LIGHTNING SETS NEW IDAHO FIRES

Storms Follow Rains That Aid in Controlling Forest Blazes

BOISE, July 28 (AP)—New lightning storms scattered fire throughout southwestern Idaho forest areas tonight after rains aided in controlling an outbreak 24 hours earlier.

Boise national forest officials said the electrical disturbance, which spread over their forest, setting at least a half-dozen new blazes.

Yesterday and last night 24 fires were reported in the Boise and Payette national forests but all were quickly controlled.

Rain fell generally over both forests last night with precipitation varying from one inch to 2 1/2 inches at Atlanta in the Boise national forest and 3 1/2 inches at Silver Creek, about on the middle fork of the Payette river in the Payette forest.

PROSECUTORS EYE IDAHO BEER LAWS

Conflicts Found Among Provisions of Three Measures

BOISE, July 28 (AP)—Features of Idaho's new beer laws were cited today by the state's prosecuting attorneys who concluded their annual convention held in conjunction with the state bar session.

Three different statutes, affecting beer distribution were enacted by the 1937 legislature. One was vetoed by the governor but it was published in the Session Laws by the secretary of state on grounds the chief executive's veto was transmitted too late to be effective.

"We are finding there are conflicts among provisions of the three laws," said Donald Anderson of Caldwell, Canyon county prosecutor.

"We attempted to determine on uniform procedure to be used in applying them but arrived at no conclusions."

The attorneys selected their representatives as follows: Anderson, president; Murray Estes of Moscow, vice president; and John Reynolds of Payette, secretary.

The prosecutors failed to reach a conclusion as to the legal method to be used by the counties in distributing the \$1,000,000 in state tax money allotted them by the 1939 legislature but agreed to permit state officials to work out the necessary forms.

They suggested several bills to be introduced to the 1941 legislature. They would require issuing of defense witnesses before trial, revamp the child law so that the person expecting to use that defense would be required to state in advance the child he planned to prove and the witnesses he expected to use, and which would permit officers in fresh pursuit of a suspect to cross state lines to make an arrest.

SUGAR BEET CROP VALUES STRESSED

Idaho Farm Commissioner Points to Advantages of Industry

BOISE, July 28 (AP)—The sugar beet industry is "the backbone of Idaho's western reclamation projects," State Agriculture Commissioner E. L. Patterson asserted today.

"Perhaps this crop contributes more than any other to a complete well-rounded agricultural program, giving summer and winter employment, enabling the farmer to make the largest and best use of surrounding reclamation lands, creating a market for his crop of alfalfa, and giving him a stable cash income year after year," he added in a radio address.

"It is a significant fact that Idaho is devoted to sugar beets in regular rotation with other crops making this state the producer of 85 per cent of all Idaho's sugar," he said.

"Furthermore, every acre of land planted to sugar beets removes one ton from production of some other crop of which we have a surplus."

COURT CONSIDERS DIPLOMA DISPUTE

Nazarene Student's Claim Held Legitimate Subject for Action

CALDWELL, Idaho, July 28 (AP)—Long Harris' efforts to obtain his diploma from the Northwest Nazarene college at Nampa constitute a legitimate subject for a mandamus action in court, District Judge Thomas E. Buckner ruled in a decision rendered today.

Judge Buckner overruled a defense demurrer, motion to quash and writs to restrain enforcement of the petition filed by Harris, a coach at the institution, who sought to compel the school to grant him a diploma.

School officials were given 20 days to file an answer to the complaint and the case then would come up for settlement on its merits.

Harris' retired trustee of the police withheld his diploma because he accused an alumni board member in violation of their orders.

Judge Buckner said he interpreted the "American provision" to indicate Harris had completed the course and complied with the rules and regulations of Northwest Nazarene college and had earned his diploma and degree, adding:

"This resolution is based on the justice attached to the amended petition to the effect that the degree will be granted upon a satisfactory record of service being filed with the defendants, or with the registrar."

BAPTISTS CLASH OVER DEMOCRACY

Italian and German Delegates Take Exception to Briton's Plea

ATLANTA, July 28 (AP)—A British churchman's appeal for Christians to "make safe the religious foundation of a free democracy" brought prompt dissent today from Italian and German-speaking members to the sixth Baptist world conference.

"I cannot for conscience sake make the fate of Christianity dependent upon that of democracy of any other political system," Dr. W. A. Miller, German-born Philadelphia pastor, declared in an unprovoked reply in an address by the Rev. M. E. Andrew of London.

Andrew, former moderator of the federal council of the Free Church of England, described totalitarianism as a "new religion" because it is "not a religion" and said Italy would be "again in Germany, Russia and Italy."

Dr. Miller voiced his dissent after translating a speech by the Rev. Paul Schmidt, Berlin pastor, who said German members to the conference had found "real lack of understanding" in committee.

The Philadelphiaan a summary program, argued that since all political systems are temporal and ultimate break down, he felt "to bind up Christianity with any political system would imply that it, too, could fail."

Dr. Miller charged that in some portions there was free freedom of discussion in this country of the Baptist world alliance than in the 120 nations an alliance.

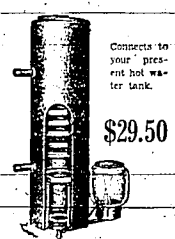

Flanked by these exhortations, Dr. H. H. Rusbrook of London, international president, declared, although he is not a member of democracy because it is not a religion, he has no right to their opinions.

"While we may differ on some points," he concluded, "we can agree upon this: we are all in the Christian faith."
