New Study Urged Of Idaho Field For Reclamation

Twin Falls Convention Strikes at Importation of Power; Governor Counsels Agricultural Preparedness

Crystallizing sentiment frequently expressed throughout its session here yesterday, the Idaho State Reclamation association late in the day went on record urging that the state legislature appropriate a reasonable sum to match federal reclamation bureau funds to enable early investigation of all reclamation possibilities in Idaho.

This action followed an intensive program, which opened with a meeting of the governor's advisory committee Friday afternoon and featured a banquet Saturday night.

Major portions of yesterday's program was devoted to reports by federal engineers and outstanding reclamation men of the state upon reclamation problems and projects of their divisions.

Repeated advice by speakers that the state, to benefit from federal funds should give its share to obtain them, the resolution was presented by the resolution committee, headed by Judge J. B. Howell, Twin Falls, and adopted by the association.

The resolution points out that, as it is often the policy of the federal bureau of reclamation to require investigations through the local units during investigations, and because of an agreement between the governor, commissioner of reclamation, and E. B. Deber, United States bureau of reclamation, the state should be urged to make the appropriation.

Power importation opposed. Other resolutions were adopted in effect, to: (2) oppose importation of power into the state from any other source which would result in the loss of reclamation in Idaho; (3) urge investigation by federal agents of possibilities of federal agency and multiple use of water; (4) urge delegates to national reclamation convention upon the importance of the national reclamation act; (5) urge the appropriation of funds to the federal bureau of reclamation to the amount of not less than \$500,000 per year for the next five years; (6) urge the state reclamation commissioner and the advisory committee to supply estimates of the requirements of projects and to place analytical material on state needs before the federal bureau; (7) commend the forestry, soil conservation service and (Continued on Page 2, Column 3)

California Temblor Takes Toll of Death and Injuries

Heavy Earthquake Jolts Imperial Valley Toppling Buildings at El Centro and in Border Cities

(By The Associated Press)
EL CENTRO Calif., May 18 — At least five persons were killed, scores were injured and widespread property damage was caused by a series of earthquakes which shook the Imperial valley tonight.

In the city of Imperial, apparently the epicenter of the quake, four persons were killed in the collapse of a grocery store on the principal business street, and another was killed at El Centro when a wall of the El Centro hotel at Fifth and Main streets fell across the street.

The known dead in Imperial were: Juanita Bivens, 18, Mrs. Ben Bivens, 21, Rudine Millers, 2, her daughter, "Millie," 5, another daughter, and a man whose name was unidentified.

Walls of the Imperial city hall, which houses the city and police departments, collapsed, but no one was injured. The walls of the old Imperial theater, vacant at the time, also collapsed. Many other buildings were damaged.

Heavy after shocks were continuing in the valley late tonight. At Brawley, 50 "shock bucking" street pavements, wrecked two telephone lines, throughout the area in downtown store buildings. No one was reported injured there.

Telephone lines throughout the Imperial valley were hampered in making an accurate survey of the damage and of damage to life.

More than 100,000 damage was caused by demolition of buildings in that their names be withheld, as did others commenting on the present European situation. Some of the speakers were talking about the war, and some were talking about the peace, and some were talking about the future of the world.

U. S. Generals Criticize Allies
CAMP BEAUREGARD La., May 18 (AP)—Out in the field where 70,000 troops are engaged in a gigantic battle, the generals of the United States army, from the general down to the violation of a new known military code, have all agreed to "fight your enemy, and never underestimate him," was brought out by the general at the conference.

Fight Center Now 90 Miles from Paris

Antwerp Falls As Nazis Press Forward on Two Fronts in Belgium, France

(By The Associated Press)
Germany's warlike of men and machines engulfed Antwerp and was reported by the Nazis to be within 60 miles of Paris last night.

The British and French professed, however, to see some slackening of the unprecedented assault in its ninth day. The indicated German position, widening and deepening simultaneously toward the west and south, puts the invaders roughly midway between Paris, one apparent objective, and the channel ports, ideal bases for direct assaults on England.

The French said the main fighting was in the vicinity of Quierzy and Landreches, about 20 miles from Paris. On the World War the Germans were stopped at the outskirts of the German border.

France Strains Efforts
They submitted a widening of the German-held portion of France and Premier Paul Reynaud told the nation that the situation was "grave."

Reynaud himself took over the ministry of war and national defense, named former Premier Louis Ducloux foreign minister, and named Marshal Henri Petain, 83-year-old World War hero, as vice premier in a general cabinet revision.

Munitions plants went on a 24-hour shift. German planes bombed railway stations and highways in the Paris region. They were driven from the city itself, with one-fourth of its 150,000 residents sought down.

During the five days of heavy fighting which it has seen on the northern front, I have learned how bravely our airmen fought. German tactics have been traditional aerial preparation but have gained the long-sought advantage of substituting attack by air for the ground attack.

The Germans made the initial opening in the pocket by attacking the airfield. They shifted the force of attack to a neighboring sector so quickly that it seemed almost a simultaneous action.

The action opened almost as soon as the front military zone in Belgium and dug their heavy combat trenches behind rocks and wire.

Flocks of 200 to 400 German planes dived and bombed French nests in each sector.

"Last night" they swooped—some 200 miles an hour—to drop a rest of their bombs. They turned and swooped again to machine-gun rest of their bombs.

After the air attack, as many as ten armored divisions of medium tanks were sent into the narrow front, opening fire from their flame-throwers.

The French held the line until motorized infantry rushed to take over the territory.

The crack elite divisions had smashed into one sector, they suddenly were shifted in an effort to maintain the line against another.

The best defense the French brought against the enemy's attacks was individual rifle fire. A staff officer explained that the infantryman in an advanced position had a better chance of using a light rifle which he could swing about to follow the plane than the more cumbersome machine-gun.

Suit Grows Out Of Ditch Dispute

Dispute over an irrigation ditch that crossed one farm to carry water to another farm northwest of Buhl was brought into district court in Twin Falls yesterday.

Owners of 60-acre property, part of which is served by the ditch, I. C. Perkins and his wife, Mrs. Ruth V. Perkins, and L. C. Perkins and his wife, Mrs. Sylvia Della Perkins, sued owners of the adjoining farm, George E. Booth and his wife, Mrs. Caroline V. Booth, and their tenants, C. E. McGuire and his wife, Mrs. Bertha McGuire.

They asked for a decree establishing their right to the ditch right-of-way which they claim to have owned the past 10 years and for an order requiring defendants to reconstruct the ditch and for \$150 damages.

They allege defendants last May 10 plugged in the ditch for a distance of 130 feet and shut off water for a seven-acre field, five acres of which were in alfalfa, two acres having been made ready for planting corn.

Club Women Select 'Federation Lookout' as Scenic Drive Name

Installation of new officers, selection of a name for the scenic drive overlooking Blue Lakes and discussion of plans for the First District Federation of Women's club convention, which opens in Idaho Falls tomorrow, occupied members of the Rural Federation of Women's clubs when they met yesterday afternoon at the Y.W.C.A. room. "Federation Lookout" was selected as the name for the drive after representatives from each club in the federation had submitted their club's choice of a name for the site. Impressive dedication ceremonies will be conducted when the drive is completed.

Mrs. W. A. Poe, who was largely responsible for the success of the drive for funds with which to build the drive, will be in charge of arrangements for the ceremony.

Mrs. Poe, who is retiring president of the club, presided as an installation officer. Mrs. J. D. Barheart was installing marshal.

Officers installed were Mrs. R. E. Common, president; Mrs. Marie Knell, first vice-president; Mrs. W. E. Burti, second vice-president; Mrs. C. J. Jones, secretary; Mrs. G. E. Jones, treasurer and Mrs. P. C. Schiarsch, club chairman.

During the business meeting, the federation voted to give a contribution to the Twin Falls recreation.

Cookery Expert To Visit Here

According to Miss Kay Quimby, who will visit in Twin Falls this week at the Diamond Hardware store, a bride's lack of experience in cooking may be an asset instead of a liability. It is commonly recognized by the Twin Falls women from the Club Aluminum Test Kitchen in Chicago and will be at the Diamond Hardware store this week, beginning Monday and continuing until Friday. She will show how even an inexperienced bride can cook appetizingly with the famous cookware she represents.

"Club Aluminum," explains Miss Quimby, "is arranged easy to follow a few simple rules to find. Experienced cooks sometimes find it difficult to believe that satisfactory results can be accomplished so simply. Therefore, they may continue to follow old habits. An inexperienced bride, on the other hand, has no old cooking habits to unlearn, and is more likely to follow the rules which bring success."

Among 20 applicants for naturalization as United States citizens, 14 were admitted following examinations in district court in Twin Falls Friday, and one found that he already had been naturalized while serving as a member of the United States army during the World War.

The naturalized veteran was George Hinch, Twin Falls sheepman, native of Scotland and a resident of this country since September, 1910. Three applicants were advised to continue studies of American government, and two applications were continued for lack of deposition or affidavits.

Applicants were natives of seven different countries. Five were women.

In the examinations District Judge James W. Porter was assisted by Harold Hovib, of Salt Lake City, naturalization inspector.

Admitted to citizenship following examination yesterday were: Sophie Burman of Twin Falls, native of Sweden and resident of this country since October, 1921; Christian Schmitt, fire farmer, native of Russia and resident of this country since May 1, 1935.

Continued for further study were: laborer, native of England and resident of this country since August, 1927; Frank Cook, huff farmer, native of Czechoslovakia and resident of this country since June, 1924.

Continued for further study were: Mrs. M. E. Rayborn, native of Ireland and resident of this country since August, 1913; Frances Eymund, Paul farmer, native of France and resident of this country since March, 1912.

Continued for further study were: Mary Ellen Slaughter, huff, native of England and resident of this country since May, 1923; Harry Twin Falls warehouseman, native of England and resident of this country since April, 1913.

Mrs. May North, Twin Falls, native of England and resident of this country since October, 1913; Joseph Erickson, Rupert sheep grower, native of Sweden and resident of this country since March, 1913.

Continued for further study were the applications of these three petitioners: Arvanto Corbin, huff sheepman, who came from Beganis, Spain, in June, 1925; Jacob Dewald, Twin Falls laborer, native of Russia and resident of this country since November, 1903; Mrs. Karolina Schmitt of Piler.
