

CANADA AIDS FOR AMERICAN TANKS

U. S. Acquisition of Pacific Coast Naval Air Bases

WASHINGTON, Sept. 7 (AP)—Canada, it was disclosed today, is negotiating with the United States for the acquisition of military supplies from the United States and desires immediately available, unaided, obsolete World War tanks.

This development, it was made known by Major Percival Gaudin, chairman of the American section of the joint United States-Canadian defense board, and General George C. Marshall, army chief of staff.

Neither discussed the question of what Canada was offering the United States. There is immediate speculation, however, linking the negotiations with possible United States acquisition of Pacific coast naval and air bases.

In connection with Pacific bases, the Gaudin and Gaudin board, owned by Ecuador and Costa Rica, have been mentioned most frequently by naval and air officials, but that a base on the western Canadian coast might prove invaluable in defense of Alaska.

La Guardia told reporters of the defense board that the United States is considering a proposal to lease several hundred obsolete World War tanks to Canada for training purposes.

La Guardia said he was favorably inclined toward the proposal.

The staff chief said the tanks, both light and medium, could be used by the United States Army. La Guardia talked with newsmen after making what he termed a "confidential" report to the president on conference so far held by the defense board.

La Guardia said he had not heard of a report that Canada might be sending a tank from this government, but he volunteered that Canada already has obtained a non-injurious bearing from the United States.

ROSEMARY KILL TWO FUGITIVES

Eleven Convicts Remain at Large Out of 36 in Sentential Bark

LITTLE ROCK, Ark., Sept. 7 (AP)—Eleven convicts, most of them-terrors, remained at large tonight out of the 36 who started on their way to the state penitentiary at Cummins prison farm last night.

Releasers possumed, after killing two of the desperadoes and capturing the other two, they fled with the aid of truck drivers who rounded up the remaining fugitives and hid them in a house in Louisiana and Mississippi.

In retreating wreckage four of the fugitives were killed, two of them by a cabin near Winchester, during the break and a powder was killed near Alton, La., where three high school students were killed and a day was spent in the search for the fugitives. Twenty-one have been taken.

A county guard from Cummins killed in a cabin door and killed James Scott, 21, serving one year for grand larceny, and Harold, 24, serving 21 years for robbery, at the two fired on a posse led by their highway near Winchester by force.

2-Thumbed Alien Presents Problem

BUMMIST, N. J., Sept. 5 (AP)—When a two-thumbed alien applied for registration, Assistant Postmaster John P. Sheridan found a problem moment which did not fit fingerprint but he defied into a law book and came up with a "rule" that solved it.

The statute specified that the outer finger should be fingerprinted in case of "dupes" thumb.

Federal Arbitrator Accuses Strikers

TACOMA, Wash., Sept. 5 (AP)—The International Longshoremen's association "pretext" strike broke the crippled four-day port of Tacoma, Sept. 5, with a flagrant violation of the A.P.A. "no-strike" contract obligations and with all the characteristics of a strike against the government.

These Are "Obsolete" Destroyers

THIS IS A VIEW OF decommissioned U. S. Destroyers, built in 1920, lying idle at the Philadelphia navy yard before the current European war. The United States has commissioned 100 of its over-aged destroyers for sale, and some of them may figure in the agreement by which the United States will send 50 to Great Britain in exchange for a chain of naval and air bases.

DEVICE FOR CARS DEFLECTS GLARE

Attorney-Inventor Develops Transparent Prism To Use on Windshield

SUNTER, S. C., Sept. 5 (AP)—A transparent device, attachable to an automobile windshield, may provide a solution to the problem of headlight glare in night driving.

It is a six-inch-long transparent prism, developed by a young chemist, by Harmon D. Moore, an attorney who perfected a bicycle lamp in the past.

The "tapering" glass, placed in the windshield, deflects the light rays upward over the driver's head and provides a windshield an inch and a half-wide through which the car can see ahead clearly.

Several have been tried on Sunter, and the inventor claims that drivers say they were satisfactorily.

He said he recently obtained a patent on the device.

Although the first prime was made of glass, the inventor has made it of clear plastic and less fragile.

The inventor explained that the material could be drilled, sawed or sanded and that it probably would retain its transparency longer than glass.

Bramham To Rule Only in Case of Twin Falls Appeal

DURHAM, N. C., Sept. 5 (AP)—A federal judge has ruled that he will rule only in the case of an appeal from the national association of professional baseball players, said today that an appeal from the Pioneer league action authorizing transfer of a franchise from Twin Falls to some other city could be brought in.

In absence of the full evidence which would have to be submitted with an appeal, said the spokesman of the A.P.A. "no-strike" contract obligations and with all the characteristics of a strike against the government.

NOMINEE CALLS FOR G.O.P. SWEEP

Willkie Asks Party Leaders To Help Eliminate Per-sonalistic Doctrines

RUSHVILLE, Ind., Sept. 5 (AP)—Vernon L. Willkie told party leaders today that a "sweep" of the Republican party was necessary in the fall election so that the party could be completely eliminated from America.

The Republican presidential nominee made the assertion after a campaign "pre-meeting" which he declared convinced him "all signs of friction" among his supporters have disappeared.

Willkie said he was "preoccupied" with the "personalistic" doctrines of the party, and that any indications of friction between Republican organizations and individuals had disappeared.

STOCK VALUES SWING UPWARD

Gains of 1 to 4 Points Distributed Over List in Active Deals

Markets 'At A Glance'

NEW YORK, Sept. 5.—Stocks, bonds and commodities advanced again today as many market speculators, trading health insurance, the war and business news, indicated buyers.

Gains of 1 to 4 points were well distributed over the entire list in the most active dealings in early trading. Profit-taking on Wednesday's rally was relatively light, and the market moved steadily upward, with prices occasionally watered off to remain level around the majority of the list, when the futures were absorbed.

While prices were a trifle under the best in some cases, the list in the Associated Press advanced 100 stocks had an average of 7 points at 4:30, a 10-point gain in the trading, and not under way last May. The breadth of the market was emphasized by the fact that 100 individual issues were traded. Of these 60 up 30 down and 100 unchanged.

Despite intermittent periods of profit-taking, transfers aggregated 142,500 shares, the largest turnover since June 12. They compared with yesterday's aggregated total of 120,400.

Domestic stock moves included U. S. Steel, Chrysler, U. S. Rubber, Montgomery Ward, Douglas Aircraft, United Aircraft, Sperry, Lockheed, American Telephone, American Smelting, International Nickel, Bank of N. Y. & Co., Central, General Northern, Standard Oil of N. J., Allied Chemical, Eastman Kodak, John Manville, J. C. Penney and Du Pont.

Bethlehem Steel and General Motors were off most of the time but emerged with gains of a point each. Sears Roebuck, Loft and Union Carbide were under water.
