House Lifts Limit on Expansion of Army Air Corps

Roosevelt Announces Broad Plan For Training 50,000 Pilots to Man Warplanes

(By The Associated Press)
WASHINGTON, May 24.—By a vote of 391 to 1, the house today approved an unlimited expansion of the army air corps a few hours after President Roosevelt had announced a broad plan for training 50,000 pilots to man the cockpit of the nation's future fighting planes.

Meanwhile, the senate naval committee reported a top of 10,000 planes upon the navy's air strength, recommending passage of a measure authorizing the expenditure of an estimated \$200,000,000 for the navy air corps and its bases ashore. The maximum was fixed, it was said, so that the navy would have to ask congress for approval when the time comes to exceed that number of fighting units.

CITY POPULATION UP 36 PER CENT

Census Supervisor Announces Twin Falls Count Lists 11,965 Residents

A population of 11,965 is set for Twin Falls, 1940 census figures according to an announcement by District Supervisor George H. Fisher. This represents a 36 per cent gain over the count of 8,787 in 1930.

Despite efforts of the Twin Falls Chamber of Commerce, in cooperation with census officials, to secure a complete count, by providing a central office and assistants in reporting families, the census did not reach preliminary estimates based upon postoffice, water, power and telephone records which placed the potential population between 12,000 and 13,000, with some estimates as high as 14,000.

Contributing to the impression that Twin Falls growth had been greater than that indicated by the census report was the accelerated building program which started early this spring.

Also a factor was the outlying districts which are closely identified with the city, although they were not included in the Twin Falls population census. Inception of an effort to include these sections within the city came too late to comply with the long required 10-day advertisement of the plan, so that Twin Falls was deprived of the population boost of the outlying districts.

Mr. Roosevelt's pilot training program at his regular yearly press conference, in the year beginning July 1, it is contemplated that three months of basic training (Continued on Page 2, Column 3)

He Flees Unseen Horror

British Mass Naval, Air and Land Forces

Roads Guarded Closely Against Invasion by Nazi Germany's Hordes

(By The Associated Press)
LONDON, May 24.—England rolled up the barricades of modern war tonight from her ancient channel ports to the blue Irish sea, forewarned on this bleak empire day by King George VI himself that defeat and invasion by Nazi Germany will bring "the descent of darkness" upon the ruins of Britain's kind of world.

The narrow old roads from the channel's high chalk cliffs inland, which haven't felt the stamp of an invader's boots for nearly nine centuries, were guarded closely, behind a secret massing of heavy naval, air and land forces in strategic spots.

Both Allies and Nazis Try 'Pincer' Moves

THE GERMAN BLITZKRIEG, having scored a rap in 13 days from the English channel, desperate fighting occurred near Boulogne.

Hitler's motorized men, unabated, drove to the entrance of Calais gateway to England, as the Nazis, according to German sources, sought to apply a pincer (claw) move around the allied forces in northern France. German tanks and armor have been spotted near Calais, Dunkerque, France, channel ports. As map shows, Boulogne is only 24 miles from England. London said Germany had crossed the English channel and was moving toward Calais. German sources said that the British were moving west near St. Quentin, attempting to meet allied northern forces near Cambrai and push off while the Nazi western spearhead, Germany's advanced units, were at Nancy, Belgium, were heading west.

Allies Bring Artillery Into Flanders Trap

Play as Reich Tightens Flanders Trap

(By The Associated Press)
Adolf Hitler's motorized men drove through to the English channel at undisclosed points south of Calais. German sources claimed this morning, while at the same time thunderous reverberations from across the channel led Britons to believe their fleet had swung into action against the imminent threat of invasion.

Vibrations from explosions considered too heavy to be the result of air attacks, the rumble of gun fire and the red glow of high-shooting flames reflected in the sea all contributed to the belief the navy was aiding the allied land forces in their attempt to check the Nazi thrust at Calais, only 22 miles from England.

French Armored Units Held Boulogne after a Day of Confusing Reports in which the British at one time said that strategic channel port fell to the Germans during the night. The Germans themselves did not claim capture of the city.

It was not necessary for the Germans to go through Boulogne to get to Calais. The direct route from German-held Arras on the south, shorter. In pushing up Boulogne for the moment, they followed their usual tactics of sweeping around strongly-held positions.

New German Advance

In addition to their coastal gains, other Germans hammered into Ghent, Belgium, and captured Toruay after breaking through the Scheldt river fortifications. This and the northward surge seemed tighter the Nazi vise being clamped on 500,000 to 1,000,000 British, French and Belgian troops pocketed in northern France and Belgium.

ALLIED FORCES FACING DISASTER

German Trap Closing Upon Vast Body of Troops

(By NIKKEL & SIMMONS)
The stark outline of what could become a tremendous allied disaster now draws near by hours. That the allies can break the trap upon perhaps a million soldiers in danger from French and Belgian troops is the only hope that they will be able to escape to Germany to save it from useless slaughter.

The key to the continued situation still is the narrow Cambrai-Peronne gap through which passed the German thrust to the English channel. Was that breach? Partly desperate counter attacks launched from British and French lines, but there is an ominous lack of detail in the French accounts.

French Cut Into German Salient

PARIS, May 24 (AP)—The French army cut into the German salient in the Cambrai-Peronne gap through which passed the German thrust to the English channel. Was that breach? Partly desperate counter attacks launched from British and French lines, but there is an ominous lack of detail in the French accounts.

There can be no question that the allied battle scene in Flanders will be vitally changed in allied favor if optimistic reports from Paris are correct. In the Cambrai-Peronne sectors are captured.

PRECIDENT SPIKES COALITION TALK

Roosevelt Hits Reports While Republicans Charge 'Blundering'

WASHINGTON, May 24 (AP)—President Roosevelt spoke today of a coalition defense cabinet today as Republicans continued to demand that he renounce any third term intention.

The chief executive, whose renunciation by the Democrats if he will take it, became more certain than ever during the day, told his press conference that any idea of a coalition cabinet was "blundering."

He said that any coalition cabinet would be a case of backing up a wrong track.

Republicans attacking their state convention in Vermont accused the president of "blundering," and urged that the task of building up the nation's defenses be given to Republicans.

London Radio New Deal

All M. Landon told reporters at a press conference that he had entered in maximum production methods had been in the "discharge" during the Roosevelt administration and that the president would have to take them out before mass production necessary for defense could be attained.

Senator Taft of Ohio, a candidate for president, said he would not support a coalition cabinet. He said the coalition cabinet would be a case of backing up a wrong track.

Truman Replied

Taft himself was taken to task by C. Truman Jones, a member of the house agriculture committee in an address prepared for delivery to him by a radio broadcast.

Says Taft had accused the administration in a recent speech at a press conference of attempting to divert attention from the war situation to a fight on the new deal record.

President Roosevelt assured majority in the Democratic national convention climbed to 554 of the 1,000 votes.

AAA BROADENS LOAN PROGRAM

Funds Made Available to
Idaho's Barley
Growers

BOISE, May 21 (AP)—Continuation of wheat loans for the third year together with inauguration of a barley loan program was announced today by Idaho farmers today by Milford J. Vaughn, chairman of the state agricultural adjustment administration.

Details of the wheat program are little changed from last year, he added. Both wheat and barley loans will be made by the commodity credit corporation to producers who plant winter acreage allotments.

"Approximately 150,000 acres of barley planted in Idaho in 1939 yielded a crop of 5,032,000 bushels, one-fourth as large as the Idaho wheat crop," Vaughn said.

"Commodity loans will enable Idaho farmers to raise cash on their barley crop, it keeps the crop on the farm where they can feed it to livestock when they pay off their loans. It gives the farmer the barley in under loan, the producers can liquidate the loan and sell at any time."

Loan barley will be stored in approved farm granaries at the following rates: No. 1 at 55 cents a bushel; No. 2-34 cents; No. 3-32 cents; No. 4-29 cents; No. 5-25 cents.

No storage allowance will be made for farm storage. Loans, available until Dec. 31, will be for a 10-month period from the date they are made.

Terminal loan rates for 1940 wheat grown in western states remain the same except for No. 2 red winter, which has been raised 2 cents to 71 cents per bushel at Kansas City. Rates on No. 1 soft white wheat will be 71 cents at Portland, as last year. Local loan rates are based on terminal rates less freight and handling charges," Vaughn said.

Loans on farm-stored wheat will mature 10 months from their respective dates, and warehouse-stored wheat loans will mature for 8 months, but not later than April 30, 1941, he noted.

**Assistant Secretary of War
Cites Lessons of War**

NEW YORK, May 24 (AP)—Assistant Secretary of War Louis Johnson, said last night that the twin dangers of either "standing idly by" or "rushing madly" into war could be avoided by a strong course—the consolidation of "strong and united America."

"So strong on land, sea and in the air, that no hostile nation will dare risk battle with us and so united in spirit and in good will that no internal bickerings will undermine our institutions or loot our possessions," he told the annual meeting of the National Board of Fire Underwriters.

"I tell you because of the war we are free from which the United States could derive guidance:

1. That life to peace, unperpetrated by adequate national defense, is a certain way to invite war. Holland wanted peace. Belgium wanted peace. Denmark wanted peace.

2. That the present war already has jumped the Atlantic ocean. Greenland is America. Denmark, its erstwhile ally, has lost her sovereignty. The Dutch West Indies are in the Western hemisphere. Denmark's own owner, is fighting for his life.

3. That war has a "new technology"—the "rich column" in it. We must be on the alert for any manifestations of un-Americanism in any form. Look only in the United States, but in every one of our American republics."

DWORSHAK RAPS WAR HYSTERIA

Idaho Congressman Calls
for More Efficiency
in Defense

WASHINGTON, May 24 (AP)—Representative Dworshak (R-Idaho) in remarks printed in the Congressional Record said that America needed was a "well-tightening program to moderate and streamline our national defenses which have been so badly neglected despite the expenditure of \$1,000,000,000 by the present administration."

"The Idahoan said hysteria had overwhelmed many well-intentioned Americans who had been given a set of war nerves by 'sensational' headlines of radio broadcasters and extravagant predictions by some eastern newspaper commentators and editors."

"We need less hysteria, now, and more in studying why it is that we have gotten so little in modern fighting equipment for the \$2,000,000,000 the Roosevelt regime has spent for that purpose," Dworshak said. "We need less excitement by attending a staff meeting of the national board of foreign relations, will be in the pulpits the following Sunday, June 2."

WELL... I DON'T KNOW

Looks to me like this country
better start thinking and thinking
very seriously about the effect
of the war on this country. I
don't mean from a economic
standpoint at all, cause, after all,
that's a minor thing compared to
the big issue involved. What
I'm thinking about is the future
of this land of ours as a place
to live in and raise your family.

Strange things is happening these days and we may not be so far removed from trouble as we might think. Sure don't believe in being mainly pessimistic but the way things been going "over there" it makes you wonder what next. We got plenty in this country to do with so let's get going and show the rest of the world we mean business. Right or wrong a body has gotta defend himself against a neighbor so let's get out there the best weapons they is, just in case.

FEDERAL FUNDS**

Payment in Lieu of Taxes
for Twin Falls and
Caldwell

WASHINGTON, May 24 (AP)—C. B. Baldwin, assistant administrator of the farm security administration notified Senator Clark (D.-Idaho) today that payments in lieu of taxes would be made to Idaho school districts at Caldwell and Twin Falls where migratory labor camps are established.

Local officials had reported to Clark the addition of children of the migratory workers had placed an undue burden upon the schools of the two communities and that there was no way of collecting taxes from a federal project the district had to bear the added expense.

Baldwin said it now was possible to make payments to the school districts in lieu of taxes on the migratory camps and arrangements had been made to get the necessary information upon which to base the payments. He added the payments usually were the amount the property would be taxed if privately owned.

DIPLOMAS FOR BURLEY GRADS

Commencement Theme "Fifty Years of Idaho Statehood"

BURLEY, May 24—One hundred forty-seven graduates of the Burley high school received diplomas at commencement exercises honoring "Idaho's Fifty Years of Statehood" Wednesday evening in the high school gymnasium.

Holts Huston spoke on "Fifty Years of Economic Growth," giving the past history of the state and its outlook for the future. Harold Parks told of the 50 years of political growth in the state; Warda Taylor's address was on the culture of Idaho in the past fifty years.

The substitution was Evelyn Shockey and Edna Hecchi, valedictorians.

Professional and recreational were played by the high school band.

Lawrence Gudmundsen, a student body president, presented a plaque in memory of Earl Hodge and Melvin Wheeler, members of the class who died from injuries sustained in an automobile accident recently.

Two members of the class were presented with scholarships from the Colorado Women's college for achievements in leadership, character, scholarship and interest in community service.

Presentations of diploma ceremonies were participated in by Superintendent George Drumm, Mr. W. McLaughlin, J. D. Hinson, president of the school board and Miss Mary Barclay, class advisor. Musical numbers were "Idaho," sang by a mixed quartet composed of seniors and a solo "Nocturne" by Faye Danna Bingham.

The Rev. E. Leslie Holt, pastor of Burley and Rupert Episcopal churches, delivered the benediction sermon to the class Sunday evening in the high school gymnasium.

The class presented a memorial gift to the high school, a check to cover purchase of a new Webster International dictionary for class room, presentation made by Earl Tolboen, class treasurer.

**Gooding Cavalry
Has Annual Ball**

Gooding, May 24—The twelfth annual military ball was held Friday evening, May 17, at the Legion hall. The proceeds are for the Troop A men fund to be used when the boys go to summer camp.

All troop members were in uniform. Sergeant Russell Cecil was in charge of arrangements. Floyd O'Neil and Jack Evans manned the ticket sales and Francis Marfat and Marvin Webb were in charge of the ball decorations.

**Woman Victim of
Wreck Recovering**

BOISE, May 24 (AP)—Mrs. Hazel Morgan of Boise was reported recovering at St. Luke's Episcopal hospital here tonight of injuries received in an accident in which her husband, John H. Morgan, 60, was killed two and a half miles south of Hagerman.

Morgan was a Boise furnace mechanic.

Mrs. Morgan, who was buried clear of the wreckage, climbed an embankment over which the automobile fell to attempt aid, and also believed the accident resulted from a tire blowout.

Mr. Myrtle Matthews, a daughter of the Morgans, resides in Boise.

JUST-KIDS

POSTON, May 24 (AP) — Former President Herbert Hoover declared tonight that "there in America is the source of making the system of life vital to men" and maintained that this country had the duty of repudiating the "failures and of constantly rebuilding it."

"There are grave days for the future of civilization and for our own people," Hoover said in a speech prepared for the annual meeting of the boys' clubs of America, an organization to which he serves as chairman of its board of trustees.

"Our youth," Hoover declared, "are distracted by the infinite life which swirls day by day. The nations independent of America are threatened by the possibility of being murdered first by indignation. That women and children should be ruthlessly slaughtered is a crime against the world."

This nation's former chief executive said that the work of the boys' club—that of "giving a jolly life to life in the pavement boy," as he called it—was to "insure that 'our stern duty to the world' on the one hand and 'our duty to the individual' on the other, are not in conflict."

Hoover said that the boys' club endeavor in this democracy "is to give the young a sense of the aim of living."

"But," he added, "it will be a sign of degeneration when we as private citizens shall surrender character building to the state; that is not the place where personality and character can ever be built."

PACIFIC COAST MEET FEATURES MILE RACE

Idahoan One of Four Stars in Track Headliner

USC and Stanford Dominate Qualifying Tests

By ROBERT MYERS
LOS ANGELES, May 24 (AP)—The decks were cleared late today for the finals of the Pacific Coast conference track and field championships after spectators and handlers loitered through qualifying rounds in performances hardly as warm as the weather.

As expected, the University of Southern California, seeking its fifth straight conference crown, and Stanford University dominated today's heats. Neither lost a man, and placed seven athletes in the final tomorrow.

The lead-off race tomorrow, the mile, commands national attention. No fewer than four runners who have done a minute 15 seconds and better will look up the track. USC's Blaine Franklin, who broke the record for the mile in the Pacific Coast division last Saturday.

Rigney Stops Tigers, 2 to 1, for Chicago's Fifth Straight Victory

CHICAGO, May 24 (AP)—John Rigney, Chicago's star pitcher, today won his fifth straight victory, leading the White Sox to a 2-1 victory over the Detroit Tigers.

Tommy Bridges and Joan Gorman, Chicago's star outfielders, today walked and two singles produced the victory.

Bridges yielded a single to Bob Kennedy in the fourth, then walked Ed Applegate and Mike Krevich. Larry Leonard followed with a single, scoring Kennedy and Krevich.

Detroit's only run off Rigney came in the sixth inning. Charlie Gehring doubled and scored on Hank Greenberg's two-bagger.

Neither Bridges nor Rigney allowed a hit until the fourth.

Chicago's lineup today was: Rigney, p; Bridges, 1b; Leonard, 2b; Kennedy, 3b; Applegate, 4b; Krevich, 5b; Gehring, 6b; Greenberg, 7b; Gorman, 8b; Smith, 9b.

Welter Champ Wins in Fifth

Armstrong Flattens 'Ripper' Zannelli at Boston

BOSTON, May 24 (AP)—Hammering Henry Armstrong successfully defended his world welterweight title tonight for the 17th time with a fifth-round technical knockout over Ralph (Ripper) Zannelli of Philadelphia, R.I., in a scheduled 15-round bout at the Boston garden. Zannelli was knocked down four times.

The 34-year-old Negro fighter, who weighed 140 1/2 pounds less than his Rhode Island rival, demonstrated his wide superiority as soon as the opening round got under way. He was jarred several times by Zannelli's wide and hard rights but every time he was stung, he answered by beating his opponent about the head in unmerciful fashion.

Zannelli dropped for the first time under a heavy barrage of hooks to the head in the second round. He found the chance to slip, but he was stopped twice in the fifth round before referee Johnny Martin intervened after a minute and a half of one-sided action.

Craig Wood Sets New Golf Marks

'Blond Bomber' Leads Field in Metropolitan Open Championship

BLOOMFIELD, N.J., May 24 (AP)—Rebounding from a disappointing performance a week ago in the Goodall round robin, Craig Wood of Mamaroneck, N.Y., today broke every record in sight to lead the field through the first round of the Metropolitan Open golf championship.

The "blond bomber" who was runner-up in the national open last summer, showed six strokes off the par of 72 in the first round of the Metropolitan Open.

Wood's record-breaking performance was aided by a "hot" morning at the club course, where he was alone with a round of 33-41.
