POISED ON CHAMBERLAIN'S BRINK

We Are Ready, Chamberlain Declares in Ultimatum to Hitler

By J. C. STARK
LONDON, Sept. 2.—(Associated Press.)—Chamberlain, British prime minister, today declared in an ultimatum to Hitler that Britain was ready to go to war in defense of Poland.

"The only hope of escape was for Germany to cease her aggression and withdraw her armies from Poland," Chamberlain declared.

"This was the alternative British prime minister Chamberlain, after Germany in an ultimatum to the British parliament.

He added there was almost no chance of Germany withdrawing her armies from Poland.

Long, bloody war. Neither power showed the slightest sign of wavering.

Secret diplomatic exchanges between Chamberlain and Hitler today disclosed agreement on one common point—that if war should come, it would be a long and bloody one.

The British prime minister warned on Sept. 2, "no peace could be made" than the assumption that the Russian-German pact would prevent the British from aiding Poland if the latter were attacked.

He added that "it would be a dangerous illusion to think that, if war came, it would come to an end even if England and France were to enter the war on one of several fronts on which it would be engaged should have been decided."

Hitler, the following day, wrote, an inimitable war was Germany and Poland. He said that "it was not until 1914 to 1918" that Germany was "tired of being so poor."

Enforcement of New Rules Will Protect School Children

In order to protect the hundreds of students that use school buses, the Twin Falls school district officials and heads of concerns holding transportation contracts adopted a new set of safety rules yesterday.

BERT SWEET, JR. ITALY BANKS AT GERMAN'S CLASH

Decision Announced Against Taking Initiative in Military Moves

By RICHARD G. MASSOCK
ROME, Sept. 1 (AP)—The Italian cabinet today decided it would refrain from taking "any initiative" in military operations growing out of the German-Polish hostilities.

The announcement, issued after a brief cabinet meeting called by Benito Mussolini, was interpreted in foreign circles as meaning that Italy intended to stay out of war.

The government announced that it considered the precautionary measures of a military nature already taken were adequate.

Shortly before the cabinet met, the Italian ambassador in Rome, Philipps, delivered to the Italian government a message from President Hoover.

The message was interpreted as a warning that Italy should refrain from any barmy movements on civilians.

WAR PSYCHOLOGY DOMINATES TRADE

Shares in Leading Corporations Rise; Wheat Soars; Bonds Decline

By CLAUDE A. JAGGER
(Associated Press General Financial Editor)

NEW YORK, Sept. 2 (AP)—War psychology had a violent effect on the nation's sensitive financial and commodity markets today.

Shares in many leading corporations soared, reminiscent of the war-bid market of 1915-17. Wheat prices in all major New American markets bounded up 2 to 6 cents a bushel, the limit permitted in a single day's trading, while sensitive commodities generally experienced the sharpest rise in six years.

Bond Prices Slump
Meanwhile, bond prices sank severely, as investors evidently felt the costs of war might eventually mean an end to the abnormal "cheap money" era, which has pushed prime investments to the highest prices on record.

The share market experienced one of the most sudden turnarounds in its history toward the end of the creation of tandem waves up to the fact that the outbreak of hostilities was not bringing a severe advance, as it did in 1914. It had dropped 41 to 47 during the earlier hours, but offerings were comparatively light.

In the last hour, excited buying appeared in stocks, copper, sugar, electrical, and miscellaneous industries regarded as likely to get war business. Better loans were largely regulated, and several issues shot up 41 to 51 above yesterday's final prices.

Such activity in the speculative commodity markets had not been witnessed since the wave of speculation buying when the dollar was taken off the gold standard in the spring of 1933. It was a sharp jump of 4 of a cent, a point, the limit permitted in a single session. The big copper companies were particularly active, and they advanced their price 4 of a cent, to 10 1/2 cents a pound.

Protective Action
The federal reserve system quickly took steps to protect the market for U. S. government securities. The New York Reserve bank asked dealers to report the details of all transactions in the market.

To prevent "bear" selling or other speculative transactions, the bank was said by dealers to have put orders on the market on a scale order to cushion the decline.

Nevertheless, prices of most treasury issues dipped \$2.50 to \$10 per \$100 bond. This was a smaller decline than last Thursday, however, and they still held at 100 percent over par. Dealings over the stock exchange amounted to \$6,627,200, a relatively small amount for the day.

There was a sharp decline in the "over-the-counter" market, where most of the dealing for some time has been done. The exchange had such a flurry of orders that trading was continued for some time after the closing hour at 3 p. m.

The federal reserve board in Washington officially announced it was prepared to make advances to banks, both members and non-members.

The federal board has been in view of the large cash reserves which most banks have, it was reported that it may not need to make such advances.

It was pointed out the reserve banks are normally large investors in federal bonds, and could increase their holdings by several billions.

Former German Consul Surprised

BOISE, Sept. 2.—Dr. Paul Schuler, of New York, former German consul general at New York City and Chicago, expressed surprise today that Germany's Adolf Hitler had gone "as far as he has."

"I don't believe Hitler would do this," said Dr. Schuler, who was a "vacation at Sun Valley when he learned of German-Polish hostilities."

"Those who have been through the horror of war know what it is," he observed.

"Many of the men and women behind Hitler in Germany are young men, and do not know what it means."

Dr. Schuler related from the German diplomatic service in 1931 when Hitler came to power, he and his wife since have become American citizens.

Values of Sugar Stocks Skyrocket

SAN FRANCISCO, Sept. 2 (AP)—A boom started in the sugar stocks on the San Francisco exchange today as traders eagerly sought speculative extras for news of Europe's war.

Western shares moved lower on the whole, than far favorites on the New York board. Some of the biggest western movers were the Sugar up \$2.50, Lockheed Aircraft up \$4, Atascadero \$2, and California Packing \$2 1/2.

U. S. LAUNCHES BIGGEST BID FOR OCEAN TRADE

One of the two drive shafts for the America. Just enough is exposed for attaching the huge propeller.

NEWPORT NEWS, Va., Sept. 2 (AP)—When Mrs. P. D. Roosevelt "busted the bottle" across the bow of the sleek liner America yesterday and the ship slid down the ways over 45,000 pounds of grease, the United States launched the largest liner this nation has ever built.

This is an event worth celebrating—especially for a country that has lagged so in the race for ocean passenger ships that she had an inferiority complex with steamships.

More 500 Tons
But, the America is only the first of 500 ships the maritime commission will build for private companies in the next 10 years under a program to regain for the nation prestige lost since the 1920s. During the 1910s, the country's swift, square-rigged liners were world-famous. But our reputation evaporated with steamships.

At present the country's largest vessels are the slower ships Manhattan and Washington—each of about 24,000 gross tons and owned by the United States line. The America, which is being built for the same line, will have a gross tonnage of about 30,000.

For Passenger Appeal
"New other luxury liners will be able to match it in passenger-appealing features," says a United States Line official. "It will have air-conditioned public rooms, glass-enclosed promenade decks, glass-enclosed courts, and telephones and showers or baths in nearly all staterooms."

The cost of the ship, \$17,000,000, is so stiff that few private operators would have been interested in building it, without government help. The United States line, the New American, for example, is about the same size as the America, but cost about half as much to build.

There are at least three reasons generally given for the difference in price. They help explain why the government chips in on the bill for the America.

The United States pays its labor more than most foreign countries pay their ship workers. Later, the ship line will pay its sailors more than foreign competitors pay.

Most American railroads make about \$12 a month while most foreign sailors get only \$30.

2. Since the Morris Coast disastert, U. S. law requires that American ships be more thoroughly fireproofed than most countries' ships. The America will have special fireproofing material in all walls.

3. Because the government may want to convert the America to a war ship in case of war, it is making sure the ship is rugged structurally and that its plating is unusually thick.

Thus, with the launching of the America, the government is making it clear that no investor will be higher costs prevent American lines from getting their share of the world's ocean traffic.

PROFIT AND LOSS IN WAR SCANNED

Revival of Old Animosity Increases Germany's Hazard

BY DEWITT MACKENZIE
Associated Press Foreign Affairs Writer

NEW YORK, Sept. 2.—What profit or loss is possible in another European war in any of the European countries?

In the World War everybody paid so heavily for the privilege of rolling the dice that even the winners were losers.

The Carnegie endowment for international peace estimated the direct cost at \$100,000,000,000.

The indirect cost was set at almost as much more.

The number known dead was placed at 9,997,771, and the presumed dead at 2,501,000—making a total of 12,498,771.

This doesn't take into account the millions of wounded.

Kaiser Wilhelm of Germany was one of the losers of the war. Germany lost all those territories she previously had won.

Which Adolf Hitler has been trying (with much success) to restore even his name to power in 1933.

The lands lost include the same Danzig and Polish corridor which he has immediate cause of today's imbroglio.

It is quite the battle the loss of 100,000 dead and the direct cost of \$30,000,000,000.

Naturally Germany doesn't expect to lose war. But we can speculate on the hypothetical query as to what might happen if it did.

Another war coming right on top of the World War might revive the old animosity to such an extent that the Versailles treaty would be restored and even added to.

SOCIETY and CLUBS

'Kids' Have Jolly Party When Royal Neighbors Hold Meeting

Short dresses, a profusion of bows and trills and several dainty aprons, besides lunches in paper sacks, "marched" into the Old Folks hall last evening for a "jolly" party. There were even several little "boys" in knee pants among the crowd of little girls. But everything was as it should be, for members of the Royal Neighbors of America were meeting for their annual hilarious party.

Originally planned for a short business meeting to be held at the hall and then go to the City park for their "school lunch," the members decided to remain in the hall for the entire party. Old Man Weather dropped the thermometer several degrees to make the weather nippy. Following the routine business session, the group adjourned to the banquet room where the Oracle, Mrs. Mable Young, conducted the informal games and contests.

IDAHO HIGHWAYS ON CASH BASIS

State May Not Issue Authorized \$1,000,000 Treasury Notes

BOISE, Sept. 1 (AP)—H. R. Flint, Idaho acting commissioner of public works, expressed belief today the state may not issue \$1,000,000 in treasury notes authorized by the 1939 legislature to provide additional funds for the highway bureau.

"If we can continue functioning as we have been I think we can get by this year all right," Flint said, pointing to a \$158,654 increase in gasoline tax collections so far in 1939 as compared with 1938 collections for the same period.

Collection for the first eight months of this year amounted to \$7,724,466, compared with \$7,622,120 for the same period in 1938. In addition \$20,214 was collected up to Aug. 31, 1939 from the tenth-of-a-cent-a-gallon toll bridge levy.

Flint said available funds in the highway bureau permitted the state to "get well along" with its federal aid highway construction program but would not permit the state to spend as much as usual for non-federal aid projects.

The 1939 legislature authorized borrowing of \$1,000,000 in treasury notes during the year 1939 to provide additional highway bureau funds. Under terms of the law the notes must be issued by Dec. 31, 1939.
