.

**MOUNT DEARY IN LINE FOR LOCOMOTIVE STATION**

MOSCOW, April 17.—Mount Deary was in line today for a forest lookout station with a commanding view of a wide area.

Edgar H. Klemm, timber editor of the Idaho Statesman, said the Deary chamber of commerce had donated 10 acres atop the mountain, also known as Potato Hill, for a station. Funds were raised by subscription.

## EVERYONE WHO WANTS A NEW CAR SHOULD READ THIS

**Y**OU ARE ENTITLED to know exactly what finance charge you are to pay and exactly what insurance coverage you are to receive when you buy your new car on any Time Payment Plan. To clear up any confusion Commercial Credit Company openly publishes its financing rate, and available insurance coverage on new cars of any make. This company, with more than \$65,000,000 invested capital, makes the following pledge to you:

**Guaranteed Rate - No Hidden Charges**  
If we handle your time payment transaction on your new car of any make, through your local dealer, we guarantee that the financing rate you will pay does not exceed \$6.00 per year per \$100 (\$0 cents per month) on your original unpaid balance plus charge for the insurance you receive, payable in 12 to 18 or more equal monthly installments. Some states require small charge for filing, recording or tax, which is added. This rate is available through acceptable dealers anywhere in the United States. There are no hidden charges for "investigation" or otherwise.

**Your Insurance Protection**  
To protect your investment, you will receive an insurance policy or certificate issued by one of the largest insurance companies, covering loss by fire, actual value; theft; broad form; collision deductible type; and other accidental physical

### Transportation School Problem

BOISE, April 17—Before Idaho would "fix" any area, major improvement and expansion, it must solve the problem of school transportation, C. E. Roberts, assistant state superintendent of public instruction, declared today.

We must have an equalized plan of transportation," Roberts advised.

He said he found on a recently

comprised visit to many counties of the state that there is no consolidation of small districts.

"It is in case you need a good general system of transportation," Roberts said. "The woman has told another to go smilingly with Lydia J. Puskash's Vegetable Garden, and the other to go to the restaurant and thus save in driving more miles." He said the cost of bus fare from Boise to the mountains is \$1.50.

He concluded WELL WORTH TRYING!
