Circulation of Jubilee Coin Begins Monday; Pageant Progresses

Wooden money in the Magic City Jubilee will appear in Twin Falls this afternoon and will be in general circulation during the pre-Jubilee period, according to William McGee, who is in charge of this phase of the celebration.

The wooden nickel, printed on the waters of wood, will be issued in denominations of one, two and five nickels. Many inquiries have already been received by the committee as to when the coins will be ready in many quantities and some to kind-of-coin friends and former collectors. The money is redeemable at face value at any time and is "spendable" in any store in the city up to July 3 at 3 p. m. It was printed out.

Also announced last evening was the rehearsal schedule for the Jubilee historical pageant. The pageant will be given on the nights of July 4, 5 and 6. In preparation for the Magic City pageant, the following rehearsals have been scheduled:

Monday, 10 a. m., all Comp Pipe Bands and drum corps; 1:30 p. m., all drum corps and dancers; 7:30 p. m., Virginia reel and dances and train rehearsal; Tuesday, 10 a. m., all live shows; 7:30 p. m., all pioneer group; Oregon trail group.

To the mammoth cast for the spectacle have been added 16 couples for the local order of Debutantes of Uah Pioneers, according to F. P. Graham, pageant director.

Veteran Stresses Loyalty to Flag

HANSEN, June 15—Speaking on "The Ideals of Liberty and Democracy," R. W. Weller, Twin Falls, past Idaho department commander of the Disabled American Veterans, addressed about 60 persons who gathered at the Hansen village park in celebration of Flag day, Friday evening.

The address was preceded by a 7 o'clock basket luncheon, sponsored by Sherman circle, Ladies of the G.A.R. and Mrs. T. E. Galley, patriotic instructor in civics.

Mr. Weller emphasized the need for loyalty to the flag, which he said, stands for liberty, equality, justice and above all, freedom.

"We have accepted these standards as the emblem of our United States of America and should defend her to the last man, against those who are called our enemies in what is termed the fifth column," he went on.

"Old countries to raise up in arms against any aggression shown to that banner which is made up of the white, for purity, red for the blood of our nation and blue for the very heavens that arch above us."

In conclusion Mr. Weller repeated words from "The Flag Speaks":

Warren Robinson, Clarence Hambley, Bobbie Stimmler, and Joe Anderson, four students of the Hansen school orchestra, gave two horn number 3 group arrangements of the Spangled Banner and God Bless America closed the program.

Other guests present were Mrs. W. W. Weller and family, Mrs. Mr. and Mrs. T. C. Weller and Mr. and Mrs. Molline, Twin Falls.

FAMED SUMMER THEATER OPENS

Footlights Soon to Glow Again in Denver's Old Playhouse

DENVER, June 15 (AP)—Just a few steps away from where a dance band plays tunes of the times, the footlights soon will glow again in the Elitch's Gardens theater, one of the oldest summer playhouses in the country.

Closely by, small cabinet rifles crackle at the shooting gallery, where screams and girls squeal on the roller coaster and calypso music thunders forth from the merry-go-round.

And these cheerful noises of a typical American amusement park, Elitch's theater will open its 4th season June 22. Many of the greatest stars of the stage have played at make-believe in this rambling old showhouse in the mile-high mountain capital.

They have left behind their photographs to be hung in the arena foyer, those halls now are ready to be occupied by the new stars.

Miss Williams will leave this morning for two weeks' vacation at Creston, where she will visit friends and relatives.

All Drive Funds Used for Relief

While late yesterday to confer with Mayor Joe Koehler, chairman of the Red Cross in Idaho, offered data to show that the claim is unfounded that administrative costs will consume a portion of the war relief money.

Pointing out that the Red Cross has only 425 post employees in the nation, he added that the general overhead for 10 years has been only 2 1/2 per cent.

"Not one cent of war relief funds goes for administrative purposes, which are also provided for under the general fund," he declared.

According to Mayor Koehler, the local drive has now raised \$200,000 which is about more than half of the original goal. Donations may be made at both Twin Falls banks at the New State office and at the Red Cross.

NAVAL MEN SEE NEW NAZI THREAT

Germans Might Challenge British Sea Power With Aid of French Fleet

WASHINGTON, June 15 (AP)—Early developments of the European war suggested to naval men today the possibility that the Berlin-Rome alliance might be able directly to challenge Great Britain's sea power by gaining possession of the French fleet.

On Capitol Hill also, Senator Norrbis (Ind., Neb.) expressed belief that if the French armies capitulated to the Germans, the Nazis might make surrender of the French fleet a part of the peace terms.

Combined German, Italian and French warships would outnumber the British navy in battleships and in categories other than aircraft carriers and cruisers.

The coalition would be stronger than the United States fleet in similar respects.

A future coalition against the United States has been suggested to congress as a possibility by naval men, especially in recent years, though the French fleet did not figure in the calculations as a possible foe.

The French fleet is rated as the world's fourth in strength, trailing only Britain, the United States and Japan.

A military expert was reported to have suggested to the senate naval affairs committee today that before the European war ends the American people may be faced with the question whether they should equip United States naval bases for use by the British fleet.

There has been speculation in some quarters that if England were successfully invaded, the British fleet might continue the fight from bases in Canada.

It is pointed out, however, as a matter of comparison with what would be needed by the fleet.

Many senators have said that the United States' security from invasion depends in large measure on preservation of the British fleet in the Atlantic, since the American fleet is not considered capable of defending the continent from attack on both oceans at the same time.

CHICAGO, June 15 (AP)—Rookie Herb Hash mowed the Chicago White Sox down with four hits today to give the Boston Red Sox a 5 to 2 victory and their second straight decision of the series.

A streak of wildness in the fourth inning rolled the young right-hander of a shunt. In this frame he walked three batters and then struck a single. After that, which brought in the Sox only two runners. In the last five innings Hash allowed no hits and walked only one batter.

The Red Sox went ahead in the second inning on Jimmy Fox's home run, his 15th of the season and seventh of the year against the White Sox. Another homer by Ted Williams doubled Boston's lead in the fourth, but Hash's wildness led the score before the inning was completed.

Boston, however, wasted no time putting ahead again. In the fifth Bobby Doerr singled and scored on Roger Connor's triple. Ted Cronin scored on Lou Pinney's long fly. The leaders added their final run in the sixth on a sacrifice by Williams and Manager Joe Cronin's double.

It surprised Brenda to find that old Mr. Hopkins was not elderly. He was on the sunny side of fifty, as a matter of fact.

"Must be the son of his oldest brother," Brenda murmured.

"Brenda, could you, feeling better at a disadvantage, be brought out to the table by one of the waiters, Mr. Hopkins blinked.

Commerce department experts today said two-thirds of the French coal output before the Nazis moved in was in the occupied areas. This was said to be the truest of 25 per cent of its pig iron and 10 per cent of its crude steel.

Authorities here predicted to be of great interest to the demoralization of France's automobile and airplane industries.

However, since many of the plants used to be around Paris, substantial losses of productive capacity in these industries also was assumed.

POSTAL WORKERS FIGHT WAGE CUT

Four Organizations Elect Officers at Nampa Conventions

NAMPA, Idaho, June 15 (AP)—Idaho state federated postal employees opposed in a resolution any reduction in wages paid federal employees and elected officers at their annual convention closed tonight.

The resolution, presented to the state's congressional delegation, expressed disapproval of a bill to reduce the appropriation for federal salaries, on the grounds any such would be reflected in lessened private purchasing power.

Four organizations, postal clerks, postal carriers and the auxiliary of each, took part in the convention. Peter Jensen of Pocatello was elected president of the postal clerks; Clyde Ross of Twin Falls, vice president; Clyde Farnham of Lewiston, secretary-treasurer and E. H. Billick of Nampa, delegate to the 1941 convention at St. Louis.

JAMES HILL of Boise heads the postal clerks; Ed Raymond of Sandpoint is vice president and Joe Waters of Idaho Falls is secretary-treasurer. Officers chosen by the clerks' auxiliary are: Mrs. Gelia Billick of Nampa, president; Mrs. Clyde Ross of Twin Falls, vice president and Mrs. C. V. White of Boise, secretary-treasurer.

Mrs. Nova Wendrich of Boise was elected president of the carriers' auxiliary; Mrs. Cora Stroud of Nampa, vice president and Mrs. J. A. Fanning of Idaho Falls, secretary-treasurer.

NEW SUBDIVISION OPENS NEAR CITY

Harry Musgrave Announces Plans for 10-Acre Tract on Kimberly Road

Evidence of steady development of Twin Falls and vicinity is evidenced by Harry Musgrave, Twin Falls furniture, hardware and implement dealer, of opening of a new 10-acre subdivision a half mile from the city limits on the Kimberly road.

Sixty of the original 12 acre tract, owned by W. C. Hinnond will be known as Musgrave subdivision. The purchase of the 10 acres was made about a year ago, and since that time the survey has been made by Harold Merrill, local engineer.

Roads will soon be graded by the Twin Falls highway district leading to the subdivision on the south side of the road, and access, as well as building lots, will be sold.

Two acres of the highway frontage have been sold to the United Oil company and construction has already started on headquarters for the company, of which N. J. Baumgardner and A. E. White are owners and managers. They have just completed service station units in Lewiston, Gooding and Jerome and plan to erect two homes in the new subdivision as soon as business structures are completed.

Two of the original 12 acre tract have been purchased by Fred Reed for construction of a home and permanent works, according to Harry Musgrave.

Typical of traffic crossing the bridge was a 16-hour truck from 8 a. m. to 10 p. m. last Sunday, June 9, when 1,022 vehicles traveled over the span. Of these, 1,202 crossed between 2 p. m. and 10 p. m.

A head-down of these counts shows the following increases, with the travel listed for average daily 24-hour periods. The figures listed

Report Shows Vast Increase in Travel Over Rim-to-Rim Bridge

Vast increase in travel over the Twin Falls Jerome highway bridge as a direct result of removal of tolls last April 29 following state purchase is recorded in a report received by the Twin Falls News from the state department of public works through the office of Governor C. A. Bottelstein.

Average daily traffic over the rim-to-rim span across the Snake river for the year-count period ending in 1927 was 411 vehicles, while at present the daily average is 1,245 vehicles, or an increase of 302 per cent.

Second House in Carey Destroyed

CAREY, June 15—The home of Mr. and Mrs. Charles Brown on Little Wood river was completely destroyed by fire last Wednesday afternoon about five o'clock. The fire of undetermined origin had

burned southward that it was impossible to save either clothes or home furnishings. The family car sitting near the front gate at the side of the road caught fire and was badly damaged before it could be moved away. Loss of the building was partly covered by insurance.

The Brown residence was the second oldest house built in this valley and was formerly the home of Mr. and Mrs. James Carey, for whom the village of Carey was named. It was built about 1850.

A decided traffic hazard, it is estimated that there were 200 pedestrians on the bridge during the same period," the report adds.

The need for precautions against speeding on the bridge is also pointed out in the official statement.
