House Votes Approval of \$1,735,000,000 Relief Appropriation

Democrats, Republicans Join to Impose Restrictions on WPA, Three-Man Administration

WASHINGTON, June 17 (Saturday) — At the ragged end of a turbulent 13-hour session the house passed the new relief bill shortly before 1 a. m., today, appropriating \$1,477,000,000 for WPA and, for the first time, telling that much-criticized agency just how it should spend the money.

In addition, the measure included an additional \$238,000,000 for related activities such as those of the national youth administration, the farm security administration running the Civilian Conservation Corps, and the Federal Emergency Administration of Public Works.

The roll call on the final passage was announced as 373 to 21.

To all intents and purposes the measure, revamped and re-revised by the administration, was a long series of rigid restrictions on the expenditure of the money, and ordering the federal theater project abandoned. The bill now goes to the senate.

A large combination of Republicans, voting solidly, and Democrats, led by complete command of the situation, fought against the measure, fighting hard, but finally, to increase the appropriations, to save the federal theater from destruction.

The support they might have expected from the moderates of the membership had been swept away by a series of compromises offered during the day by Chairman Woodrum (D-Va.) and his colleagues of the relations committee in charge of the bill.

These included the \$100,000,000 appropriation for the national youth administration, which the relations committee had recommended, by the bill, to be \$125,000,000. The bill, which the relations committee had recommended, by the bill, to be \$125,000,000. The bill, which the relations committee had recommended, by the bill, to be \$125,000,000.

NEW SPENDING PLAN STUDIED BY PRESIDENT

Chief Executive Considering Enlarged Program for Housing, Highways, Railroads and Farm Tenancy

WASHINGTON, June 16 (AP) — Administration leaders disclosed today that President Roosevelt is considering a new lending-spending program in such fields as housing, highways, railroads, rural electrification and development of farm tenancy problems.

The president himself confirmed this in part today when he said he was studying the idea of a new program involving self-liquidating projects, such as the building of roads and the public debt. He spoke particularly of a federal corporation to buy new railroad equipment and lease it to the railroads. Reports said the initial cost of the program would be \$300,000,000 and \$500,000,000.

Other officials said that other major proposals had been laid before the president by his military and naval staffs. They are:

- 1—Creation of a "federal toll authority" to undertake highways, bridges, tunnels and other works projects considered likely to pay for themselves.
- 2—Stimulating housing construction by (A) increasing the limits of the maximum interest rate on housing mortgages from five to four and one-half per cent to cut the financing cost on private residential construction.
- 3—Liberalizing rural electrification.

All Available Naval Units and Planes Join in Search; Hope of Saving Lives Abandoned

After first demanding Britain release four alleged Chinese sailors of a Japanese submarine, Japanese officials today demanded that the British release four alleged Chinese sailors of a Japanese submarine.

SAIGON, French Indo-China, June 17 (Saturday) — French naval authorities after a prolonged search for the submarine Phoenix, lost with 63 men aboard, announced today there was not a single trace of the underwater craft.

The submarine submerged Thursday morning in the China sea off the Bay of Cam-Ranh, Indo-China, and was scheduled to appear here Friday morning.

The search with all available naval units and French airplanes was continued today. However, virtually all hope of saving the men was abandoned by authorities. It was not known whether the submarine was still in the area.

The sea where the search was carried out had a depth of about 100 meters (328 feet). An immediate naval inquiry was planned, but officers first needed to locate the craft.

PARIS, June 16 (AP) — The 200-ton French submarine Phoenix, which was missing since a routine dive Thursday morning off the coast of Indo-China, was reported to have been sighted by 59 men and the navy ministry announced tonight.

The Phoenix and its crew were feared lost. The dive was made in Cam-Ranh bay, where the mountainous eastern Indo-China drop hard down to the coast making one of the deepest stretches of water in the China sea.

The great depth of the water, coupled with unavailability of proper rescue equipment and failure to locate the craft after nearly two full days of search, left little hope for rescue.

The accident was the fourth in the worst series of submarine tragedies in submarine history. Only 15 days ago, on June 1, the British submarine "Thetis" sank in Liverpool bay with a loss of 99 crew members.

Food Prices Rocket In Blocked Areas

Japanese Call on Chinese to Urge British to Bow to Demands

PEKING, June 17 (Saturday) — The Japanese blockade of the British and French concessions entered the fourth day today with Japanese urging China to bring independent pressure on the British to bow to Japanese demands and the British pressing representations against obstacles to the flow of foodstuffs.

The British foreign office warned in a communique that if "the new demands forwarded from official Japanese sources in north China should be persisted in, then it must be said at once that an extremely serious situation will arise and that the British government will have to consider what immediate and active steps they can take for the protection of British interests in China."

Food prices were skyrocketing; the shortage of milk for children was causing sharp resentment among foreigners; and the British government was reported last night to have been urged by Japanese spokesmen to take immediate steps to ease the situation.

Other developments yesterday included: 1. Japanese military announced cancellation of plans for a parade today in the British concession to graves of Japanese killed in the blockade.

2. Eric Mayell, British cameraman, was released by Japanese military today for taking pictures of the Japanese near the British concessions.

FARLEY SURVEYS CAMPAIGN ISSUES

Democrats' Chairman Aligns Party With Roosevelt Record

NEW YORK, June 16 (AP)—Postmaster General James A. Farley, the Democratic national chairman, today aligned the party with the 1940 presidential campaign on the record of the Roosevelt administration, and added:

"And on this record we shall win x x x."

At the same time, in a speech prepared for a conference of Democratic women from 10 northeastern states he remarked that party leaders "frankly x x x have our eyes on this important factor in the political battle, and that the sectoral vote of these states may well depend upon the measure of your support."

As for the Republican party, Farley asserted it was "approaching an entire national election in the same state of fulfillment which brought about its original defeat."

"It has failed," he went on, "to develop a single leader who has captured the imagination of the public and it has nothing to offer in the way of a program. Those leaders are unable to speak for the people in any hope of success."

"Only recently one eminent Republican the reference was to the Rev. Wendell Phillips, who suggested that the next gentleman to enter the White House should be a Jew."

"The idea got nowhere, but again it served to show that the Jewish Republic confidence of a short while back is fast disappearing."

"There are two errors commonly made by those who speak of the delicate business of forecasting political happenings. The first is that in the Republican party there are forces united than they think, and the second is that the Democrats are far better united than they think."

ACTRESS PARTS WITH HUSBAND

Norma Talmadge, Queen of Silent Films, Announces Separation

HOLLYWOOD, June 16 (AP)—Norma Talmadge, dark-eyed queen of the movies in the days of silent pictures, disclosed last night she and her second husband, Conrad Nagel, had separated, but denied they planned an immediate divorce.

"We both feel," she herself said, "that under the existing circumstances it is better to live apart. Norma's business has been in New York, while my principal interests are here."

"Up to now we have not discussed taking our troubles to court," Jessel, famed as a radio star, manager of ceremonies, singer, and comedian, currently is connected with a concession at the New York World's fair.

Mrs. Talmadge came here with her sister, Constance—also a top-making star of the silent pictures—several days ago. Jessel followed his wife here by airplane tonight. He refused to discuss the separation, but asserted that "whatever Norma says is right."

Mrs. Talmadge married Joseph M. Schenck, producer, who is now the president of the Motion Picture Production Association, in Connecticut, October 20, 1917.

She divorced him at Juarez, Mexico, April 14, 1934, and nine days later married Jessel at Atlantic City, N. J.

It later was disclosed she and Schenck had been estranged for several years.

Harry Brand, representative of a Twentieth Century-Fox studio, said Mrs. Talmadge had been asked to disclose the separation.

He said she gave no reason for it, and had nothing to say regarding divorce plans.

CROP PROSPECTS DEPRESS MARKET

Continuation of Selling at
Chicago Pushes Wheat
Prices Down

By FRANK RULLIN
CHICAGO, June 16 (AP)—Continuation of wheat market selling based on reports of crop prospects, coupled with reports of a possible September delivery, pushed wheat prices to the lowest levels in six weeks.

Losses of around a cent carried July contracts down to 72 cents for the first time since early May. The September contract fell to 71 cents.

Helting sales were in evidence. The bulk of the wheat was purchased by the army for the navy, which helped to check the decline and caused it to close at 72 1/2 cents, lower than yesterday, July 72 1/2 cents, and 72 1/2 cents.

Corn and oats refused to follow wheat, due largely to commercial demand, and closed with net gains. Hel dropped about a cent at one time but then rallied. Corn closed at 51 1/2 cents, higher; oats at 51 1/2 cents, up 1/2 cent; and 51 1/2 cents.

POTATO GROWERS TROPHY OFFERED

Union Pacific Plaque Goes to Producers of 600 Bushels an Acre

To the Idaho potato grower or growers who produce 600 bushels or more of U. S. grade number one potatoes of any variety on one measured acre, in 1939, will go the W. M. Jefferson-Johnson Plaque trophy, an attractive mounted silver plaque, it was announced today by Earle E. Reed, supervisor of agricultural and industrial development of the Union Pacific railroad.

The actual grower and producer will be eligible for the award which will be based on the yield on one measured acre, specific planting time. The official yield will be checked and certified by the local county agent, the secretary of the Union Pacific and one disinterested person selected by the Union Pacific or university will be computed by weight, 60 pounds to the bushel.

In this campaign for the production of better potatoes rather than more potatoes, the Union Pacific will cooperate with the extension service of the University of Idaho. The Union Pacific or university will furnish a harvest record blank to all entries, which must be filled out and returned to the Union Pacific agricultural agent at Boise, Idaho, not later than November 15. Entries must be filed with the local county agent before July 1.

A definite requirement, it is expected that growers in the contest will keep an accurate record of the growing. Pictures will be taken of potato fields during the growing season and at digging time. The contest will be conducted this year in the Idaho potato improvement program being sponsored by the Union Pacific.

SALMON ASSURED OF BUS SERVICE

Federal Approval Received by John L. Schwinn to Extend Line

John L. Schwinn, operator of the Sun Valley Stage, said yesterday that his application to extend his service from Clayton to Salmon had been approved in Washington.

Federal approval of an interstate operator's application for Salmon assured residents of the Salmon and central Idaho country of transportation service to the coast and connections with transcontinental rail and stage lines.

After a year of advertising, 30 to 60 days Schwinn will begin operation from Twin Falls to Salmon.

Because his Salmon to Twin Falls buses will connect with interstate carriers and haul interstate passengers, the interstate rating from Washington was necessary.

His present line, in intrastate, Schwinn said, "at the present time there is no way for persons living in central Idaho to get transportation out."

Schwinn has operated from Twin Falls to Clayton for seven years. He left yesterday afternoon for Michigan to return two new buses.
