WORTH A DIME

"WHEN YOU LIKE A CIGARETTE THE WAY I LIKE CAMELS IT'S MIGHTY NICE TO GET MORE PUFFS PER PACK" — says Owen Harding, Veteran Maine Guide

OWEN HARDING, who knows the woods, streams, and portages of his native Maine country like a book, also proves a good guide on cigarette quality, as he shares his favorite brand with Mr. and Mrs. Clifford Stanford, from down in New York City. "Camels are a longer-burning cigarette," Owen says, "and that means more smoking for my money. It means, too, that Camels taste cooler... milder. Puff for puff, Camels put more pleasure in smoking and a big extra measure of it."

Observe the way your cigarette burns. Recent impartial laboratory findings confirm the experience of Camel smokers. Camels are known to burn longer, delivering steadily to smokers more pleasure per puff and more puffs per pack. And all the while you get the mild, ripe goodness of finer, more expensive tobaccos, drawn from the largest treasury of choice tobaccos ever gathered in one place. Camels are the quality cigarette every smoker can afford.

Over-300 Attend Annual Old Settlers' Picnic at Filer

FILER, Aug. 21—More than three hundred Old Settlers gathered at the Twin Falls county fairgrounds at Filer Sunday for their annual no-host picnic dinner and afternoon of priceless recollections of pioneer days on the Twin Falls tract. During the business meeting all officers were re-elected for another term. J. C. Werner, member of the faculty of Albion State Normal school, was guest speaker for the day.

J. L. Barnes of Hansen was re-elected president; Mrs. O. J. Childs of Filer, first vice-president; Mrs. Lucy Stricker of Rock Creek, first vice-president; Frank Johnson, Murrain, second vice-president; Ray Overbaugh of Buhl, third vice-president; Mrs. M. P. Pierce of Berger, fourth vice-president; and J. W. Gager of Castleford, fifth vice-president. Mr. Werner told his audience that the pioneers of this locality made three important contributions to civilization. "The men who dared to bring their families out here and to establish homes here, the world a new outlet, opening up a great expanse of land west of the Mississippi river."

Their second contribution is the democracy which came from living together on an individual owned tract. The relationship between all types of people and their common interest in the land was the basis for just democracy. "And the third gift is a wholesome philosophy of life." He called attention to the fact that pioneering is not over, and added that there are still many needs for young America to explore in the way of agriculture, science, education and politics, as well as other fields. Especially did he emphasize that the field of agriculture is perhaps the most impressive opportunity of today, and that farming intelligently is a task for educated people. Mrs. A. D. Norton was introduced as being the pioneer of longest residence on the Twin Falls tract. She came to Rock Creek in 1834 and now resides in Twin Falls. During the afternoon community singing was conducted by Harry Burt and Miss Mary Overbaugh at the piano. James Reynolds (Continued on Page 10, Column 1)

IN 1932 (last year before repeal) BEER TAXES WERE PRACTICALLY NOTHING!

Don't see Dept. of Law Editors. Surely, beer taxes have increased.

Beer helps even those who do not drink it! To the tune of a million dollars a day nationwide, beer tax revenue reaches back into every community to help pay for relief for the unemployed, for education... and to lift a burden that would otherwise rest directly on the taxpayers.

To this add a million new jobs made by beer; a 100 billion dollar market for beer. How can we keep these benefits... for you and for us?

Brewers of America realize this depends on keeping beer retelling as wholesome as ever itself. They want to help public officials in every community to help pay for relief for the unemployed, for education... and to lift a burden that would otherwise rest directly on the taxpayers.

May we send you a booklet telling of their unusual self-regulation program. Address: United Brewers Industrial Foundation, 19 East 46th Street, New York, N. Y.

OFFICERS NEED TWO WAY RADIO

Mayor Kohler Outlines Aid Equipment Would Give to City Police

Mayor Kohler last night declared that "the Twin Falls police department should have a two-way radio between patrol cars and the station."

This remark came during a discussion on parking meters for four downtown business blocks.

Speaking of the revenue that would come from the meters, the mayor said money would go to the general fund, and that revenue must be budgeted from that fund for such purposes as two-way radio.

The department has been equipped with two-way radio last (Sunday) night, the patrol car officers have received the benefit who request Pettyjohn's services of \$175, the mayor said.

Chief of Police Howard W. Gillette criticized the mayor's statement that the police car was two blocks away from the scene of a robbery, they would have had the call immediately after it reached the station and the robber would have been caught and the robbery.

State police are hoping for early installation of telephones throughout the state, with city and county revenues added to the cost of improving law enforcement.

Willie Willis BANDIT ESCAPES WITH \$175 LOOT

Police Find Buhl Robbery Similar to Local Holdup

Possibility that the armed bandit who Sunday night held up Peatjohn's Drive market at 625 Main avenue east and escaped with \$175 in cash was the same man who pulled a similar holdup at Buhl a month ago was advanced yesterday by Chief of Police Howard W. Gillette.

Gillette said that H. B. Pettyjohn, owner and his son, Bill Pettyjohn, were in the front of the store when the man entered about 8:40 p. m.

After waiting for several customers to leave, the bandit asked Mr. Pettyjohn for a package of cigarettes.

While the merchant opened the cash register, the bandit suddenly yanked out a small blue-steel revolver, probably .22 caliber, and demanded "dash it out."

Mrs. Pettyjohn, who was in the rear of the store, appeared in an effort to see the bandit scoop the money from the counter.

He did not run. He bandit ordered Mr. Pettyjohn and his son to get down on the floor under a counter "if you don't run drill me."

He was from 30 to 35 years of age, five feet five inches tall and weighing about 125 pounds. His complexion was medium dark and he held with a foreign accent.

He wore a dark, dirty cap, a brownish tan shirt, green pants and an above the knee dress coat which was baggy and appeared to be too big for him. It is possible that he contained pin stripes.

Officers expressed the opinion that the man had a partner waiting outside the store near the Buhl school as only a few seconds after the pickup was over, a car's engine was started and the machine went speeding down the street.

(Continued from Page 5) sang "Friend of Mine" and "Iris" Mrs. O. P. Davall of Twin Falls. Mrs. H. Reynolds sang "Iris" and "The Memory of Pioneers" and had passed away during the past two years.

Mrs. John Hayes gave a brief talk relating some of the memories of her childhood and the pioneer experiences of her family, among which was the wedding dinner of her mother the late Mrs. Anna J. Johnson, and how she had to walk nearly a mile to take the wedding cake in the only oven at hand that of a neighbor.

"East comes West" was the topic of an interesting talk given by Mrs. J. H. Weaver, who told of her experience, coming here from Boston with two children, the youngest of whom was only three months old.

The meeting was closed with a musical solo by Miss DeWitt, Fred and Leo Ladd, all of Twin Falls. Mr. and Mrs. John Blasz, who came here from Seattle in 1923, were among the oldest settlers at the picnic. They lived for a time in three room duplex near Snake River where Mr. Blasz mined for gold. This home was very comfortable in the old day, they remarked.

John Day and John Blasz were the only two living who were in the first men to serve on the jury in Twin Falls.

Mr. Day said he was the first to really walk down what is now the main street of Twin Falls, which was nothing but sagebrush then. He carried the chain with which they were surveying the town site. Paul S. Becker, chief engineer for the land and water company, John Hayes and Mr. Kleisner were guests who planned the town of Twin Falls.

At this picnic postoffice was a restaurant. The mall was merely brought in and dumped on the table with the exception of a few chairs used as a mailbox until Mrs. H. O. Hines, president of the postoffice, was introduced by the providing officer, J. L. Harjes.

ANNUAL OUTING FOR GOOD WILL CLUB Annual picnic of the Good Will club was held at the home of Mrs. Frances Carter, a picnic, Sunday at Nat-Soo-Pah.

A picnic dinner was served in the group, and later the majority of the group swam in the natatorium.

Following the afternoon, watermelon was served before the departure for home.

Husband Takes Wife to Asylum

Mrs. Enla Poe Sprague, 31, who was arrested by local police last Friday night, was turned over yesterday to her husband, H. A. Sprague, who said she would be returned to the Oregon state hospital for the insane.

After her arrest Friday, she told police that she had entered six local business houses by use of pass keys. A check of the stores which she claimed the keys opened revealed nothing had been disturbed if she did get in.

Husband and Penelope Ore, told police that he and Penelope had been conducting a fruit-ice business for her and her eight-year-old daughter since they disappeared several days ago. First word as to her whereabouts came after Chief of Police Howard Gillette laid word police in that city to learn if the woman had a past record.

Gray's Elevator at Buhl Only Approved Warehouse in County

Gray's elevator at Buhl is the only approved warehouse in Twin Falls county under the wheat loan program and farmers can secure their wheat loans on the same day the product is delivered at the west end point, according to a statement made yesterday by Waller Reese, chairman of the Twin Falls county agricultural conservation association.

In some counties in the state approved warehouse storage is not available, and it is necessary that farmers have their grain stored for 30 days in adequate farm storage before a loan can be completed.

In the case of warehouse storage, Reese explained, a typical case would be one in which a producer delivered his wheat to a warehouse, receiving a warehouse receipt for it. He must make sure that the receipt is marked "insured" if he expects to obtain a loan.

On the basis of the weights and grades on the warehouse receipt, the producer fills out the loan paper at the county agricultural conservation office. If then may take the paper to an approved lending agency, if there be such in the community, receiving the money on the same day or he may borrow direct from the Commodity Credit corporation.

"Borrowers have the option of securing the loan direct through the Commodity Credit corporation instead of a local lending agency if they so desire," Reese said.

Since harvest began on the 1939 wheat crop, loans totaling more than \$125,000 have been made to

Sheep Men Move On Salt Lake City

SALT LAKE CITY, Aug. 21 (AP)—Leaders of the nation's sheep growing industry were converging on Salt Lake City today for the 24th annual national ram sale, to be conducted tomorrow and Wednesday at the Union stock yard.

Tascoe C. Rich of Burlington, Idaho, president of the National Woolgrowers' association, will preside at a meeting of the executive committee tomorrow night.

J. B. Wilson of McKinley, Wyo., secretary of the Wyoming Woolgrowers' association, and F. R. Marshall of Salt Lake City, national secretary, predicted good prices for tomorrow's auction at which Hampshire and Suffolk rams will be sold. Rambouillet and other breeds will be auctioned Wednesday.

Among other "early arrivals" was Dr. H. C. Gardner of Anacosta, Mont., a leading Hampshire breeder, and Dr. S. W. McClure of Billings, Idaho, founder of the national sale.

Idaho farmers on approximately 250,000 bushels of wheat.

"Indications are that as a result of the satisfaction of growers who had government loans last year many additional wheat farmers will secure loans on their present crop," Reese predicted.
