WHEAT QUOTA FOR IDAHO INCREASED

State AAA Committeeman Announces 994,637 Acre Limit

BOISE, May 14.—Idaho will have a 994,637-acre wheat allotment in 1941, Alvin V. McCormack of Lewiston, members of the state agricultural adjustment administration committee, announced today.

The 1941 state allotment is slightly larger than the 1940 quota of 993,700 acres, pointed out McCormack, stockman and wheat grower himself, although a national allotment of 62,000,000 acres is unchanged.

There will be no wheat marketing quota this marketing year. The state acreage will be divided into allotments for each county, McCormack said. "County agricultural conservation committees will make individual farm allotments. Since wheat acreage allotments are based on wheat-growing history over a period of years and allowances are made for production increases, farm allotments may be increased or decreased this year compared with last."

The estimated 1941 wheat supply for the nation of 74,000,000 bushels is approximately 12,000,000 bushels below the marketing quota level of 1,822,000,000 bushels prescribed by the agricultural adjustment act.

Supplies include an estimated 1940 crop of 67,000,000 bushels and a 1941 crop of 7,000,000 bushels. Marketing quota level is set at 125 per cent of the 10-year average domestic consumption of 62,000,000 bushels and 10-year average exports of 65,000,000 bushels.

Marketing and quotas for the coming year have been estimated at 70,000,000 bushels, leaving a July 1, 1940, carryover of 24,000,000 bushels. McCormack said a carryover will assure plenty of wheat for all needs and forecast a surplus during the 1941-42 marketing year.

WELL... I DON'T KNOW

These three words have been some through my hands these past few days. "Executive," "Legislative," "Judicial." Kinda like a head ache, eh? Well, the legislators taught us then that the Executive branch of our Great Government has the right to veto power as its great power; the Legislative branch made all the laws and it was the Judicial branch to tell us whether the laws was in accordance with the Constitution of the United States. Still looks like a wonderful set-up to me yet I hear that lots a folks thinks the whole system oughta be changed. Every body's heard of the double check system to avoid mistakes. Well, according to our constitution we was provided with a triple-checking system, a mighty good plan and one we better keep. Don't look like it'd be a good idea for our Supreme Court to tell our President how to run his business.

Rome Declares Soldiers Carry Secret Weapon

NEW YORK, May 14 (AP)—A death ray machine, small enough to be carried on a soldier's back, is the new German "secret weapon" according to a Rome broadcast intercepted that night by CBS.

An English language newscast from Rome's station 230-0-8 CBS said, quoted the Munich radio as saying the new type weapon "is a kind of atomic ray which soldiers packed on their backs."

First reports said the Belgian fortress of Eben Emael, near Liege, was taken with a mysterious weapon. An NBC official, a Munich news agency, later attributed the capture to parachutists.

These reports, which the Munich radio, can exterminate any living creature in a radius of 1,000 feet, was later asserted.

The German station went on to explain that the substance had been obtained from the splitting of atoms. So means of protecting the secret of the atomic ray, an exterminator has yet been discovered, said the Munich radio.

ROOSEVELT TAFT GAIN DELEGATES

Ohio Pledges Votes for Two Parties' Presidential Candidates

WASHINGTON, May 14.—President Roosevelt and Senator Taft, in a speech made at the Democratic and Republican national conventions today, while West Virginia elected an instructed delegation.

Ohio will send 52 votes in each national convention. Of the 294 delegates chosen so far to the Democratic caucus, 91 are committed by a pledge or an expression of preference to support a third vote. There will be a total of 1,074 votes in the convention.

The Ohio delegates were pledged nominally for Charles Dawes, national committee chairman, but a "corrupt vote" but were bound to support the president if he runs.

470 of the delegates.

Before the Ohio primary Taft had only two delegates from the party, but he has since gained 100 more, and his supporters, claiming instructed support in a number of counties. The Roosevelt campaign has attracted 72 of their 100 delegates.

There were no presidential preference contests in Ohio today, but the CIO tried its political strength in West Virginia and Ohio, the primary advisory candidate in nominating a senatorial candidate in Ohio.

The CIO supported Senator Matthew M. Neely for governor and Judge Harry M. Kilgore for senator. The West Virginia primary, which was held by a feud between "statehood" and "union" factions of the party.

The state organization backed R. Carl Andrews, Democratic chairman, for the gubernatorial nomination and supported former Gov. H. C. Kenna for senator. Andrews, the youthful Bush D. Holt, Holt campaigned independently for re-nomination. State Senator Paul Shahan, a Neely supporter, was a fourth candidate.

In early returns with reports from 21 of 237 precincts, Kump led in the Democratic senatorial race with 139 votes. Holt had 129, Killebrew, 129 and Shahan 115.

Gov. Kenna, 23 precincts have nearly 2,500 and Andrews 2,100.

Senator Planner Tiers.

In Ohio, Herbert S. Blyskal of Cincinnati, who obtained a nomination plan was snubbed under last fall, sought the Democratic senatorial nomination, but was defeated by Tom McCreary. The Democratic incumbent, Vic Donaher, did not seek reelection.

Early returns from 95 of 824 precincts gave McCreary 2,592 votes to 1,428 for Blyskal.

ITALY V. AGITATES AGAINST ALLIES

Mussolini Smiles as Students Burn British, French Flags

ROME, May 14.—New anti-allied demonstrations, capped by the burning of British and French flags on a street in front of the British embassy, heightened apprehensions tonight that Italy might go to war.

Other signs of war fever were seen in but some diplomatic observers expressed anxiety because of student parades in Rome and scores of other cities instigated by Fascist leaders as "war cries."

In the midst of the agitation against the allies, Italy's number two leader, the Conte di Savoia, sailed from Capri for Genoa on Monday night, and they appropriated nearly 2,000,000,000 lire (\$400,000,000) for the extraordinary expenses of the Fascist government.

Some observers said they believed the killing of the Italian Savoia was a sign that Italy would lay out of the war at least two weeks. Others recalled that the Germans went to war last September with the liner Bremen on the high seas.

Premier Mussolini three times refused the salutes of the students from his palazzo Venezia balcony.

France issued a diplomatic protest to the anti-allied campaign while some embassies and legations advised their nationals to avoid Italy if they did not have a real reason to stay.

The American embassy refrained from ordering citizens to refrain from entering Italy, but it notified its citizens in Italy. It continued to advise its citizens to avoid Italy without imperative reasons for leaving to and most of them without valid reasons for remaining are said to have gone.

Most foreign observers believed the purpose of the demonstrations was to aid the German army attack in the low countries and on the western front by warning the French into keeping their forces on the Italian frontier, and the British into keeping their fleet in the Mediterranean.

C. Ozzett of Nampa \$200 paid Ozzett for overtime services when he was president of the Idaho state senate in 1927.
